

In regard to reintegration and integration, Guatemala is still in the process of implementing State programmes and projects. However, the following progress has been made:

- ❖ Developing legislation on trafficking in persons, in accordance with guiding principles such as the “Life Project”.
- ❖ Strengthening a strategy to address the issue of unaccompanied boys, girls and adolescents which allows the institutions to provide them with immediate assistance and detection of unreported cases of repatriation of minors. It also facilitates the provision and monitoring of basic services needed to provide comprehensive and personalized care based on the reintegration and prevention of irregular migration of this vulnerable sector of the migrant population.

Beyond Displacement Molly Todd, 2010-12-22 During the civil war that wracked El Salvador from the mid 1970s to the early 1990s the Salvadoran military tried to stamp out dissidence and insurgency through an aggressive campaign of crop burning kidnapping rape killing torture and gruesome bodily mutilations Even as human rights violations drew world attention repression and war displaced more than a quarter of El Salvador s population both inside the country and beyond its borders Beyond Displacement examines how the peasant campesinos of war torn northern El Salvador responded to violence by taking to the hills Molly Todd demonstrates that their flight was not hasty and chaotic but was a deliberate strategy that grew out of a longer history of collective organization mobilization and self defense

Mistrusting Refugees E. Valentine Daniel, John Chr. Knudsen, 2023-04-28 The twentieth century has seen people displaced on an unprecedented scale and has brought concerns about refugees into sharp focus There are forty million refugees in the world 1 in 130 inhabitants of this planet In this first interdisciplinary study of the issue fifteen scholars from diverse fields focus on the worldwide disruption of trust as a sentiment a concept and an experience Contributors provide a rich array of essays that maintain a delicate balance between providing specific details of the refugee experience and exploring corresponding theories of trust and mistrust Their subjects range widely across the globe and include Palestinians Cambodians Tamils and Mayan Indians of Guatemala By examining what individuals experience when removed from their own culture these essays reflect on individual identity and culture as a whole This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 The twentieth century has seen people displaced on an unprecedented scale and has brought concerns about refugees into sharp focus There are forty million refugees in the world 1 in 130 inhabitants of this planet In this first

interdisciplinary study of *Quiet Genocide* Etelle Higonnet, 2017-09-08 *Quiet Genocide* reviews the legal and historical case that genocide occurred in Guatemala in 1981-1983. It includes the full text of the genocide section of a United Nations sponsored Commission on Historical Clarification in Guatemala (CEH) brokered by the UN. In its final report, the CEH rigorously reviewed abuses throughout the whole country. However, the memory of the Guatemalan dirty war, which predated the genocide and continued for over a decade, has rapidly faded from international awareness. The book renders a historical picture of the 1948 Genocide Convention and its unique status in international law. It reminds readers of the difficulty of preventing and punishing genocide, as illustrated by the ongoing tragedy of Darfur, and discusses the evolution of international and hybrid tribunals to prosecute genocide along with war crimes and crimes against humanity. Then it sketches a brief history of Guatemala with a focus on genocide. It explores how internal and global politics were an expression of structural violence designed to ensure cheap, abundant, and quiescent Indian labor for coffee planters. The volume provides the commission's general considerations, legal definitions, methodology, period of analysis, and victim groups, and finds that genocide had been perpetrated against five indigenous Guatemalan groups. By translating the genocide argument of the CEH into English and framing it in a lively, accessible way, this volume recovers the past, sets the record straight, and promotes accountability. This exploratory effort provides insight into the world of transitional justice and truth commissions and valuable insights about how to engage with the question of genocide in the future. These findings shed light on a crucial and dark chapter of trans-American Cold War history and will thus be of interest not only to scholars focused on Guatemala but also on Central America and even more broadly on the Cold War. **Foreign Operations, Export**

Financing, and Related Programs Appropriations for 1990 United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs, 1990 **Paradise in Ashes** Beatriz Manz, 2004-03-15 An account of the violence and repression that defined the murderous Guatemalan civil war of the 1980s. Manz, an anthropologist, spent over two decades studying the Mayan highlands and remote rain forests of Guatemala. In a political portrait of Santa Mar a Tzej, where highland Maya peasants seeking land settled in the 1970s, Manz describes these villagers' plight as their isolated, lush but deceptive paradise became one of the centers of the war, convulsing the entire country. After their village was viciously sacked in 1982, desperate survivors fled into the surrounding rain forest and eventually to Mexico, and some even further to the United States, while others stayed behind and fell into the military's hands. Manz follows their flight and eventual return to Santa Mar a Tzej, where they sought to rebuild their village and their lives. From publisher description *What Justice? Whose Justice?* Susan Eckstein, Timothy P. Wickham-Crowley, 2003-10-09 This splendid collection by two of our leading political sociologists pioneers new directions in the study of social justice in Latin America. *What Justice? Whose Justice?* is impassioned scholarship at its best. It brings together detailed studies of rights and institutions, inequality and struggle, citizenship and indigenous politics, war and peace. This book is essential reading for

anyone interested in what the so called triumph of democracy over dictatorship in the region really means today in the lives of the still dispossessed Matthew C Gutmann author of *The Romance of Democracy Compliant Defiance in Contemporary Mexico* This book offers a stimulating interdisciplinary analysis of the gripping problems of justice inequality and citizenship and of citizen responses to these issues in contemporary Latin America It is essential reading on these interrelated themes Scott Mainwaring co editor of *Presidentialism and Democracy in Latin America* First rate contributors address the quality of democracy in several Latin American countries in these readable and provocative essays The volume focuses particularly on the relation between democracy and the law on the importance of the past and on informal politics and indigenous political movements A must read for all those who are tracking the course of democracy in the region and who are concerned about its political future Jane S Jaquette co editor of *Women and Democracy Latin America and Central and Eastern Europe* For anyone who still assumes that markets plus elections suffice to resolve the problems of injustice that are the political social and economic patrimony of Latin America this book will be a firm wake up call At the same time the excellent case studies in this book make it clear that the current global neoliberal regime is no more effective at suppressing local struggles for justice than the more traditional forms of domination that came before it It is valuable and provocative reading for anyone interested in understanding the contemporary political dynamics of justice and injustice Peter Evans editor of *Livable Cities*
