## **Real Ireland The Evolution Of Ireland In Documentary Film:**

The Real Ireland Harvey O'Brien,2004 The Real Ireland is the first study of Irish documentary film but more than that it is a study of Ireland itself of how the idea of Ireland evolved throughout the twentieth century and how documentary cinema both recorded and participated in the process of change More than just a film studies work it is a discussion of history politics and culture which also explores the philosophical roots of the documentary idea and how this idea informs concepts of society self and nation It features rare and previously unseen illustrations and a detailed documentary filmography the first of its kind in print anywhere     The Real Ireland Harvey Thomas O'Brien,2000     The Oxford Handbook of Modern Irish History Alvin Jackson,2014-03-27 The study of Irish history once riven and constricted has recently enjoyed a resurgence with new practitioners new approaches and new methods of investigation The Oxford Handbook of Modern Irish History represents the diversity of this emerging talent and achievement by bringing together 36 leading scholars of modern Ireland and embracing 400 years of Irish history uniting early and late modernists as well as contemporary historians The Handbook offers a set of scholarly perspectives drawn from numerous disciplines including history political science literature geography and the Irish language It looks at the Irish at home as well as in their migrant and diasporic communities The Handbook combines sets of wide thematic and interpretative essays with more detailed investigations of particular periods Each of the contributors offers a summation of the state of scholarship within their subject area linking their own research insights with assessments of future directions within the discipline In its breadth and depth and diversity The Oxford Handbook of Modern Irish History offers an authoritative and vibrant portrayal of the history of modern Ireland     **Writing Resistance in Northern Ireland** Aimée Walsh,2024-04-02 Writing Resistance in Northern Ireland is an examination of feminist republicanism s in the north of Ireland between 1975 and 1986 Republican prison protest was rife during this period and fractures opened up between the feminist and republican movements Despite their shared objective of self determination the two movements did not achieve a natural or total congruence While it has been argued that there is a disjuncture between feminism and nationalism this book argues for a new perspective on feminist republicanism s in the north and tells the story of a niche collective of republican feminists who came to the fore during the Troubles and sought bodily political and economic autonomy The book examines source material including historical narratives jail writings journalism documentary film and literary texts and paints a vivid picture of a movement of republican feminist women s writing concerned with political crisis gender and the nation Aim e Walsh uses the plural republicanism s as a way of encapsulating the varied iterations of nationalist feminism from militant republicanism in Armagh Gaol to a non violent literary nationalist feminism This examination of the interaction between nationalism and gender shows how the study of women s writing can offer a paradigm shift in the history of the Troubles as seen through a feminist lens     **Ireland in Focus** Eóin Flannery,Michael Griffin,2009-06-01 From an analysis of the Guinness brand s reflection of Irish identity to an exploration of

murals and film portrayals of political prisoners this pioneering collection of essays seeks to present Ireland's relationship to visual culture as a whole. While other works have explored the imagistic history of Ireland, most have restricted their lens to a single form of visual representation. Ireland in Focus is the first book to address the diverse range of visual representations of national and communal identity in Ireland. The contributors examine the politics of visual representation from both historical and contemporary perspectives. Drawing from the areas of cultural theory, postcolonial studies, art criticism, documentary and archival history, and gender studies, the essays provide novel insights on a variety of visual cultural forms including film, theater, photography, landscape art, political murals, and the visual iconography of commercial marketing. Bringing together established scholars and emerging young critics in the field, Ireland in Focus breaks new ground in showcasing the essential dynamism of visual culture and its relationship to Irish studies. **The Grierson Effect** Zoë Druick, Deane Williams, 2019-07-25

This landmark collection of essays considers the global legacy of John Grierson, the father of British documentary. Featuring the work of leading scholars from around the world, The Grierson Effect explores the impact of Grierson's ideas about documentary and educational film in a wide range of cultural and national contexts, from Russia and Scandinavia to Latin America, South Africa, and New Zealand. In reconsidering Grierson's international influence, this major new study emphasises the material conditions of the production and circulation of documentary cinema, foregrounds core issues in documentary studies, and opens up expanded perspectives on transnational cinema, cultures, and histories. Music, the Moving Image and Ireland, 1897-2017 John O'Flynn, 2021-12-30

Music, the Moving Image and Ireland, 1897-2017 constitutes the first comprehensive study of music for screen productions from or relating to the island. It identifies and interprets tendencies over the first 120 years of a field comprising the relatively distinct yet often overlapping areas of Irish-themed and Irish-produced film. Dividing into three parts, the book first explores accompaniments and scores for 20th-century Irish-themed narrative features that resulted in significant contributions by many Hollywood, British, continental European, and to a lesser extent, Irish composers, along with the input of many orchestras and other musicians. Its second part is framed by a consideration of various cultural, political, and economic developments in both the Republic of Ireland and Northern Ireland from the 1920s, including the Troubles of 1968-1998. Focusing on scoring and other aspects of soundtrack production for domestic newsreel, documentary film, and TV programming, it interprets the substantial output of many Irish composers within this milieu, particularly from the 1960s to the 1990s. Also referring to broader cultural and historical themes, the book's third and final part charts approaches to, and developments in, music and sound design over various waves of Irish cinema from its relatively late emergence in the 1970s to an exponential growth and increasingly transnational orientation in the early decades of the 21st century. Crafting Infinity Rory T. Cornish, Marguerite Quintelli-Neary, 2013-01-14

#### **Irish and African American Cinema**

Maria Pramaggiore, 2012-02-01 Focusing on two film traditions not normally studied together Maria Pramaggiore examines more than two dozen Irish and African American films including *Do the Right Thing* *In the Name of the Father* *The Crying Game* *Boyz n the Hood* *The Snapper* and *He Got Game* arguing that these films foreground practices of character identification that complicate essentialist notions of national and racial identity The porous sense of self associated with moments of identification in these films offers a cinematic counterpart to W E B Du Bois's potent concept of double consciousness an epistemological standpoint derived from experiences of colonization racialization and cultural disruption Characters in these films Pramaggiore suggests reject the national paradigm of insider and outsider in favor of diasporic both and notions of self thereby endorsing the postmodern concept of identity as performance

**Sixties Ireland** Mary E. Daly, 2016-03-17 This provocative new history of Ireland during the long 1960s exposes the myths of Ireland's modernisation Mary E Daly questions traditional interpretations which see these years as a time of prosperity when Irish society led by a handful of key modernisers abandoned many of its traditional values in its search for economic growth Setting developments in Ireland in a wider European context Daly shows instead that claims for the economic transformation of Ireland are hugely questionable Ireland remained one of the poorest countries in western Europe until the end of the twentieth century Contentious debates in later years over contraception divorce and national identity demonstrated continuities with the past that long survived the 1960s Spanning the period from Ireland's economic rebirth in the 1950s to its entry into the EEC in 1973 this is a comprehensive reinterpretation of a critical period in Irish history with clear parallels for Ireland today

The Rise and Fall of Christian Ireland Crawford Gribben, 2021 The Irish experience of Christianity has never been simple or uncomplicated Here Crawford Gribben describes the ancient emergence long dominance sudden division and recent decline of Ireland's most important religion as a way of telling the history of the island and its peoples from earliest times to the present day

*Ireland's Magdalen Laundries and the Nation's Architecture of Containment* James M. Smith, 2007-09-01 The Magdalen laundries were workhouses in which many Irish women and girls were effectively imprisoned because they were perceived to be a threat to the moral fiber of society Mandated by the Irish state beginning in the eighteenth century they were operated by various orders of the Catholic Church until the last laundry closed in 1996 A few years earlier in 1993 an order of nuns in Dublin sold part of their Magdalen convent to a real estate developer The remains of 155 inmates buried in unmarked graves on the property were exhumed cremated and buried elsewhere in a mass grave This triggered a public scandal in Ireland and since then the Magdalen laundries have become an important issue in Irish culture especially with the 2002 release of the film *The Magdalene Sisters* Focusing on the ten Catholic Magdalen laundries operating between 1922 and 1996 Ireland's Magdalen Laundries and the Nation's Architecture of Containment offers the first history of women entering these institutions in the twentieth century Because the religious orders have not opened their archival records Smith argues that Ireland's Magdalen institutions continue to exist in the public mind primarily at the level of story cultural representation and survivor testimony rather than history archival history and documentation Addressed to academic and general readers alike James M Smith's book accomplishes three primary objectives First it connects what history we have of the Magdalen laundries to Ireland's architecture of containment that made undesirable segments of the female population such as illegitimate children single mothers and sexually promiscuous women literally invisible Second it critically evaluates cultural representations in drama and visual art of the laundries that have over the past fifteen years brought them significant attention in Irish culture Finally Smith challenges the nation church state and society to acknowledge its complicity in Ireland's Magdalen scandal and to offer redress for victims and survivors

alike     **The to Z of Animation and Cartoons** Nichola Dobson, 2010-04 Animation was once a relatively simple matter using fairly primitive means to produce rather short films of subjects that were generally comedic and often quite childish. However, things have changed and they continue changing at a maddening pace. One new technique after another has made it easier, faster, and above all cheaper to produce the material, which has taken on an increasing variety of forms. **The A to Z of Animation and Cartoons** is an introduction to all aspects of animation history and its development as a technology and industry beyond the familiar cartoons from the Disney and Warner Bros Studios. This is done through a chronology, an introductory essay, photos, a bibliography, and over 200 cross-referenced dictionary entries on animators, directors, studios, techniques, films, and some of the best-known characters.

**The Myth of an Irish Cinema** Michael Patrick Gillespie, 2009-01-19 For the past seventy years, the discipline of film studies has widely invoked the term national cinema. Such a concept suggests a unified identity with distinct cultural narratives. As the current debate over the meaning of nation and nationalism has made thoughtful readers question the term, its application to the field of film studies has become the subject of recent interrogation. In *The Myth of an Irish Cinema*, Michael Patrick Gillespie presents a groundbreaking challenge to the traditional view of filmmaking, contesting the existence of an Irish national cinema. Given the social, economic, and cultural complexity of contemporary Irish identity, Gillespie argues filmmakers can no longer present Irishness as a monolithic entity. The book is arranged thematically, with chapters exploring cinematic representation of the middle class, urban life, rural life, religion, and politics. Offering close readings of Irish-themed films, Gillespie identifies a variety of interpretative approaches based on the diverse elements that define national character. Covering a wide range of films from John Ford's *The Quiet Man* and Kirk Jones's *Waking Ned Devine* to Bob Quinn's controversial *Budawanny* and The

**Forgetful Remembrance** Guy Beiner, 2018-11-09 Forgetful Remembrance examines the paradoxes of what actually happens when communities persistently endeavour to forget inconvenient events The question of how a society attempts to obscure problematic historical episodes is addressed through a detailed case study grounded in the north eastern counties of the Irish province of Ulster where loyalist and unionist Protestants and in particular Presbyterians repeatedly tried to repress over two centuries discomfiting recollections of participation alongside Catholics in a republican rebellion in 1798 By exploring a rich variety of sources Beiner makes it possible to closely follow the dynamics of social forgetting His particular focus on vernacular historiography rarely noted in official histories reveals the tensions between professed oblivion in public and more subtle rituals of remembrance that facilitated muted traditions of forgetful remembrance which were masked by a local culture of reticence and silencing Throughout Forgetful Remembrance comparative references demonstrate the wider relevance of the study of social forgetting in Northern Ireland to numerous other cases where troublesome memories have been concealed behind a veil of supposed oblivion
