Reinventing a Small, Worldly City Ana Gonçalves, 2016-11-10 Focusing on Cardiff the capital city of Wales in the UK this book reflects on a contemporary small European city its development characteristics and present struggles Following a century in which it was dubbed the world's coaltropolis the decline in demand for coal meant that Cardiff endured an acute process of de industrialisation In seeking to address this and the related high levels of unemployment it has experienced a process of cultural and social reinvention since the 1980s and more significantly after Wales turned into a devolved nation in the late 1990s Cardiff's development from a small port into a capital city is examined and special attention is paid to the city's cultural and social transformation in recent decades that has relied on the expansion of specific cultural clusters and tourism which have been decisive for the transformation of its cultural identity and in shaping the city's individual and collective memories and identities Cardiff epitomises a quintessential case of urban reinvention cultural regeneration and social transformation lying between two apparently contradictory paradigms the need to respond to global demands and the effort to maintain its cultural distinctiveness and Welsh roots Therefore it sets the scene for a wider reflection on small cities especially in the European setting and what generally characterises these cities their liveability cultural creativity and community empowerment as well as the fact that they facilitate mobility and social interaction These worldly cities the book contends present interesting opportunities and challenges at the urban economic social and cultural levels that rely on more human scale people based approaches to cities thus defying existing urban hierarchies and categorisations

The Two Worlds ,1926

Popular and Visual Culture Ricardo Campos,Rúben Pinho,Clara Sarmiento,2014-10-02 Popular and Visual Culture Design Circulation and Consumption is a transnational project that fosters a dialogue with multiple origins both in geographical and academic terms From the onset this book questions the concepts of visual and popular culture terms which are currently applied both to describe scientific fields as operative concepts in theoretical discourse and to characterize specific cultural contexts The book s analysis and categorization of visual and popular culture pursues discourses and practices which mark different historical eras and shape social orders Because popular iconic and written productions are the outcome of a network of political economic ideological and social circumstances that are often hardly detectable and too taken for granted to be critically recognized even by those who draw paint or write and live under their influence That is why visual figurations of popular culture should be studied as the support of a deeply motivated symbolic discourse on the values shared by a community This book deals in a way or another with how popular and visual artefacts and sceneries are socially built preserved and or contested The volume brings together not only different disciplinary perspectives but also diverse empirical phenomena while approaching the wide subject of visuality and popular culture

Central New York & The Finger Lakes Melanie Zimmer,2008-08-01 With this

Contemporary Authors Lisa Kumar,2004-04 A biographical and bibliographical guide to current writers in all fields including poetry fiction and nonfiction journalism drama television and movies Information is provided by the authors themselves or drawn from published interviews feature stories book reviews and other materials provided by the authors publishers *Captain Scott's Scrapbook* Margot Dixon,2024-04-30 Amongst the family albums her mother had kept Margot Dixon found something very curious Captain Samuel F Scott s old scrapbook Who was this man And why did her family have his scrapbook As she read through the book full of one of a kind documents she soon realized this intriguing scrapbook was much more than a family curiosity From the items within the scrapbook and Margot s own research a fascinating story emerged one of a life on the high seas in the late nineteenth century sailing across some of the most dangerous waters facing storms shipwrecks illness war mutiny and tragedy Born in New Brunswick Captain Scott along with his family sailed across the world for various shipping companies While sailing from England to India his wife and two of his children tragically died Returning to Canada he remarried and with his family in tow sailed three times across the Atlantic and Pacific oceans But after years at sea and another tragedy Captain Scott turned to gold mining in British Columbia then explored business opportunities along the west coast of Canada and the United States before his untimely death Based on the documents in

Captain Scott's original scrapbook collected during his lifetime 1847-1905 and then transcribed by Margot Captain Scott's Scrapbook provides an intimate account of one of Canada's most remarkable post-confederate shipmasters Rebirth of a Nation Kenneth O. Morgan, 1981 A wide-ranging and comprehensive analysis of modern Welsh history by the acclaimed historian Kenneth O. Morgan Taking as its starting point 1880 the book covers all aspects of the nation's history from political, social, economic and religious development to literary, intellectual and sporting achievement *Page and Place: Ongoing Compositions of Plot* Jon Anderson, 2014-10-15 If people are geographical beings, what can fiction tell us about this truth? This book explores how literature can help us understand the nature of the relations between people and place, how humans create connections between their identities and their geographies, and how these can be threatened and lost. Literature is an important, if unusual, way to explore these relations. At once centred in imagination and ideas, fiction is also indelibly connected to, as well as influenced by, the geographies in which it is set. As this book argues, the relationship between fiction and location is so important that it is often difficult to know which is imagined and which is real. Exploring the relations between people and place through fiction, writing set in Wales, *Page and Place* garners poetic insight into how places are written into our stories and how these stories take and make the places around us. The book introduces the notion of plot to describe the complex entanglement between fiction and geography and to help understand the role that places play in defining human identity *The New Science of Cities* Michael Batty, 2017-07-28 A proposal for a new way to understand cities and their design, not as artifacts but as systems composed of flows and networks. In *The New Science of Cities*, Michael Batty suggests that to understand cities we must view them not simply as places in space but as systems of networks and flows. To understand space, he argues, we must understand flows, and to understand flows we must understand networks, the relations between objects that compose the system of the city. Drawing on the complexity sciences, social physics, urban economics, transportation theory, regional science and urban geography, and building on his own previous work, Batty introduces theories and methods that reveal the deep structure of how cities function. Batty presents the foundations of a new science of cities, defining flows and their networks and introducing tools that can be applied to understanding different aspects of city structure. He examines the size of cities, their internal order, the transport routes that define them, and the locations that fix these networks. He introduces methods of simulation that range from simple stochastic models to bottom-up evolutionary models to aggregate land use, transportation models. Then, using largely the same tools, he presents design and decision-making models that predict interactions and flows in future cities. These networks emphasize a notion with relevance for future research and planning: that design of cities is collective action.
