Turkish Instinct or the Praise of Genocide Wahi Kachichyan, 2018-05-25 Where are the Armenians of the Armenian highland Where on earth have they gone How did they disappear How is it that of the 7 million Armenians existing in the 14th century was left only two million by 1920 that otherwise if no genocides were inflicted should have counted as much as 75 million people today instead of 10 Communism and Nazism could implement such a racist and xenophobic ideology only for 70 and 25 years respectively causing that amount of human and material damage and aberration we all know No other genocide has ever lasted so many centuries and no other state has perpetrated as many genocides against as many ethnicities as Turkey An estimated 11 million Armenians have been reportedly exterminated from 1065 to 1923 through a mechanism of cyclical genocides More than 4 million Christians endured genocide and died at the hands of the Turks between 1890 and 1923 Let us not forget the scope and brutality of the events that exterminated the three quarter of the Armenian people reduced the Armenian homeland and its colossal cultural heritage to rubble Armenia was then occupied and partitioned among neighboring countries More than 3 thousand Armenian churches were either confiscated destroyed dilapidated blown up turned into stores stables or mosques intentionally left to fall into disrepair or ruination Ottoman Turkish Pan Turkist and radical Islamist establishments have never concealed a certain fascination glorification and praise for genocide to the point to elevating it to a state adopted strategy dogma to a mystification extent supported with a contributive and elusive ideology denial And genocide deniers are three times more likely to commit genocide again than other governments Neither Armenian nor Turkish historiography have ever reported even fringe elements of Turkish establishment and political school of thought open to dialog with Armenians much less a sympathizer if at all Historically all genocide committing countries have manifested resentment and promoted reconciliation

with the survivors except for Turkey thus holding the truth hostage through denial and distortive misinformation preventing even its own people from accessing to genocide historical information although 15 years ago only 2% of Turkish population knew and accepted the truth presently 15% and threatening the international community of any recognition consequences Somebody has to invite Turkey to rationality responsibility and consciousness If the Armenians were to be assimilated Islamized and Turkified genocide wouldnt happen Ottoman Turkey lost the war and the empire but gained the battle against the Armenians An estimated 6 to 8 million hidden or crypto Armenians the progeny of the orphans and the Islamized Armenians who survived will be challenging Turkey in the foreseeable future whims of history Since the Ottoman Turks incursions into Asia Minor genocide never ceased nor the Christian community took the trouble to protect the first Christian nation state on earth To quote Martin Luther King In the end we will remember not the words of our enemies but the silence of our friends

The Rise Of The Antichrist Kamran Faqir,2019-04-02 The Rise of The Antichrist carefully investigates the measurable effects of politics religion science and technology on the human psyche All mainstream religions traditionally share similar perspectives regarding the Antichrist and his developing systems which have been foretold by all prophets or messengers dutifully sent to every nation over time This book carefully explores the much debated topic of the Antichrist regarding his future emergence Will he lead humanity to eternal darkness or enlightenment Although modern science and human history popularly refer to the last 5 000 15 000 years of development in reality there are signs and evidence that human development is considerably older with possibilities of supernatural or otherworldly intervention This book explores stories such as the Nimrod who meticulously researched into longevity and occult magic with a possibility of alien or supernatural influence which was captured on stone glyphs Throughout history there have been developed mighty empires whose chosen kings proclaimed to be Gods But were they actually inter dimensional beings This book will ideally suit readers with an active interest in religion historical events and those interested in a thought provoking read

Oil and American Identity Sebastian Herbstreuth,2014-09-10 American dependence on foreign oil has long been described as a serious threat to U S national security and continues to be a political flashpoint even as domestic fracking eases the US reliance on imported energy Oil and American Identity offers a fresh perspective on the subject by reframing energy dependency as a cultural discourse with intimate connections to American views on independence freedom consumption abundance progress and American exceptionalism Through a detailed reading of primary literature Sebastian Herbstreuth also shows how the dangers of foreign oil are linked to American descriptions of foreign oil producers as culturally different und thus undependable Herbstreuth shows how even reliable imports from the Middle East are portrayed as dangerous and undesirable because this region is particularly foreign from an American point of view while oil from friendly countries like Canada is cast as a benign form of energy trade Oil and American Identity rewrites the history of U S foreign oil dependence as a cultural history of the United States in the 20th century

over thirty years in Washington's corridors of power In *All the President's Men* it was he together with Carl Bernstein who exposed the Watergate scandal and he has been giving us a privileged front row seat to White House intrigue and decision making ever since With *PLAN OF ATTACK* he brings his investigative skills to bear on the administration of George W Bush and the build up to war in Iraq What emerges is a fascinating and intimate portrait of the leading powers in Bush's war council and their allies overseas as they prepare their pre-emptive attack and change the course of history

North Korea in Quotation, 2005-06-30 Since the end of World War II the small country of North Korea has occupied a disproportionate amount of the world's diplomatic and military attention Its defiance of the international community has mystified and frustrated generations of leaders both in Asia and throughout the world With its closed borders and xenophobic leadership little is known about North Korea's government or its intentions leaving us to examine the words of the country's leaders and international statesmen analysts and journalists for a balanced critical assessment of North Korea and its relationship to the world The 20 categories covered here provide an overview of the breadth of issues facing the Northeast Asian country For each quote the speaker and his or her title are identified along with the original source of the quotation and its context Indexed by speaker subject and keywords [Marfa and Presidio County, Texas](#) Louise O'Connor and Cecilia Thompson, 2014-10-16 In their quest to complete their study and to share a better knowledge and understanding of a part of Texas that is still somewhat a frontier authors Louise S O Connor and Cecilia Thompson reveal the first volume of their book *Marfa and Presidio County Texas A Social Economic and Cultural Study 1937 to 2008 Volume One 1937 1989* In a book that offers a closer look at the past and the present readers will see how a place known as a tourist area and a center of contemporary art came to be It returns to the pre-historic era of Far West Texas and bring readers up to the present with yearly reports on the region as well as extensive formal research and personal interviews with present day people who live in Presidio County A case study worth reading this book is an eye opener for a better understanding of how this small yet historically rich land is what it is now Packed with the economic social and cultural history of Presidio County this book gives readers both lay and the historians a clear and complete picture of the events that lead to the preservation industrialization and the improvement of one of the frontiers of the United States of America *Military Review*, 2007

Cold Breezes and Idiot Winds Valerie Scatamburlo d'Annibale, 2011-11-19 After 9/11 rightists capitalized on an atmosphere of fear and confusion to resuscitate the culture wars of the 1990s and once again targeted the academy Using tactics reminiscent of the McCarthy era religious firebrands militant neoconservatives and free market fundamentalists engaged in a concerted effort to silence voices critical of the war on terror and liken legitimate dissent to treason Brandishing a discourse of patriotic correctness PC that was informed by American exceptionalism Christian nationalism anti-intellectualism and virulent anti-liberalism this coalition portrayed the professoriate as a dangerous cabal seeking the demise of Western civilization In *Cold Breezes and Idiot Winds* Scatamburlo D Annibale explains why the most recent assault on academe must be understood in

relation to the right's broader offensive against liberalism. For decades conservatives have worked diligently to construct a network of foundations, think tanks, and campus organizations dedicated to demonizing progressive thought, the legacy of the New Deal era, and the democratic social reforms of the 1960s. The author provides a detailed examination of this ideological infrastructure and how it advanced the agenda of PC post 9/11. She explores how the campaign for PC was aided and abetted by a right-wing media apparatus, how it continues to threaten academic freedom on campuses, and how it is currently infecting the larger body politic and contributing to the increased toxicity of the nation's public dialogue. While purveyors of PC often invoke culture war rhetoric, Scatamburlo D. Annibale adroitly reveals that their ultimate aim is to protect corporate power from any form of democratic accountability.

Review of Current Military Literature, 2007 **Professional Journal of the United States Army**, 2007-07 **The War on Terror and the Caribbean** Emanuel Quashie, 2025-05-05

This book offers a multifaceted understanding of how the 9/11 attacks and the subsequent War on Terror affected the Caribbean. This book dives deeper into how the 9/11 attacks and the subsequent War on Terror impacted the region's tourism industry, anti-terrorism legislation, and the banking, financial, and immigration system. This book analyzes the US-led War on Terror through a broader conceptual lens, i.e., using two Schmittian perspectives: the friend-enemy and the sovereign-in-times-of-exception, which offers an opportunity for the methodological interpretation of Bush's counterterrorism policy to give a novel conceptual understanding of the War on Terror in relation to the Caribbean. Thus, this book offers a nuanced and novel perspective on the subject matter. This book will be of much interest to students studying about terrorism, Caribbean studies, political theory, and international relations.
