Behind the Scenes at the BBFC Edward Lamberti, 2019-07-25 This official history of the British Board of Film Classification BBFC draws on unprecedented access to the BBFC's archives to trace 100 years of film classification with contributions from leading film critics and historians and case studies of controversial films such as *Battleship Potemkin* and *A Clockwork Orange* *Censoring the 1970s* Sian Barber, 2011-09-22 This book explores the work of the British Board of Film Censors in the 1970s Throughout the decade this unelected organisation set standards of acceptability and determined what could and what could not be shown on British cinema screens Controversial texts like *A Clockwork Orange* 1971 *Straw Dogs* 1971 *The Devils* 1971 and *Life of Brian* 1979 have been used to draw attention to the way in which the BBFC operated in the 1970s While it is true to say that these films encountered major classification problems what of the hundreds of other films being classified at the same time Did all films struggle with the British censors in this period and can these famous

examples be fitted into broader patterns of censorship policy and practice In studying over 250 film files from the BBFC archive this work reveals how 1970s films such as *Vampire Circus* 1971 *Confessions of a Window Cleaner* 1974 and *Carry on Emmannuelle* 1978 also ran into trouble with the film censor This work explores the complex process of negotiation and compromise which affected all film submissions in the 1970s and the way in which the BBFC actively and often sympathetically negotiated with film directors producers and distributors to assign the correct category to each film The lack of any defined formal censorship policy in this period allowed the BBFC to work alongside the film industry and push cultural social and artistic boundaries however it also left the Board open to accusations of favouritism subjectivity and personal bias This work is not simply a study of controversial films and contentious issues but rather engages with wider issues of changing permission legal struggles the influence of the media and the legislative and governmental controls which both helped and hindered the BBFC in this important post war decade The focus on historical and archival research offers a great deal to scholars from associated disciplines including history social policy media and communications and politics

Cinema, Censorship and Sexuality 1909-1925 (Routledge Revivals) Annette Kuhn, 2016-04-06 First published in 1988 This book shows how censorship as a set of institutions practices and discourses was involved in the struggle over the nature of cinema in the early twentieth century It also reveals the part played in this struggle by other institutions practices and discourses for example new knowledge about sexuality and organisations devoted to the promotion of public morality Instead of censorship simply being an act of prohibition by a special institution this work reveals the issues at work were far more complex and contradictory opening up critical scrutiny and challenging assumptions This title will be of interest to students of media and film studies

Freedom, Rights And Pornography Bruce Russell, 2012-12-06 In the essays that follow Fred Berger argues for freedom of expression civil disobedience affirmative action and what he calls liberal judicial activism and against sex role stereotyping paternalism and the censorship of pornography Underlying his liberalism is a unified theory That theory consists of a conception of rights a theory of value and a theory of government The conception of a right that Berger defends derives from John Stuart Mill and is captured by what he calls the rights formula to have a right is to have important interests that society ought to protect as a matter of general rule pp 2 7 17 18 19 95 Since rights are to be protected by general rule case by case consideration of consequences is ruled out pp 3 18 96 and neither modest increases in the general welfare nor majority opinion can justify the violation of a right pp 14 15 17 18 Berger combines this view of the nature of a right with an objective theory of value according to which the important interests that ought to be protected are ones that people have whether they know them or not whether they desire that in which they have an interest or not p
