Real Events Revisited:

Alternate History Kathleen Singles, 2013-10-14 While strictly speaking Alternate Histories are not Future Narratives their analysis can shed a clear light on why Future Narratives are so different from past narratives Trying to have it both ways most Alternate Histories subscribe to a conflicting set of beliefs concerning determinism and freedom of choice contingency and necessity For the very first time Alternate Histories are here discussed against the backdrop of their Other Future Narratives The volume contains in depth analyses of the classics of the genre such as Philip K Dick's The Man in the High Castle and Philip Roth's The Plot against America as well as less widely discussed manifestations of the genre such as Dieter Kuhn's N Christian Kracht's Ich werde hier sein im Sonnenschein und im Schatten and Quentin Tarantino's film Inglourious Basterds

The Theater of Trauma Michael Cotsell, 2005 The Theater of Trauma is a groundbreaking rereading of the relations between psychology and drama in the age of Eugene O'Neill Susan Glaspell and their many brilliant contemporaries American modernist Theater of Trauma drew its vision from the psychological investigation of trauma and its consequences among them hysteria and dissociation made by French and American psychiatrists such as the great Pierre Janet Alfred Binet William James Morton Prince and W E B Du Bois the European and American dissociationist culture that developed around their work and the resulting trauma of World War I American dramatists deep resistance to Freud's suppression of trauma challenges the equation of Freud and modernism that has become commonplace in modernist criticism

Developing Psychotherapeutic Innovation and Imagination through Phenomenology and Qualitative Research Del Loewenthal, Angela Abela, 2025-09-29 This book presents contemporary studies in qualitative psychotherapeutic research examining their effectiveness in developing psychotherapeutic innovation and imagination There is a focus on phenomenology particularly given the growing prominence of interpretative phenomenological analysis IPA The book explores the tension between different forms of therapeutic knowledge theoretical explicit knowledge practice derived explicit knowledge and the crucial

yet elusive tacit knowledge that emerges through clinical experience While qualitative research methods attempt to transcend the limitations of quantitative approaches and access the communities of practice where tacit knowledge resides the book questions their effectiveness in this pursuit It argues that although phenomenological approaches offer valuable insights into both explicit and tacit dimensions of therapeutic practice their increasing psychological orientation rather than adherence to philosophical foundations may ultimately constrain psychotherapeutic innovation and imagination This volume will appeal to psychotherapists clinical psychologists qualitative researchers in mental health and graduate students in psychology and counselling It addresses key subject areas including psychotherapy research methodology qualitative approaches in mental health IPA applications philosophical underpinnings of therapeutic knowledge and the ongoing debate around evidence based practice in psychology Academics researching psychotherapy and practitioners seeking to understand knowledge development and innovation in therapy will find this work particularly valuable The chapters in this book were originally published as a special issue of European Journal of Psychotherapy and Counselling and are accompanied by an updated Introduction and a new Endnote

The Shadow of the Second Mother Prophecy Coles, 2015-02-20 The Shadow of the Second Mother explores why has there been such little interest in psychology social history and biography in the important contribution that second mothers such as wet nurses and nannies have had upon the emotional life of the children they have nursed For the last three thousand years and throughout most civilisations they have nurtured the children of the privileged and kept alive the abandoned and unwanted child and yet there has been a profound silence surrounding the influence they may have had The author explores the lives of several well known people who have been wet nursed such as Michelangelo Rousseau Jack London Nabokov and Klein She speculates that they all were affected emotionally by their second mother and concludes that a universal feature of such delegated mothering seems to be that the bond between mother and child is broken and the child may be left with a life long distrust of close relationships In The Shadow of the Second Mother Coles combines an exploration of attachment theory with neurology making it possible to give an explanation as to why these important figures have lain unnamed and ignored in our social and psychological consciousness This intriguing new approach to an ancient practice will be fascinating reading for psychotherapists psychoanalysts sociologist and students of social history

Fox, Mary-Louise Corr, Steph Alger, Ian Butler, 2015-07-16 Surveys reveal that domestic abuse is more commonplace among teenagers and young adults than older populations yet surprisingly little is written about young men s involvement in it Reporting on a three year study based in the UK this book explores young men s involvement in domestic abuse whether as victims perpetrators or witnesses to violent behaviors between adults Original survey data focus group material and in depth biographical interviews are used to make the case for a more thoroughgoing engagement with the meanings young men come to attribute to violent behavior include the tendency among many to configure violence within families as fights that call for acts of male heroism The book also highlights the dearth of services interventions for young men prone to domestic abuse and the challenges of developing responsive practice in this area Each section of the book highlights further online resources that those looking to conduct research in this area or apply its insights in practice can draw upon

Teaching the American Civil Rights Movement Julie Buckner Armstrong, Susan Hult Edwards, Houston Bryan Roberson, Rhonda Y. literature and political science **Revisiting and Revising the Fifties in Contemporary US Popular Culture** Eleonora Ravizza, 2020-05-25 In this book Eleonora Ravizza analyzes how contemporary American popular culture has represented and reproduced the fifties By investigating the cultural work of films and TV series from the last two decades the book uncovers the inherent limitations of a revisionist take on the fifties Ravizza argues that due to the visual nature of the fifties crystallized in American consciousness through the widespread influence of television most contemporary attempts to rework and rewrite the regressive gender queer and racial politics fall short of such a revisionist reevaluation *Revisiting the Colonial Past in Morocco* Driss Maghraoui, 2013-07-18 Exploring the concept of colonial cultures this book analyses how these cultures both transformed and were transformed by their various societies Challenging both the colonial vulgate and the nationalist paradigm *Revisiting the Colonial Past in Morocco* examines the lesser known specificities of particular moments practices and institutions in Morocco with the aim of uncovering a new colonial history By examining society on a micro level this book raises the profiles of the mass of Moroccans who were highly influential in the colonial period yet have been excluded from the historical record because of a lack of textual source material Introducing social and cultural history gender studies and literary criticism to the more traditional economic political and military studies the book promotes a more complex and nuanced understanding of Moroccan colonial history Employing new theoretical and methodological approaches this volume encourages a re assessment of existing work and promotes a more interdisciplinary approach to the colonial history of Morocco *Revisiting the Colonial Past in Morocco* is a highly topical and useful addition to literature on the subject and will be of interest to students and scholars of History Imperialism and more generally Middle Eastern Studies

Revisiting Centres and Peripheries in Iberian Studies Mark Gant, 2019-08-05 Like its predecessor and companion volume *New Journeys in Iberian Studies* this volume gathers fresh and emerging research in a range of sub fields of Iberian studies from an international range of established academics and early career researchers The book provides rich evidence of the breadth and depth of new research being carried out in the dynamic field of Iberian studies at present As the title suggests a strong thread running through the collection is concerned with investigating the multiple spaces of tension between the centre and periphery that comprise the Iberian cultural system Topically the current situation in Catalonia naturally comes to the fore in a number of chapters and from a range of perspectives However in the revisiting of a range of cultural products and historical processes undertaken by the contributors it can be seen that transoceanic postcolonial relations are not neglected and concerns with history memory and fiction also weave their way through their work

Revisiting the Days of Genesis Bryan C. Hodge, 2011-01-01 A commitment to historical grammatical hermeneutics often has been confused with a commitment to literal language Time in our modern conception has been construed as a measurement of temporal units and the numbers assigned to them as merely counting those units However a study is needed to explore whether this is the Genesis author s use of time and whether numerical values utilized suggest something other

than tracking simple measurements This book attempts to offer an answer to this question by analyzing the ancient Near Eastern and literary context of the Book of Genesis in terms of its use of temporal language in determining its value within the narrative It is the contention of this book that both of these concepts have been misunderstood to such an extent that these misperceptions often obstruct interpreters from understanding the sociological and theological intent of the author to convey a theology of God man creation and chaos that addresses concerns of both the ancient and the modern reader
