The Philosophy of Religion and Advaita Vedanta Arvind Sharma, 2008-01-31 Philosophy of religion as we know it today emerged in the West and has been shaped by Western philosophical and theological trends while the philosophical tradition of India flowed along its own course until the late nineteenth century when active if tentative contact was established between the West and the East This book provides a definite focus to this interaction by investigating issues raised in Western philosophy of religion from the perspective of Advaita Ved _nta the influential school of Indian thought In promoting the emergence of a cross cultural philosophy of religion Arvind Sharma focuses on John H Hick and his well known work The Philosophy of Religion as representative of modern Western philosophy of religion and on _ankara along with his modern successors such as M Hiriyanna and S Radhakrishnan as representative of Advaita Ved _nta

THE REAL AND THE UNREAL BILL DAVIDSON, 1961

The Realist Hope Dr Christopher J Insole, 2013-05-28 Taking into consideration analytical continental historical post modern and contemporary thinkers Insole provides a powerful defence of a realist construal of religious discourse Insole argues that anti realism tends towards absolutism and hubris Where truth is exhausted by our beliefs about truth there is no conceptual space for doubting those beliefs only a conception of truth as absolute given and accessible can guarantee the very humility sense of fallibility and sensitivity to difference that the anti realist rightly values Cutting through some of the tired and well rehearsed debates in this area Insole provides a fresh perspective on approaches influenced by Wittgenstein Kant and apophatic theology The defence of realism offered is unusual in being both analytically precise and theologically sensitive with a view to some of the wider and less well explored cultural ethical and political implications of the debate

The reality of film Richard Rushton, 2013-07-19 In formulating a notion of filmic reality The Reality of Film offers a novel way of understanding our relationship to cinema It argues that cinema need not be understood in terms of its capacities to refer to reproduce or represent reality but should be

understood in terms of the kinds of realities it has the ability to create The Reality of Film investigates filmic reality by way of six key film theorists Andr Bazin Christian Metz Stanley Cavell Gilles Deleuze Slavoj i ek and Jacques Ranci re In doing so it provides comprehensive introductions to each of these thinkers while also debunking many myths and misconceptions about them Along the way a notion of filmic reality is formed that radically reconfigures our understanding of cinema This book is essential reading for film scholars students and philosophers of film while it will also appeal to graduate students and specialists in other fields

Memorious Discourse Christian Moraru,2005 While other types of discourse cover up gloss over or play down what they have borrowed and therefore owe the postmodern eagerly acknowledges its textual and cultural debt Moreover it turns this indebtedness into an unexpected source of creativity and originality In his wide ranging discussion of contemporary writers and theorists Moraru notes that postmodernism characteristically re presents That is it actively remembers and to use a musical term reprises former representations These need not be infinite in number as in Borges but must be and usually are retrieved with sufficient obviousness Jacket

Dreams, Illusion, and Other Realities Wendy Doniger

O'Flaherty, 2015-05-14 Wendy Doniger O'Flaherty weaves a brilliant analysis of the complex role of dreams and dreaming in Indian religion philosophy literature and art In her creative hands enchanting Indian myths and stories illuminate and are illuminated by authors as different as Aeschylus Plato Freud Jung Kurl G del Thomas Kuhn Borges Picasso Sir Ernst Gombrich and many others This richly suggestive book challenges many of our fundamental assumptions about ourselves and our world Mark C Taylor New York Times Book Review Dazzling analysis The book is firm and convincing once you appreciate its central point which is that in traditional Hindu thought the dream isn't an accident or byway of experience but rather the locus of epistemology In its willful confusion of categories its teasing readiness to blur the line between the imagined and the real the dream actually embodies the whole problem of knowledge O'Flaherty wants to make your mental flesh creep and she succeeds Mark Caldwell Village Voice
