Gods in the Global Village Lester R. Kurtz, 2012 In an era plagued by religious conflict the Third Edition of Gods in the Global Village directly responds to issues of social problems prevalent in the world today Using an engaging thought provoking style author Lester R Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order This book focuses on a central aspect of that common crisis A major assumption of this book is that all knowledge is shaped by the social context of the knower therefore both religious traditions and our studies of them are shaped by the context in which we construct them The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future The question that faces us as a human community is not Which religious tradition is true or even Is any religious tradition true but rather How can we enable the various religious and secular traditions to coexist peacefully on the planet The text supports the belief that the sociology of religion itself a pluralistic discipline can provide invaluable insight into the most pressing problems of our time

Family Law in Lebanon Lubna Tarabey, 2013-09-25 Much of the life and ritual of the Druze in Lebanon appears mysterious to outsiders as this esoteric sect remains closed to non members Lubna Tarabey herself a member of this community is ideally placed to offer insight into the family life tradition and religious practices of the Druze She looks back to the 1970s and the start of a civil war that shattered Lebanon along confessional lines to explore how the substantial social and political changes that have shaken the country have affected marriage and divorce practices Family Law in Lebanon highlights the social ramifications of this civil war as Lebanese society divided according to sectarian affiliations strengthening this facet of identity to the detriment of a wider Lebanese identification It was through this process that the internal cohesion and solidarity of a group such as the Druze became even more important Thus for generations the Druze way of life was characterized by a high degree of traditional practices and customs Examining the development of attitudes towards marriage and divorce uncovers the extent to which these traditions are being developed negotiated and even cast aside Through analysis of court records Tarabey explores established and emerging patterns of marriage choices and grounds for divorce She thus focuses on two interconnected trajectories one that considers the changes in these overall family patterns and another that places these changes within the legal context in which they occur focussing on the interplay between the social and the legal It is through this that she highlights a complex web of change and continuity of traditional values competing with enhanced individualism and personal freedoms
