Maria Francesca Piazzoni, 2018-10-30 Thames Town an English like village built in Shanghai is many places at once a successful tourist destination an affluent residential cluster a city of migrant workers and a ghost town **The Real Fake** explores how the users of Thames Town transform a themed space into something more than a fake place Piazzoni understands authenticity as a dynamic relationship between people places and meanings that enables urban transformations She argues that authenticity underlies the social and physical production of space through both top down and bottom up dynamics The systems of moral and aesthetic judgments that people associate with the authentic materialize in Thames Town Authenticity excludes some users as it inhibits access and usage especially to the migrant poor And yet ideas of the authentic also encourage everyday spontaneous appropriations of space that break the village's staged atmosphere Most scholars criticize theming by arguing that it produces a fake controlling city Piazzoni complicates this view by demonstrating that although the exclusionary character of theming remains unquestionable it is precisely the experience of fakeness that allows Thames Town's users to develop a sense of place Authenticity the ways people construct and spatialize its meanings intervenes holistically in the making and remaking of space **The Socialness of Things** Stephen H. Europe expanded its empires in the sixteenth and seventeenth centuries it came to dominate many peoples especially in America whose cultures and legal systems differed dramatically from its own The resulting conflicts of both law and custom posed difficult problems How could these conflicting laws and customs be adjusted within a common political administration And in particular how could legal remedy be provided for groups of lesser political weight Woodrow Borah vividly depicts one of the more unusual institutions that arose in response to these problems the General Indian Court of New Spain In what is today Mexico the conquering Spaniards had at first attempted to preserve such Indian customs as were deemed not contrary to reason or Christianity However as interpreted by Spanish judges so much turned out to be contrary to these standards that native customs were soon recast in largely Spanish norms At the same time the conquered Indians discovered the uses of the Spanish courts unleashing a flood of litigation The ensuing social and economic upheaval sparked great concern among Spanish administrators and jurists The result was the establishment of the General Indian Court a remarkably innovative special jurisdiction vested in the viceroy and corps of legal aides Expenses were paid from a small contribution by each Indian family in effect legal insurance Woodrow Borah analyzes the kinds of cases that came before this court the decisions it reached and the policies underlying these decisions He enriches this study by examining the separate but parallel structures in the Yucatan peninsula and on the seigneurial estate of Hern n Cort s and by comparing the General Indian Court to the tribunals of Guadalajara which had no similar special arrangements The development of the General Indian Court and the relation of the legal aides to their Indian clients and to other lawyers form a complicated story of both service and exploitation and contribute an important chapter to the history of colonial Mexico
