and pulls away from Eurocentric political theory requiring a conceptualization of the political as global He juxtaposes ancient Chinese cosmology medicine and Maoism against the monuments of early capitalist modernity such as the Crystal Palace and the Eiffel Tower to highlight the differences in political investments and intensities From the Chinese revolution to the global rise of right wing movements Dutton rethinks politics in the contemporary world **Art in Turmoil: The Chinese Cultural Revolution, 1966-76** Richard King,2010-07-01 This book decodes the rhetoric of Chinas turbulent decade a time of both brutal iconoclasm and radical experimentation in the arts to offer new insights into works that have transcended their times

artists use porcelain in their work In *New Export China* Alex Burchmore presents a deep dive into a unique genre of ceramic art to describe a framework for a broader art practice Focusing on the work of four artists from the 1990s through the 2010s Liu Jianhua Ai Weiwei Ah Xian and Sin ying Ho Burchmore reveals how the materiality of ceramics has been used to highlight China s role in global trade and to explore the function of this medium as a vessel for the transmission of Chinese art culture and ideas From its historical pedigree and transcultural relevance to its material allure and anthropomorphic resonance porcelain offers artists a unique way to move between the global and the intimate the mass produced and the handmade and the foreign and the domestic By dissecting both the legacy of porcelain export and current networks of exchange Burchmore ultimately demonstrates why this ceramic practice is crucial to understanding the development of Chinese contemporary art

A History of Chinese Art in the 20th and 21st Century Lü Peng,2025-02-03 This book situates the development of 20th and 21st century Chinese art in such fundamental contexts as Chinese politics and social change and is ideally suited for

readers to understand the particularities of Chinese art that are distinct from Western art history. Such an approach is appropriate to the understanding of the development of modern Chinese art which differs from both the Western approach to art history and the approach to traditional Chinese art which is limited to the combining of ink and brush heritage and ideological traditions. Based on the scale and influence of historical works considering the specificity of the term involving fine art in China and the scope of influence of the phenomenon of fine art in the cultural field, this book's study of the phenomena of painting, sculpture, photography, video, and mixed media art follows two linear time lines of historical relevance: 1949-1978 and 1978 to the present. Special attention is paid to the development of modern and contemporary art after 1978. The main readers of this book are undergraduate students in art schools, graduate and doctoral students in art history, students in other humanities disciplines, experts and professors in the study of 20th century Chinese art and cultural history, should be important readers of this book.

Cai Guo-Qiang Rachel Rivenc, 2025-06-24. This groundbreaking book provides the first material study of the celebrated contemporary artist Cai Guo Qiang, known worldwide for his use of subversive materials, particularly gunpowder. Cai Guo Qiang, China b. 1957, is among the most prominent contemporary artists active today. His prolific, diverse creative practice, which includes gunpowder drawings and paintings, explosion events, videos, multimedia installations, and site-specific works, draws on a personal belief system that freely blends symbols and tenets from Eastern and Western traditions. Cai's output seeks to establish dialogues among different cultures, different periods of time, and even different species, always while probing our shared humanity and the connections that can be divined across space and time out of chaos and disorder. Based on in-depth interviews between the author and artist and with studio assistants, as well as extensive examination, sampling, and scientific analysis of a wide range of artworks, this publication addresses the implications of Cai's distinctive materials and processes and their associated conservation issues. Written for conservation scientists, conservators, specialists in contemporary art history, museum curators, collections managers, practicing artists, collectors, and art enthusiasts, this book offers insights into the life, methods, and materials of a leading figure in the art world. The technical discussions provide essential findings that will inform strategies for the future care of his works.
