**The Book of Politics** Michael Dutton,2024-07-05 In The Book of Politics Michael Dutton offers an affective theorization of the political and a political theorization of affect Drawing on Western and Chinese social theory and practice Dutton rethinks Carl Schmitt s insistence that the political can be thought of only within the antagonistic pairing of friend and enemy Dutton shows how the power of the friend enemy binary must be understood by conceptualizing the political as the channeling harnessing and transforming of affective energy flows in relation to that binary Given this affective nature of politics Dutton contends that to rethink the political means moving away from a political science toward an art of the political Such an art highlights fluidity and pulls away from Eurocentric political theory requiring a conceptualization of the political as global He juxtaposes ancient Chinese cosmology medicine and Maoism against the monuments of early capitalist modernity such as the Crystal Palace and the Eiffel Tower to highlight the differences in political investments and intensities From the Chinese revolution to the global rise of right wing movements Dutton rethinks politics in the contemporary world

antiwar and feminist marches paintings sculptures photographs novels and films Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed These cases show us that the past becomes significant only in relation to our present and our remembered history never perfectly replicates time past This Meyer argues is precisely what makes our contemporary attachment to the past so important it provides us a critical opportunity to examine our own relationship to history memory and nostalgia Rent Collection Courtyard ,1970 **A History of Contemporary Chinese Art** Yan Zhou,2020-07-14 Chinese art has experienced its most profound metamorphosis since the early 1950s transforming from humble realism to socialist realism from revolutionary art to critical realism then avant garde movement and globalized Chinese art With a hybrid mix of Chinese philosophy imported but revised Marxist ideology and western humanities Chinese artists have created an alternative approach after a great ideological and aesthetic transition in the 1980s toward its own contemporaneity though interacting and intertwining with the art of rest of the world This book will investigate from the perspective of an activist critic and historian who grew up prior to and participated in the great transition and then researched and taught the subject the evolution of Chinese art in modern and contemporary times The volume will be a comprehensive and insightful history of the one of the most sophisticated and unparalleled artistic and cultural phenomena in the modern world
