Representing Black Men:

Representing Black Men Marcellus Blount, George Cunningham, 2014-01-27 *Representing Black Men* focuses on gender race and representation in the literary and cultural work of black men

Black Men on Race, Gender, and Sexuality Devon Carbado, 1999-07 A groundbreaking anthology of essays providing commentary on gender and sexuality inclusion in the antiracist movement In late 1995 the Million Man March drew hundreds of thousands of black men to Washington DC and seemed even to skeptics a powerful sign not only of black male solidarity but also of black racial solidarity Yet while generating a sense of community and common purpose the Million Man March with its deliberate exclusion of women and implicit rejection of black gay men also highlighted one of the central faultlines in African American politics the role of gender and sexuality in antiracist agenda In this groundbreaking anthology a companion to the highly successful *Critical Race Feminism* Devon Carbado changes the terms of the debate over racism gender and sexuality in black America The essays cover such topics as the legal construction of black male identity domestic abuse in the black community the enduring power of black machismo the politics of black male white female relationships racial essentialism the role of black men in black women's quest for racial equality and the heterosexist nature of black political engagement Featuring work by Cornel West Huey Newton Henry Louis Gates Jr A Leon Higginbotham Jr Houston Baker Marlon T Riggs Dwight McBride Michael Awkward Ishmael Reed Derrick Bell and many others Devon Carbado's anthology stakes out new territory in the American racial landscape

Critical America A series edited by Richard Delgado and Jean Stephancic

Contemporary Black Men's Fiction and Drama Keith Clark, 2001 Demonstrating the extraordinary versatility of African American men's writing since the 1970s this forceful collection illustrates how African American male novelists and playwrights have absorbed challenged and expanded the conventions of black American writing and with it black male identity From the John Henry Syndrome a definition of black masculinity based on brute strength or violence to the submersion of black gay identity under equations of gay with white and black with straight the African American male in literature and drama has traditionally been characterized in ways that confine and silence him *Contemporary Black Men's Fiction and Drama* identifies the forces that limit black male discourse including traditions established by iconic African American male authors such as James Baldwin Richard Wright and Ralph Ellison This thoughtful volume also shows how contemporary black male authors use their narratives to put forward new ways of being and knowing that foster a more complete sense of self and more humane and open ways of communicating with and relating to others In the work of Charles Johnson Ernest Gaines and August Wilson contributors find paths toward broader less rigid ideas of what black literature can be what the connections among individual and communal resistance can be and how black men can transcend the imprisoning models of hyper masculinity promoted by American culture Seeking greater spiritual connection with the past John Edgar Wideman returns to the folk rituals of his family while Melvin Dixon and Brent Wade reclaim African roots and traditions Ishmael Reed struggles with a contemporary

cultural oppression that he sees as an insidious echo of slavery while Clarence Major's experimental writing suggests how black men might reclaim their own voices in a culture that silences them Taking in a wide range of critical theoretical cultural gender and sexual concerns Contemporary Black Men's Fiction and Drama provides provocative new readings of a broad range of contemporary writers *The Performative Representations of Masculinity in Quentin Tarantino's Cinema* Justin Russell Greene, 2023-08-22 In this book Justin Russell Greene examines how Quentin Tarantino uses his auteur identity to further cement the masculine tropes of Hollywood and ultimately society through language visual aesthetics and performative representations of masculinity in his films and media appearances Greene posits that the careful crafting of his auteur persona allows Tarantino to project a consistent version of what it means to be a writer director artist and that through his interview and speeches he reveals the deeper intensions behind the representations his characters present in his films However although he is valorized by audiences media personalities and peers as an artistic genius Tarantino traffics in many of the systemic issues embedded within the United States socio cultural environment Greene argues that although Tarantino promotes a political vision in his films and public appearances that illuminates the restrictions of hegemonic masculinity this is not sufficiently effective at truly disrupting entrenched ideologies about masculinity in U S culture due to how Tarantino hides his critical takes within genre stereotypes Scholars of film studies gender studies and popular culture will find this book of particular interest *Object Lessons* Robyn Wiegman, 2012-01-11 A passionate advocate of identity studies and a keen reader of U S institutional politics Robyn Wiegman turns her attention in *Object Lessons* to the critical practices and political ambitions of identity based fields In a series of case studies drawn from women's studies queer studies ethnic studies and American studies she examines the unspoken belief that better theory will produce progressive social change in order to consider the political desire that fuels current scholarly debate Her metacritical analysis is neither a defense nor a dismissal of such political commitment but a sustained inquiry into the hope it generates the thinking it inspires and the conformity it inadvertently demands **African Americans in Sports** Gary A. Sailes, 2017-07-05 Research on African American athletes generally focuses on negative stereotypes of physical prowess and socially controversial themes Most studies investigate racism prejudice discrimination and exploitation experienced by African American athletes Many studies contrast African American and white athletes on a number of variables that support prevailing elitist stereotypes and denigrate African American athletes But few studies investigate the diverse and complex cultural dichotomies within the infrastructure of sport in the African American community Gary Sailes maintains that it is crucial to develop a more eclectic and immersed cultural approach when investigating African American involvement in competitive sports The contributors to *African Americans in Sports* show that there are also intrinsic cultural paradigms that are evident presenting an informative and interesting narrative regarding African American athletes The chapters that make up this volume were written by noted scholars who were selected based on their expertise in their specific academic areas They

write about different components of the experience of African American male athletes Chapters and contributors include Race and Athletic Performance A Physiological Review by David W Hunter The Athletic Dominance of African Americans Is There a Genetic Basis by Vinay Harpalani African American Player Codes on Celebration Taunting and Sportsmanlike Conduct by Vernon L Andrews and Stacking in Major League Baseball by Earl Smith and C Keith Harrison Many chapters were originally published as a special issue of the Journal of African American Men This volume should be read by all those involved in athletics as well as by sports sociologists and African American studies scholars

Sport in Films Emma Poulton, Martin Roderick, 2019-05-30 Sport offers everything a good story should have heroes and villains triumph and disaster achievement and despair tension and drama Consequently sport makes for a compelling film narrative and films in turn are a vivid medium for sport Yet despite its regularity as a central theme in motion pictures constructions and representations of sport and athletes have been marginalised in terms of serious analysis within the longstanding academic study of films and documentaries In this collection it is the critical study of film and its connections to sport that are examined The collection is one of the first of its kind to examine the ways in which sport has been used in films as a metaphor for other areas of social life Among the themes and issues explored by the contributors are Morality tales in which good triumphs over evil The representation and ideological framing of social identities including class gender race and nationality The representation of key issues pertinent to sport including globalization politics commodification consumerism and violence The meanings spoken by films and the various readings which audiences make of them This is a timely collection that draws together a diverse range of accessible insightful and ground breaking new essays This book was published as a special issue of Sport in Society
