Representative Man Ralph Waldo Emerson In His Time:

Representative Men Ralph Waldo Emerson, 1894 **Representative man** Joel Porte, 1988 **Representative Men Seven Lectures** Ralph Waldo Emerson, 2023-01-03

Representative Men is a collection of seven lectures given by Ralph Waldo Emerson in the mid 19th century. The lectures explore the lives and ideas of several influential figures from history, including Plato, Shakespeare, Montaigne, Napoleon, and Goethe. Emerson uses these figures as examples of what he calls representative men: individuals who embody the ideals and principles of their time and culture. He argues that by studying the lives and works of these individuals, we can gain insight into the broader patterns of human history and society. Each lecture focuses on a different figure and their unique contributions to philosophy, literature, politics, or culture. For example, the lecture on Shakespeare examines his role in shaping the English language and his insights into human nature, while the lecture on Napoleon discusses his military and political achievements. Throughout the lectures, Emerson emphasizes the importance of individualism, creativity, and self-reliance. He argues that these values are essential for anyone seeking to make a meaningful contribution to society and that they can be cultivated by studying the lives of representative men and women from history. Overall, Representative Men is a celebration of human potential and a call to action for individuals to pursue their own unique paths in life.

Henry James and the Father Question Andrew

Taylor,2002-02-28 The intellectual relationship between Henry James and his father who was a philosopher and theologian proved to be an influential resource for the novelist Andrew Taylor explores how James s writing responds to James Senior s epistemological thematic and narrative concerns and relocates these concerns in a more secularised and cosmopolitan cultural milieu Taylor examines the nature of both men s engagement with autobiographical strategies issues of gender reform and the language of religion He argues for a reading of Henry James that is informed by an awareness of paternal inheritance Taylor s study reveals the complex and at times antagonistic dialogue between the elder James and his peers particularly Emerson and Whitman in the vanguard of mid nineteenth century American Romanticism Through close readings of a wide range of novels and texts he demonstrates how this dialogue anticipates James s own theories of fiction and selfhood

The Emerson Dilemma T. Gregory Garvey,2001-01-01 This gathering of eleven original essays with a substantive introduction brings the traditional image of Emerson the Transcendentalist face to face with an emerging image

of Emerson the reformer The Emerson Dilemma highlights the conflict between Emerson's philosophical attraction to solitary contemplation and the demands of activism compelled by the logic of his own writings The essays cover Emerson's reform thought and activism from his early career as a Unitarian minister through his reaction to the Civil War In addition to Emerson's antislavery position the collection covers his complex relationship to the early women's rights movement and American Indian removal Individual essays also compare Emerson's reform ethics with those of his wife Lidian Jackson Emerson his aunt Mary Moody Henry David Thoreau John Brown and Margaret Fuller The Emerson who emerges from this volume is one whose Transcendentalism is explicitly politicized thus we see him consciously mediating between the opposing forces of the world he thought and the world in which he lived *Born Losers* Scott A. Sandage, 2006-04-30 This pioneering American cultural history connects everyday attitudes and anxieties about failure to lofty ideals of individualism and salesmanship of self Sandage's storytelling brings to life forgotten individuals who wrestled with The Loser the label and the experience in the days when American capitalism was building a nation of winners Emerson's Emergence Mary Kupiec Cayton, 2017-11-01 As the culture of commercial capitalism came to dominate nineteenth century New England it changed people's ideas about how the world functioned the nature of their work their relationships to one another and even the way they conceived of themselves as separate individuals Drawing on the work of the last twenty years in New England social history Mary Cayton argues that Ralph Waldo Emerson's work and career when seen in the context of the momentous changes in the culture and economics of the region reveal many of the tensions and contradictions inherent in the new capitalist social order In exploring the genesis of liberal humanism as a calling in the United States this case study implicitly poses questions about its assumptions its aspirations and its failings Cayton traces the ways in which the social circumstances of Emerson's Boston gave rise to his philosophy of natural organicism his search for an appropriate definition of the intellectual's role within society and his exhortations to individuals to distrust the norms and practices of the mass culture that was emerging She addresses the historical context of Emerson's emergence as a writer and orator and undertakes to describe the Federalism and Unitarianism in which Emerson grew up explaining why he eventually rejected them in favor of romantic transcendentalism Cayton demonstrates how Emerson's thought was affected by the social pressures and ideological constructs that launched the new cultural discourse of individualism A work of intellectual history and American studies this book explores through Emerson's example the ways in which intellectuals both make their cultures and are made by them
