**The Treatment of Prisoners** Ralph D. McPhee, 2006 The United States has long adhered to the rules regarding the treatment of prisoners as set forth by the Geneva Convention Following the terrorist attacks of 9 11 however special prisons such as Guantanamo Bay Abu Ghraib and other prisons located around the world that are referred to as dark sites were opened for the confinement and interrogation of suspected enemy combatants Media outlets and books have partially exposed occurrences of various degrees of torture taking place in these facilities These reports have generated a vigorous debate in the U S and the United Nations about the legality and morality of such treatments This book presents recent analyses of these developments

*The Lucifer Effect* Philip Zimbardo, 2008-01-22 The definitive firsthand account of the groundbreaking research of Philip Zimbardo the basis for the award winning film *The Stanford Prison Experiment* Renowned social psychologist and creator of the Stanford Prison Experiment Philip Zimbardo explores the mechanisms that make good people do bad things how moral people can be seduced into acting immorally and what this says about the line separating good from evil *The Lucifer Effect* explains how and the myriad reasons why we are all susceptible to the lure of the dark side Drawing on examples from history as well as his own trailblazing research Zimbardo details how situational forces and group dynamics can work in concert to make monsters out of decent men and women Here for the first time and in detail Zimbardo tells the full story of the Stanford Prison Experiment the landmark study in which a group of college student volunteers was randomly divided into guards and inmates and then placed in a mock prison environment Within a week the study was abandoned as ordinary college students were transformed into either brutal sadistic guards or emotionally broken prisoners By illuminating the psychological causes behind such disturbing metamorphoses Zimbardo

enables us to better understand a variety of harrowing phenomena from corporate malfeasance to organized genocide to how once upstanding American soldiers came to abuse and torture Iraqi detainees in Abu Ghraib He replaces the long held notion of the bad apple with that of the bad barrel the idea that the social setting and the system contaminate the individual rather than the other way around This is a book that dares to hold a mirror up to mankind showing us that we might not be who we think we are While forcing us to reexamine what we are capable of doing when caught up in the crucible of behavioral dynamics though Zimbardo also offers hope We are capable of resisting evil he argues and can even teach ourselves to act heroically Like Hannah Arendt s Eichmann in Jerusalem and Steven Pinker s The Blank Slate The Lucifer Effect is a shocking engrossing study that will change the way we view human behavior Praise for The Lucifer Effect The Lucifer Effect will change forever the way you think about why we behave the way we do and in particular about the human potential for evil This is a disturbing book but one that has never been more necessary Malcolm Gladwell An important book All politicians and social commentators should read this The Times London Powerful an extraordinarily valuable addition to the literature of the psychology of violence or evil The American Prospect Penetrating Combining a dense but readable and often engrossing exposition of social psychology research with an impassioned moral seriousness Zimbardo challenges readers to look beyond glib denunciations of evil doers and ponder our collective responsibility for the world s ills Publishers Weekly A sprawling discussion Zimbardo couples a thorough narrative of the Stanford Prison Experiment with an analysis of the social dynamics of the Abu Ghraib prison in Iraq Booklist Zimbardo bottled evil in a laboratory The lessons he learned show us our dark nature but also fill us with hope if we heed their counsel The Lucifer Effect reads like a novel Anthony Pratkanis Ph D professor emeritus of psychology University of California *Interventionism, Information Warfare, and the Military-Academic Complex* Maximilian C. international legal framework and the work of international institutions the war against terrorism and treatment of detainees in Guantanamo Bay extraordinary rendition and the use of information derived from torture the situation in Iraq and the trial of Saddam Hussein the arms trade and military assistance and corporate social responsibility and states of concern The Committee welcomes the report as making a substantial contribution to the transparency and visibility of the Government's work on human rights matters However concerns are raised over the fact that the Minister responsible for human rights issues is also the Minister of State for Trade roles which are often contradictory The decision to subsume human rights work into the more general category of sustainable development is also criticised since it would suggest that human rights issues are not being given sufficient strategic priority within UK foreign policy
