Readings Plus with Weblinks Linda Stonecipher, Richard Blonna, 1998 *Media and Masculinities in Contemporary Russia* Olga Andreevskikh, 2023-12-01 Based on extensive original research this book examines the extent to which media in Russia upholds the Russian government's stance on sexuality. It considers the Russian government's policies designed to uphold traditional sexuality, reveals the strategies of resistance used by Russian media outlets to create positive portrayals of non heteronormative people and circumvent the restrictive 2013 legislation banning positive representations of non traditional sexual relations and highlights particular examples of subversive media practices. Overall the book challenges the prevailing view that media in authoritarian regimes are completely compliant with their government's position. *News and the Net* Barrie Gunter, 2015-07-16 Originally published in 2003 This book examines the growth of news provision on the internet and its implications for news presentation, journalism practice, news consumers and the business of running news organizations. Much of the focus is placed on the migration of newspapers onto the internet but references are also made to the establishment of news websites by other organizations. The book examines the growth of online technology as a source of information and entertainment and considers how this development can be framed within models of communication and comments on the apparent shortage of new models to explain the use, role, effectiveness and impact of online communications.

Contrastive Media Analysis Stefan Hauser, Martin Luginbuhl, Martin Luginbühl, 2012 Contrastive media analysis is a vast field of academic research that metaphorically speaking comes in many shapes and sizes and therefore is confronted by manifold theoretical and methodological challenges. This contribution focuses on two interrelated aspects: a) the problem of equivalence as a prerequisite of comparison and b) the comparative constellation and its effects on the interpretation of cultural variance. It is important to mention that the discussion in this paper is set against the backdrop of a genre-based approach. Starting from the initially rather unspectacular observation **A Dictionary of Journalism** Tony Harcup, 2014-05-08 A Dictionary of Journalism is an accessible and authoritative quick reference dictionary. It covers over 1 400 wide ranging entries on the terms that are likely to be encountered by students of the subject and aims to offer a broad accessible point of reference on an ever topical and constantly changing field that affects everyone's knowledge and perception of the world. Assuming little or no prior knowledge of the subject it covers terminology relating to the practice, business and technology of journalism as well as its concepts and theories, organizations and institutions, publications and key events. Related topic areas are covered where they impact on or offer explanations of journalism, for example in law where legislation affects journalistic activity and where sociological studies seek to aid the understanding of journalism. Appendices include a timeline of journalistic developments contextualising the ever evolving nature of journalism as well as an index of significant individuals in the field. It is an essential companion to all students taking courses in Journalism and Journalism Studies as well as related subjects such as Communications Studies, Media Studies and Television and Radio Production. **Resources in Education**
