**Adapting Macbeth** William C. Carroll, 2022-01-27 In this study William C Carroll analyses a wide range of adaptations and appropriations of *Macbeth* across different media to consider what it is about the play that compels our desire to reshape it Arguing that many of these adaptations attempt to improve or correct the play's perceived political or aesthetic flaws Carroll traces how *Macbeth*'s popularity and adaptability stems from several of its formal features its openly political nature its inclusion of supernatural elements its parable of the dangers of ambition its violence its brevity and its domestic focus on a husband and wife The study ranges across elite and popular culture divides from Sir William Davenant's adaptation for the Restoration stage 1663-4 an early 18th century novel *The Secret History of Macbeth* and Verdi's *Macbeth* through to 20th

and 21st century adaptations for stage and screen as well as contemporary novelizations young adult literature and commercial appropriations that testify to the play's absorption into contemporary culture      *The Play Within the Play* Gerhard Fischer, Bernhard Greiner, 2007 The thirty chapters of this innovative international study are all devoted to the topic of the play within the play The authors explore the wide range of aesthetic literary theoretical and philosophical issues associated with this rhetorical device not only in terms of its original meta-theatrical setting from the baroque idea of a theatrum mundi onward to contemporary examples of postmodern self-referential dramaturgy but also with regard to a variety of different generic applications e.g. in narrative fiction musical theatre and film The authors internationally recognized specialists in their respective fields draw on recent debates in such areas as postcolonial studies game and systems theories media and performance studies to analyze the specific qualities and characteristics of the play within the play as ultimate affirmation of the self the Hamlet paradigm as a self-reflective agency of meta-theatrical discourse and as a vehicle of intermedial and intercultural transformation The challenging study with its underlying premise of play as a key feature of cultural anthropology and human creativity breaks new ground by placing the play within the play at the centre of a number of intersecting scholarly discourses on areas of topical concern to scholars in the humanities      *The Best Plays of ...*, 2006      **Tom Stoppard in Conversation** Tom Stoppard, 1994 British playwright Tom Stoppard in his own words
