*Report of the Advisory Committee on Individual & Democratic Rights Under the Constitution - Constitutional Commission* Australia. Constitutional Commission, M. Byers, T. **Australian Constitution** Luke Beck, 2018-03-19 This book examines the origins of Australia's constitutional religious freedom provision It explores on the one hand the political activities and motives of religious leaders seeking to give the Australian Constitution a religious character and on the other the political activities and motives of a religious minority seeking to prevent the Australian Constitution having a religious character The book also interrogates the argument advanced at the Federal Convention in favour of section 116 dealing with separation of religion and government and argues that until now scholars and courts have misunderstood that argument The book casts new light to show how the origins of the provision lead to section 116 being conceptualised as a safeguard against religious intolerance on the part of the Commonwealth Written in an accessible style the work has potential to influence the development of constitutional doctrine by the High Court through its challenge of historical assumptions on which the High Court's current doctrine is based Given the ongoing political debates concerning the interaction of discrimination law and religious freedom the book will be of interest to academics and policy makers working in the areas of law and religion constitutional law and comparative law

Advisory Committee on Individual & Democratic Rights Under the Constitution, 1987      **The Mason Papers** Sir Anthony Mason, Geoffrey Lindell, 2007 There have been times when Australian court judgments have held enormous weight in courts throughout the world certainly throughout the Commonwealth Owen Dixon's High Court in the 1950s and Anthony Mason's High Court in the 1980s are examples If there were an Olympic record for teams of judges and why not since they have Olympic medals for taekwondo and beach volleyball the Mason court would have won gold year after year The quality of its jurisprudence was the best in the world Geoffrey Robertson QC Sydney Morning Herald 30th August 2007 This book comprises a selection of articles and speeches by Sir Anthony Mason written and delivered when he was a Justice and later Chief Justice of the High Court of Australia and after his retirement from that Court in 1995 It demonstrates his long standing interest in the judicial process and his desire to communicate to the legal world and the public a more enlightened understanding of the proper scope of judicial law making and the responsibility of judges for adapting the law to the changing conditions in society It also displays his acknowledged mastery of public and private law and his belief in the growing significance of international and comparative law in the development of Australian law The book contains some important speeches and articles on constitutional and administrative law international law human rights equity and contract the High Court judicial administration advocacy a significant media interview a State of the Judicature report delivered as the Chief Justice of Australia and his swearing in speeches when appointed as a Justice and later Chief Justice of the High Court Some of the selected speeches display Sir Anthony's characteristic wit The book deals with highly topical subjects such as whether Australia should adopt a bill of rights the health of Australia's democratic institutions the establishment of an Australian republic globalization and the decline of parliamentary and national sovereignty The articles and speeches were chosen and edited by Professor Geoffrey Lindell in consultation with Sir Anthony      **No Small Change** Frank Brennan, 2015-05-01 In 1967 Australians voted overwhelmingly in favor of removing from the Constitution two references that discriminated against Aboriginal and Torres Strait Islander people Though these seemed like small amendments they were an impetus for real change from terra nullius to land rights and from assimilation to self-determination Nearly 50 years later there is a groundswell of support for our Indigenous heritage to be formally recognized in the Constitution With the prospect of a new referendum in the near future Frank Brennan considers how far Australians have come and yet how much work lies ahead He looks through the prism of history to examine what we can learn from our successes and failures since 1967 from the efforts of the Council of Aboriginal Affairs to the Gove land rights case and the Aboriginal Tent Embassy He also assesses the way forward how the upcoming referendum might provide fresh momentum for governments and Indigenous Australians to negotiate better outcomes Written by one of the most respected commentators on legal and human rights issues this book makes a vital contribution to the understanding of Indigenous affairs It will generate crucial debate on how Australians should acknowledge the history that for too long has gone unrecognized      **Retreat from Injustice** Nick

O'Neill, Simon Rice, Roger Douglas, 2004 This new edition of *Retreat from Injustice* has the strengths and style of its predecessor the account of human rights in Australia is firmly grounded in historical and international contexts the availability and limitations of rights and freedoms are clearly detailed and illustrated with cases and a particular spotlight is placed on key current human rights issues including terrorism indigenous issues and asylum seekers **Speaking For The People** Sawyer, Marian, Zappal, Gianni, 2013-05-09 At a time when there is major change taking place in Australian politics as old loyalties are eroded and there is increasing evidence of alienation of some sections of the electorate from perceived elites this analysis of the weaknesses in existing methods of representation is most timely Dr Dennis Woodward Monash University Without the belief that others can represent their interests citizens will withdraw their trust from parliamentary institutions Today this trust is fragile Politicians appear to have a different set of policy priorities from those of the people they represent We are now witnessing demands for citizen initiated referenda a popularly elected president and other means of bypassing the role of elected representatives *Speaking for the People* explores for the first time the distinctive ways in which Australians have thought about and practised representation incorporating a ground breaking analysis of non parliamentary institutions of representation Whether and how meaningful a voice can be given to all groups within our society is one of the many questions this book addresses Marian Sawyer and Gianni Zappal bring together old and new concepts of political representation and highlight what is distinctively Australian in our practices of representation **Speaking Back** Katharine Gelber, 2002 What is hate speech How does a person suffer when they are vilified What can public policy do to redress it This text proposes a new type of hate speech policy speaking back providing institutional material and educational support to enable the victims of hate speech to respond First Report of the Constitutional Commission Australia. Constitutional Commission, 1988 *Bills of Rights in Australia* Andrew Byrnes, Hilary Charlesworth, Gabrielle McKinnon, 2009 Australia is often cited as the only Western nation without a bill of rights While this remains true at a national level the states and territories have recently taken the running on developing local bills of rights The ACT adopted a Human Rights Act in July 2004 and in 2006 Victoria enacted a Charter of Human Rights and Responsibilities in January 2007 Tasmania has now moved formally to consider similar legislation And Western Australia Queensland and New South Wales also seem likely to take this course This book examines the significance and ramifications of these radical developments It is the first to offer a comprehensive examination of this new form of legislation in Australia Provided by publisher Australian Cultural Studies John Frow, Meaghan Morris, 1993 Cultural studies has emerged as a major force in the analysis of cultural systems and their relation to social power Rather than being interested in television or architecture or pinball machines themselves as industrial or aesthetic structures cultural studies tends to be interested in the way such apparatuses work as points of concentration of social meaning as media literally according to John Frow and Meaghan Morris Here two of Australia's leading cultural critics bring together work that represents a distinctive national tradition moving between high theory and

detailed readings of localized cultural practices Ethnographic audience research cultural policy studies popular consumption  
bad aboriginal art landscape in feature films style form and history in TV miniseries and the intersections of tourism with  
history and memory these are among the topics addressed in a landmark volume that cuts across myriad traditional  
disciplines     From Subject to Citizen Alastair Davidson, 1997-05-12 This important theoretically sophisticated work  
explores the concepts of liberal democracy citizenship and rights Grounded in critical original research the book examines  
Australia's political and legal institutions and traces the history and future of citizenship and the state in Australia The  
central theme is that making proof of belonging to the national culture a precondition of citizenship is inappropriate for a  
multicultural society such as Australia This becomes an object lesson for the multicultural regional polities forming
