Reports Of International Arbitral Awards Vol Xxiv:

Reports of International Arbitral Awards, Vol. XXIV , *Reports of International Arbitral Awards* International Court of Justice. Registry,1948 **Finnish Yearbook of International Law, Volume 24, 2014** Tuomas Tiittala,2018-01-11 The Finnish Yearbook of International Law aspires to honour and strengthen the Finnish tradition in international legal scholarship Open to contributions from all over the world and from all persuasions the Finnish Yearbook stands out as a forum for theoretically informed high quality publications on all aspects of public international law including the international relations law of the European Union The Finnish Yearbook publishes in depth articles and shorter notes commentaries on current developments book reviews and relevant overviews of Finland s state practice While firmly grounded in traditional legal scholarship it is open for new approaches to international law and for work of an interdisciplinary nature The Finnish Yearbook is published for the Finnish Society of International Law by Hart Publishing Earlier volumes may be obtained from Martinus Nijhoff an imprint of Brill Publishers Further information may be found at www.fsil.fi/fybil **The International Legal Personality of the Individual** Astrid Kjeldgaard-Pedersen,2018-08-09 This is the first monograph to scrutinize the relationship between the concept of international legal personality as a theoretical construct and the position of the ultimate subject the individual as a matter of positive international law By testing the four main theoretical conceptions of international legal personality against historical and existing norms of positive international law that regulate the conduct of individuals the book argues that the common narrative in contemporary scholarship about the development of the role of the individual in the international legal system is flawed Contrary to conventional wisdom international law did not apply to states alone until World War II only to transform during the second half of the 20th century so as to include individuals as its subjects Rather the answer to the question of individual rights and obligations under international law is and always was strictly empirical It follows of course that the entities governed by a particular norm tell us nothing about the legal system to which that norm belongs Instead the distinction between international law and national law turns exclusively on whether the source of the norm in question is international or national in kind Against the background of these insights the book shows how present day international lawyers continue to allow an idea which was never more than a scholarly invention of the 19th century to influence the interpretation and application of international law This state of affairs has significant real world ramifications as international legal rights and obligations of individuals and other non state entities are frequently applied more restrictively than interpretation without presumptions regarding personality would merit *Asian Yearbook of International Law, Volume 22 (2016)* Seokwoo Lee,Hee Eun Lee,2019-09-02 Launched in 1991 the Asian Yearbook of International Law is a major internationally refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective It is published under the auspices of the Foundation for the Development of International Law in Asia DILA in collaboration with DILA Korea the Secretariat of DILA in South Korea

When it was launched the Yearbook was the first publication of its kind edited by a team of leading international law scholars from across Asia. It provides a forum for the publication of articles in the field of international law and other Asian international legal topics. The objectives of the Yearbook are two fold: First to promote research study and writing in the field of international law in Asia and second to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues. Each volume of the Yearbook contains articles and shorter notes, a section on Asian state practice, an overview of the Asian states' participation in multilateral treaties and succinct analysis of recent international legal developments in Asia, a bibliography that provides information on books, articles, notes and other materials dealing with international law in Asia as well as book reviews. This publication is important for anyone working on international law and in Asian studies.

International Law Reports E. Lauterpacht, C. J. Greenwood, A. G.

Oppenheimer, 1997-12-04 A unique and essential work of reference for the international lawyer. *Territorial Disputes in the Americas* Jorge Emilio Núñez, 2025-08-20 Territorial disputes are intricately shaped by historical, legal, geopolitical, social, cultural and other factors. This book uses a multidimensional approach to assess real case scenarios across the Americas individually and collectively. The work evaluates a selected sample of these disputes, tracing origins to colonial histories, unclear border demarcations or uncharted lands and challenges enforcing legal boundaries. It then explores critical thematic areas illustrated with compelling examples: disputes entangled with non-American agents like European nations, colonialism, neo-colonial interference and pervasive colonial mindsets; ongoing regional differences between neighboring states and the intricate, sometimes conflicting roles of indigenous communities and implanted populations asserting self-determination often diverging from states' interests. The work reveals sovereignty and disputes intertwined encompassing plural agents, roles, contexts, realms and modes of existence beyond traditional views. Cases like the Falkland/Malvinas Islands, Mexico-US border, Amazon region and Antarctica highlight how regional organizations and alliances could enhance peacebuilding, strengthen American states against external powers and challenge traditional unidimensional scholarly approaches with a nuanced, comprehensive perspective. The book will appeal to researchers, academics and policymakers in the areas of Public International Law, Political Science and International Relations, Legal Philosophy, Political Philosophy and Jurisprudence.

Terrorism and International Law Maurice Flory, Rosalyn Higgins, 2002-05-03 The proliferation in terrorist activity has provoked an increase in the body of law both at national and international level which has sought to counter and prevent it. The bodies involved in this process range from the UN Security Council to government legislatures. This book is the first to address in one volume the wide variety of responses to terrorism as they exist in both international and domestic contexts. It also represents the first ever comprehensive collection of documents referring to terrorism which are to be found in the laws of the UK and France as well as in international law. *Terrorism and International Law* comprises contributions by thirteen well known authorities in the areas of international, French and UK law and is divided into four main sections: international

cooperation against terrorism the French and British responses to terrorism the limits of state action and a documentary supplement The contributors have sought to show how international and domestic law can be used together to combat the multi faceted problems which terrorism raises The issue of human rights is also discussed with particular reference to the jurisprudence of the European Commission and Court of Human Rights The fourth documentary section of the book provides coverage of international treaties UN resolutions UK and French legislation case law and official statements relating to terrorism This book provides an invaluable source of commentary and reference material in the area of terrorism and international and domestic law which will be useful for practitioners diplomats students and teachers **State**
