Rights,1992 *Banking, Lending and Real Estate* Claudio Scardovi,Alessia Bezzecchi,2019-05-23 This book deals directly
with the risk return multiple trade offs coming out of the closely intertwined relationship between banking and real estate
The authors explore how banks could embrace a more proactive approach to make the most of their mostly long only
exposure to real estate and create positive spillover effects on their real estate counterparts and the sector as a whole It
provides a state of the art representation and analysis of the strategies that best practices in banking are adopting to manage
these issues and plan for a new set of interrelations driving a virtuous circle as opposed to the current one Banking Lending
and Real Estate is built on the academic knowhow and professional expertise of the authors who have been researching
writing and working on this joint topic for over a decade With its pragmatic approach it allows the reader to capture which
leading hedge active and holistic approaches are available today and proven to treat for example the banks overexposure to
this asset class to manage unlikely to pay and sub performing positions and to optimize the recovery value coming from the
work out of real estate related NPL and underlying assets Case studies and relevant examples are provided leveraging on the
authors experience in consulting projects in the EMEA region and from working with global regional and domestic banks and
the real estate players acting across its value chain This book will appeal to both academics and business practitioners within
the banking financial services and real estate sectors as well as professionals from financial and strategic industrial advisory
working in those fields *Mortgage Lending and Investing* John W. Starke,1991 **Holistic Active Management of
Non-Performing Loans** Claudio Scardovi,2015-11-05 This book discusses the most critical issues relating to the recovery of
bad loans a major problem that European banks urgently need to address and resolve The book describes in an innovative
but also pragmatic way the new approaches techniques and models for optimal management of non performing loans NPLs
and the maximization of their recovery value Drawing on a rigorous academic background and the latest real life experiences
of major European banks it details a novel means of dealing with NPLs based on velocity the holistic use of tools and
accelerators and the active management of collaterals Also there is a specific focus on the smart use of big data and on the
development of bad banks at both the single bank and the system wide level Ultimately credit workout is defined as a core
capability for any competitive bank and as a quite interesting business opportunity for independent specialized alpha players
