Therborn**

Reagan Regulatory Strategy An Assessment:

The Reagan Regulatory Strategy George C. Eads, Michael Fix, 1984 **Managers Vs. Owners** Allen Kaufman, Lawrence Zacharias, Marvin Jay Karson, 1995 This book deals with a subject of profound importance to understanding the place of the modern corporation in a democratic society This is the inherent conflicts between the interest of corporate owners the shareholders the interest of the larger society and the interest of the managers who run the corporations Managers have created a shared professional ideology that is designed to preserve their autonomy To protect itself from unbridled corporate power government has enacted a myriad regulations to check this power In *Managers vs Owners* the authors describe how in different eras the balance between corporate power and government regulation has changed with the interests of society as a whole The authors conclude by looking at the impact of collective investor action especially institutional investors on the efforts by managers to preserve their autonomy **Handbook of Public Administration** W. Bartley Hildreth, Gerald J.

Miller, Jack Rabin, 2018-01-19 Since the publication of the previous edition the best selling *Handbook of Public Administration* enters its third edition with substantially revised updated and expanded coverage of public administration history theory and practice Edited by preeminent authorities in the field this work is unparalleled in its thorough coverage and comprehensive references This handbook examines the major areas in public administration including public budgeting and financial management human resource management decision making public law and regulation and political economy Providing a strong platform for further research and advancement in the field this book is a necessity for anyone involved in public administration policy and management This edition includes entirely new chapters on information technology and conduct of inquiry In each area of public administration there are two bibliographic treatises written from different perspectives The first examines the developments in the field The second analyzes theories concepts or ideas in the field's literature

Rethinking the Progressive Agenda Susan Rose-Ackerman, 1993-08-23 Rose Ackerman sees recent advances in law and economics as an opportunity to tackle some of the failings of the US state She proposes a progressive and positive agenda of reform rather than simple reduction or expansion of existing functions and services *The SEC and Capital Market Regulation* Anne M Khademian, 1992-11-15 Anne M Khademian addresses the significance of the SEC for securities policy and uses the agency as a model for the study of bureaucracy and bureaucratic theory She examines the interaction of bureaucrats politicians and the White House and connects early debates in the field of public administration with the contemporary arguments of rational choice scholars concerning independence The classic tension within U S federal agencies is between the need to hold bureaucrats politically accountable to elected officials and the need to delegate complex decision making to officials with independent expertise In the SEC this tension is especially pronounced because of the agency's dependence on attorneys and economists Khademian traces the development of a regulatory strategy from the creation of the SEC by FDR in 1934 to the present examines the roles of SEC experts and their political overseers in

Congress as they create policy and evaluates the stability of that policy Her study reveals how the tug of war between demands for accountability and giving freedom to expertise has affected the agency's evolution and its regulatory activities

Policymaking under Adversity Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror's *Public Policymaking Reexamined* by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners

Making Legal History Daniel J. Hulsebosch, R. B. Bernstein, 2013-09-20 One of the academy's leading legal historians William E Nelson is the Edward Weinfeld Professor of Law at New York University School of Law For more than four decades Nelson has produced some of the most original and creative work on American constitutional and legal history His prize winning books have blazed new trails for historians with their substantive arguments and the scope and depth of Nelson's exploration of primary sources Nelson was the first legal scholar to use early American county court records as sources of legal and social history and his work on legal history in England colonial America and New York has been a model for generations of legal historians This book collects ten essays exemplifying and explaining the process of identifying and interpreting archival sources the foundation of an array of methods of writing American legal history The essays presented here span the full range of American history from the colonial era to the 1980s Each historian has either identified a body of sources not previously explored or devised a new method of interrogating sources already known The result is a kaleidoscopic examination of the historian's task and of the research methods and interpretative strategies that characterize the rich complex field of American constitutional and legal history

Donald Trump and American Populism Conley Richard S. Conley, 2020-06-18 Dissecting the populist leadership style of President Donald Trump Places Trump's presidential leadership style within a comparatively historical and political development theoretical framework Considers Trump's use of social media as a form of public politics that represents an adaptation of presidential communication style to new technology while rebuffing the traditional bully pulpit Assesses the impact of Trump's negative rhetoric and efforts to challenge if not delegitimize other national institutions Courts Congress

question media truthfulness and his personalization of political opponents Employs case studies to weigh Trump's political strategy from mobilizing grassroots support to foreign diplomacy This book evaluates the presidency of Donald Trump from a comparative historical approach to connect his populist style to his predecessors Trump's method of communication through social media obviously differs from previous candidates and presidents with populist platforms but his themes a disdain for elites grassroots support majoritarianism anti intellectual discourse and nativism borrow variably from such figures as Andrew Jackson Huey Long Barry Goldwater and Ross Perot As such Trump's approach to governance falls within a long tradition of populism dating to the 19th Century *Governmental Management of Chemical Risk* Rae

Zimmerman,1990-04-05 Well documented organized and written for ready comprehension this new book covers managerial legal and financial strategies that are or can be employed to manage the health risks posed by technology It demonstrates how each strategy is used and which ones are more valuable to decision makers in different situations More than a dozen laws are reviewed through the legislative process providing a clear understanding of governmental processes for risk management Non regulatory and regulatory approaches to risk management are covered from both a theoretical and practical perspective New financial instruments that reduce or prevent consequences of chemical risks are examined Serves a dual purpose GOVERNMENTAL MANAGEMENT of CHEMICAL RISK first provides a comprehensive coverage of components of risk management second it analyzes through case studies emerging patterns of use of risk management techniques to determine what makes a success or failure This book deals with **The Oxford Handbook of U.S.**

Environmental Policy Sheldon Kamieniecki,Michael Kraft,2013 Prior to the Nixon administration environmental policy in the United States was rudimentary at best Since then it has evolved into one of the primary concerns of governmental policy from the federal to the local level As scientific expertise on the environment rapidly developed Americans became more aware of the growing environmental crisis that surrounded them Practical solutions for mitigating various aspects of the crisis air pollution water pollution chemical waste dumping strip mining and later global warming became politically popular and the government responded by gradually erecting a vast regulatory apparatus to address the issue Today politicians regard environmental policy as one of the most pressing issues they face The Obama administration has identified the renewable energy sector as a key driver of economic growth and Congress is in the process of passing a bill to reduce global warming that will be one of the most important environmental policy acts in decades The Oxford Handbook of U S Environmental Policy will be a state of the art work on all aspects of environmental policy in America Over the past half century America has been the world's leading emitter of global warming gases However environmental policy is not simply a national issue It is a global issue and the explosive growth of Asian countries like China and India mean that policy will have to be coordinated at the international level The book will therefore focus not only on the U S but on the increasing importance of global policies and issues on American regulatory efforts This is a topic that will only grow in importance in the

coming years and this will serve as an authoritative guide to any scholar interested in the issue **Can the Welfare State Compete?** Ian Gough, Alfred Pfaller, Goran Therborn, 1991-03-05 The authors examine how the USA Great Britain France Sweden and Germany have responded to the increasing challenge of international competition since the mid 1970s Apart from in Sweden the pursuit of competitiveness has undermined economic and social citizenship rights and this has in Britain and the USA engendered an assault upon the idea of the welfare state Solidarity and social discipline will be severely tested if the welfare state is to remain economically and politically viable in a highly competitive modern world **Beyond the New Deal Order** Gary Gerstle, Nelson Lichtenstein, Alice O'Connor, 2019-12-27 Ever since introducing the concept in the late 1980s historians have been debating the origins nature scope and limitations of the New Deal order the combination of ideas electoral and governing strategies redistributive social policies and full employment economics that became the standard bearer for political liberalism in the wake of the Great Depression and commanded Democratic majorities for decades In the decline and break up of the New Deal coalition historians found keys to understanding the transformations that by the late twentieth century were shifting American politics to the right In Beyond the New Deal Order contributors bring fresh perspective to the historic meaning and significance of New Deal liberalism while identifying the elements of a distinctively neoliberal politics that emerged in its wake Part I offers contemporary interpretations of the New Deal with essays that focus on its approach to economic security and inequality its view of participatory governance and its impact on the Republican party as well as Congressional politics Part II features essays that examine how intersectional inequities of class race and gender were embedded in New Deal labor law labor standards and economic policy and brought demands for employment economic justice and collective bargaining protections to the forefront of civil rights and social movement agendas throughout the postwar decades Part III considers the precepts and defining narratives of a post New Deal political structure while the closing essay contemplates the extent to which we may now be witnessing the end of a neoliberal system anchored in free market ideology neo Victorian moral aspirations and post Communist global politics Contributors Eileen Boris Angus Burgin Gary Gerstle Romain Huret Meg Jacobs Michael Kazin Sophia Lee Nelson Lichtenstein Joe McCartin Alice O Connor Paul Sabin Reuel Schiller Kit Smemo David Stein Jean Christian Vinel Julian Zelizer **University of Chicago Law Review: Volume 79, Number 4 - Fall 2012** University of Chicago Law Review, 2012-01-30 A leading law review offers a quality ebook edition This fourth issue of 2012 features articles from internationally recognized legal scholars and extensive research in Comments authored by University of Chicago Law School students Contents for the issue are ARTICLES Elected Judges and Statutory Interpretation by Aaron Andrew P Bruhl footnotes are fully linked and properly numbered graphs and figures are reproduced legibly URLs in footnotes are active and proper eBook formatting is used Signals from the Hill Christopher H. Foreman, 1988-01-01 Does Congress do a good job of overseeing the work of the important legislative agencies the EPA FDA OSHA and others that it has established to protect the public from some of the risks of modern

technology Combining analysis and anecdote Christopher H Foreman Jr looks into the oversight tools available to Congress the variety of interest groups involved the kinds of issues that arise between agencies and congressional committees and the personal networks that affect relations between them and he suggests what Congress can and should do to improve the process of social regulation Foreman adds substantially to our understanding of the role played by oversight A solid contribution toward understanding the nature of day to day congressional oversight Burdett Loomis Journal of Politics This book is presented clearly free from jargon whether academic or governmental A solid discussion of oversight Jan P Vermeer Perspective This is a thoughtful effectively organized and well written book Those concerned with legislative oversight will find it highly useful Morris S Ogul University of Pittsburgh Winner of the 1989 D B Hardeman Prize given by the Lyndon Baines Johnson Library for the best book on Congress in the twentieth century

The Dormant Noise Control Act and Options to Abate Noise Pollution Sidney A. Shapiro,1991 Modern Organizations Ali Farazmand,2002-07-30

Farazmand and his contributors examine modern organization theory and behavior They view organization in two ways As an organization of society into public private and nonprofit sectors and they examine the power structure and those power elites who determine policy choices and outcomes They also look at organizing activity such as creating institutional arrangements to perform certain functions or tasks as well as organizational entities of all sizes Using a balanced approach to analyze modern organizations managerial expectations and individual citizen expectations and demands the book presents a succinct analysis of theoretical and conceptual perspectives on modern organizations their management and their interactions with other organizations in an environment that is becoming increasingly global and integrated worldwide Although all organizations are covered the emphasis is placed mainly on public organizations The book also addresses key issues of organizational change reform and reorganization of governments in both theoretical and empirical ways A key text and handbook for scholars students researchers and practitioners of public administration and the management of nonprofit organizations *For Your Information, New Acquisitions* National Defense University. Library, **New Acquisitions**

National Defense University. Library,1985 **Regulatory Issues Since 1964** Robert F. Himmelberg,1994 First Published in 1994 Routledge is an imprint of Taylor Francis an informa company **Achievements and Legacy of the Obama**

Presidency Michael Grossman,Ronald Eric Matthews,Francis Schortgen,2022-01-22 This book provides a broad analysis of the legacy of the Obama presidency representing multiple perspectives across the partisan and disciplinary divides The chapters in this book are grouped into three major legacy categories domestic policy foreign policy and rhetoric Domestically the contributors examine the Obama coalition and its staying power in the age of Trump President Obama s legacy regarding the use of executive power his impact on intergovernmental relations and his impact on the welfare state and education On the foreign policy front the central focus is on whether Obama was in fact much different from his predecessor what impact he had on the Middle East and Afghanistan and whether his pivot to Asia yielded the hoped for results The contributions in

this book also aim to re assess the Obama legacy in light of the subsequent efforts by his successor to undo many of the policies embraced and implemented during the Obama years
