Reorient Global Economy In The Asian Age:

ReORIENT Andre Gunder Frank, 1998-07 Frank shows how Marx and Weber got it all wrong A fundamental rethinking of the rise of the West and the origin of the world system Absolutely essential to understanding world history Albert Bergesen University of Arizona The great virtue of this stimulating book is its relentless push to redefine our framework for thinking about the early modern economy A benchmark study R Bin Wong University of California Irvine

ReOrient Andre Gunder Frank, 1998 Andre Gunder Frank asks us to ReORIENT our view away from Eurocentrism to see the West as a mere blip in what was and is again becoming an Asia centered world In a bold challenge to received historiography and social theory he turns on its head the world according to Marx Weber and other theorists including Polanyi Rostow Braudel and Wallerstein Frank explains the Rise of West from 1400 onwards in world economic and demographic terms with a sweeping historical perspective that places it in clear conjunction with Decline of the East around 1800 European states he says used the silver extracted from the American colonies to buy entry into an expanding Asian Market which already flourished in the global economy by means of the very productive commercial and institutional mechanisms that were supposedly unique to Europe Then as the East entered into a decline phase of the cyclical world economy the nations of West resorted to import substitution and export promotion in the world market to become New Industrializing Economics That is precisely what East Asia is doing today Frank points out to recover its traditional dominance in the world economy the center of which is once again moving to the Middle Kingdom of China Anyone interested in Asia economic and social history in international relations in political economy and in socio economic theory cannot afford to ignore Andre Gunder Frank s exciting reassessment of our global economic past and future

Reorienting the 19th Century Andre Gunder Frank, Robert A. Denemark, 2015-10-23 Andre Gunder Frank was a path breaking scholar in several disciplines over an illustrious and contentious 50 year career First amongst his many important works is the book *ReORIENT Global Economy in the Asian Age* which sought to correct a Euro centric world view of the development of the global political economy Frank passed away in April 2005 while working on this new book a sequel to *ReORIENT* In this book Frank shows many of the myths of European industrialisation hegemony and capitalism which have hidden the fact that Asia remained a serious power not just into the 18th century as Frank himself argued in 1998 but well into the 19th century as well When Frank passed away his colleagues rallied to finish this book and it is presented here as his final major statement
