Transformations and Crisis of Liberalism in Argentina, 1930-1955 Jorge A. Nállim, 2014-08-14 N llim chronicles the decline of liberalism in Argentina during the volatile period between two military coups the 1930 overthrow of Hip lito Yrigoyen and the deposing of Juan Per n in 1955 While historians have primarily focused on liberalism in economic or political contexts N llim instead documents a wide range of locations where liberalism was claimed and ultimately marginalized in the pursuit of individual agendas N llim shows how concepts of liberalism were espoused by various groups who invented traditions to legitimize their methods of political religious class intellectual or cultural hegemony In these deeply fractured and corrupt processes liberalism lost political favor and alienated the public These events also set the table for Peronism and stifled the future of progressive liberalism in Argentina N llim describes the main political parties of the period and deconstructs their liberal discourses He also examines major cultural institutions and shows how each attached liberalism to their cause N llim compares and contrasts the events in Argentina to those in other Latin American nations and reveals their links to international developments While critics have positioned the rhetoric of liberalism during this period as one of decadence or irrelevance N llim instead shows it to be a vital and complex factor in the metamorphosis of modern history in Argentina and Latin America as well

El peronismo y la consagración de la nueva Argentina Carlos Piñeiro Iñíguez, 2021-04-01 Carlos Piñeiro Iñíguez hace valer la fuerza de lo que el lector ya sabe en contraste con lo que los protagonistas de esta historia del peronismo hacen pues estos no conocen de antemano los resultados La lectura resulta apasionante los hechos aparecen en su dramática minuciosidad aparentemente aleatorios sin ensambles futuros pero cargados de intencionalidad De este modo un documento un nombre una fecha irradian significados que los ámbitos genéricos de la historia del peronismo habitualmente no consideran pero adquieren en este libro un rasgo premonitorio una frescura que parecen haber perdido Los actores de esta historia tienen un plan pero es necesario que lo confronten constantemente con la rebeldía de los hechos que no se amoldan fácilmente a la voluntad de los actores de esta celosa narración de inusitada espesura Lo que se lee en estas páginas de gran originalidad es precisamente esa lucha día a día de los hombres de la política contra la tozudez insigne de los hechos Este libro un ítem para detalles que parecen insignificantes capta finalmente la madeja trágica a veces burlona a veces severa que los recubre de sentido *The Politics of National Capitalism* James P. Brennan, Marcelo Rougier, 2009 An analysis of the social relations political strategies and history behind capitalist economic development in Latin America with particular attention to Argentina Provided by publisher

The Material of World History Tina Mai Chen, David S. Churchill, 2015-03-27 This volume considers the confluence of World History and historical materialism with the following guiding question in mind given developments in the field of historical materialism concerned with the intersection of race gender labour and class why is it that within the field of World History historical materialism has been marginalized precisely as World History orients toward transnational socio cultural phenomenon micro studies or global histories of networks Answering this question requires thinking in an inter related manner about both the development of World History as a discipline and the place of economic determinism in historical materialism This book takes the position that historical materialism as applied to the field of World History needs to be more open to the methodological diversity of the materialist tradition and to refuse narrowly deterministic frameworks that have led to marginalization of materialist cultural analysis in studies of global capitalism At the same time World History needs to be more self critical of the methodological diversity it has welcomed through a largely inclusionary framework that allows the material to be considered separately from cultural social and intellectual dimensions of global processes From Laborism to Liberalism Steven Robert Levitsky, 1999
