Jappel, 2012-12-06 The changing character of the IAU General Assemblies becomes most clear from a comparison of the agenda of the Brighton meeting with that of one of the earlier meetings The fourth General Assembly Cambridge Mass 1932 had about 240 participants registered guests included the Brighton meeting had about 2300 people attending The Cambridge meeting lasted 5 working days of which however three half days were exclusively devoted to excursions leaving four real meeting days At that time the nearly 30 commissions had each only one meeting during part of a morning or afternoon some commissions did not meet at all There was one public lecture by Sir Arthur Eddington on The Expanding Universe Most of the small European countries were represented by two or three delegates only but the delegations of France and Great Britain were composed of 20 and 18 scientists respectively at that time there were only two delegates from Germany After the Brighton General Assembly with about 200 commission meetings one commission met eleven times six Joint Discussions four Invited Discourses a Special Meeting and hardly time for excursions there were a few complaints about too many overlapping meetings      **Transactions of the International Astronomical Union** ,      **Transactions of the International Astronomical Union** Derek McNally, 2012-12-06 The XXth General Assembly of the International Astronomical Union was held in Baltimore Maryland USA from August 02 to 11 1988 The Inaugural Ceremony on August 02 was held in the presence of representatives of the United States Government the State of Maryland the City of Baltimore and the host institution the Johns Hopkins University as well as of the National and Local Organising Committees The scientific

programme maintained the high standards of the Union and the scientific proceedings may be found either in this volume or in volume 8 of Highlights of Astronomy The scientific programme was organised by the 40 Commission Presidents and coordinated by the General Secretary 1985 1988 Dr J P Swings The local arrangements were effectively made through the National Organising Committee under the Chairmanship of Prof F Drake and the Local Organising Committee under the co Chairmanship of Prof A Oavidsen and Dr R Giacconi The smooth day to day operation of the meeting resulted from the incomparable dedication of Karen Weinstock and Harold Screen *Transactions of the International Astronomical Union* International Astronomical Union.
