*Representing German Identity in the New Berlin Republic*, 2005 Representing German Identity in the New Berlin Republic Olaf Kuhlke, 2004 Kuhlke geography U of Minnesota Duluth focuses his teaching on the socio spatial construction of nationalism Here he explores the German preoccupation with finding a new national identity for themselves which began in the early 1990s emphasizing the impact of the reassignment of Berlin as capital and seat of government for the reunified Germany in 1991 Among his topics are expanding the boundaries of methodologies in search of the nation the Love Parade on Berlin s historical and contemporary map body politics and the incorporation of Germany the aesthetics of raving and the discursive construction of German national identity finding a place for the memorial for murdered Jews of Europe and disembodied memory and the construction of national identity Annotation 2004 Book News Inc Portland OR booknews.com

**Nomadic Ethics in Contemporary Women's Writing in German** Emily Jeremiah, 2012 Explores nationality gender and postmodern subjectivity in the work of five German speaking women writers who embody a nomadic ethics How can postmodern subjectivity be ethically conceived What can literature contribute to this project What role do gender and nation play in the construction of contemporary identities Nomadic Ethics broaches these questions exploring the work of five women writers who live outside of the German speaking countries or thematize a move away from them Birgit Vanderbeke Dorothea Gr nzweig Antje R vic Strubel Anna Mitgutsch and Barbara Honigmann It draws on work by Rosi Braidotti Sara Ahmed and Judith Butler to develop a nomadic ethics and examines how the writers under discussion conceptualize contemporary German and Austrian identities especially but not only gender identities in instructive ways The book engages with a number of critical issues in contemporary German studies globalization green thought questions of gender and sexuality East and West German identities Austrianness the postmemory of the Holocaust and Jewishness In this way Nomadic Ethics offers a valuable contribution to debates about the nature of German studies itself as well as insightful readings of the individual authors and texts concerned Emily Jeremiah is Lecturer in German Royal Holloway University of London National Belonging and Everyday Life M. Skey, 2011-10-25 This book analyses the current debates around national identity and multiculturalism by addressing three key questions why do so many people treat as common sense the idea that they live in and belong to nations And why and for whom might this idea be significant notably in an era of increasing global uncertainty

The Killing of Cambodia: Geography, Genocide and the Unmaking of Space James A. Tyner, 2017-05-15 Between 1975 and 1978 the Khmer Rouge carried out genocide in Cambodia unparalleled in modern history Approximately 2 million died almost one quarter of the population Taking an explicitly geographical approach this book argues whether the Khmer Rouge s activities not only led to genocide but also terraced the erasure of space In the Cambodia of 1975 the landscape would reveal vestiges of an indigenous pre colonial Khmer society a French colonialism and American intervention The Khmer Rouge however were not content with retaining the past inscriptions of previous modes of

production and spatial practices Instead they attempted to erase time and space to create their own utopian vision of a communal society The Khmer Rouge s erasing and reshaping of space was thus part of a consistent sacrifice of Cambodia and its people a brutal justification for the killing of a country and the birth of a new place Democratic Kampuchea While focusing on Cambodia the book provides a clearer geographic understanding to genocide in general and insights into the importance of spatial factors in geopolitical conflict      War, Violence, and Population James A. Tyner, 2009-03-03 Grounded in theory and research this book offers a spatial perspective on how and why populations are regulated and disciplined by mass violence and why these questions matter for scholars concerned about social justice James Tyner focuses on how states and other actors use acts of brutality to manage administer and control space for political and economic purposes He shows how demographic analyses of fertility mortality and migration cannot be complete without taking war and genocide into account Stark in depth case studies provide a powerful and provocative basis for retheorizing population geography Winner AAG Meridian Book Award for Outstanding Scholarly Work in Geography      Sound, Society and the Geography of Popular Music Thomas L. Bell, 2016-04-01 Popular music is a cultural form much rooted in space and place This book interprets the meaning of music from a spatial perspective and in doing so it furthers our understanding of broader social relations and trends including identity attachment to place cultural economies social activism and politics The book s editors have brought together a team of scholars to discuss the latest innovative thinking on music and its geographies illustrated with a fascinating range of case studies from the USA Canada the Caribbean Australia and Great Britain      *National Days* D. McCrone, G. McPherson, 2009-10-15 The book shows how national days are best understood in the context of debates about national identity It argues that national days are contested and manipulated as well as subject to political cultural and social pressure It brings together some of the most recent research on national days and sets it in a comparative context      Body, Nation, and Place Olaf Kuhlke, 2001      **Sound, Society and the Geography of Popular Music** Ola Johansson, Thomas L. Bell, 2009 Illustrated by a range of fascinating case studies from the USA Canada the Caribbean Australia and Great Britain this book presents the latest innovative spatial perspectives on music and in doing so furthers our understanding of broader social relations and trends including identity attachment to place cultural economies social activism and politics      *Global Movements* Olaf Kuhlke, Adam M. Pine, 2014-12-18 Global Movements Dance Place and Hybridity provides a theoretical and practical examination of the relationships between the global mobility of ideas and people and its impact on dance and space Using seven case studies the contributors illustrate the mixture of dance styles that result from the global diffusion of cultural traditions and practices The collection portrays a multitude of ways in which public and private spaces stages buildings town squares as well as natural environments are transformed and made meaningful by culturally diverse dances Global Movements will be of interest to scholars of geography dance and global issues      **Guide to Geography Programs in North America** , 2003      *Book Review Index* , 2006 Every 3rd issue is a quarterly cumulation      **American Book**

**Identity in Divided Berlin** Emily Pugh,2014-03-21 On August 13 1961 under the cover of darkness East German authorities sealed the border between East and West Berlin using a hastily constructed barbed wire fence Over the next twenty eight years of the Cold War the Berlin Wall grew to become an ever present physical and psychological divider in this capital city and a powerful symbol of Cold War tensions Similarly stark polarities arose in nearly every aspect of public and private life including the built environment In *Architecture Politics and Identity in Divided Berlin* Emily Pugh provides an original comparative analysis of selected works of architecture and urban planning in both halves of Berlin during the Wall era revealing the importance of these structures to the formation of political cultural and social identities Pugh uncovers the roles played by organizations such as the Foundation for Prussian Cultural Heritage and the Building Academy in conveying the political narrative of their respective states through constructed spaces She also provides an overview of earlier notable architectural works to show the precursors for design aesthetics in Berlin at large and considers projects in the post Wall period to demonstrate the ongoing effects of the Cold War Overall Pugh offers a compelling case study of a divided city poised between powerful contending political and ideological forces and she highlights the effort expended by each side to influence public opinion in Europe and around the World through the manipulation of the built environment

[A Global History of Modern Historiography](#) Georg Iggers,Q. Edward Wang,Supriya Mukherjee,2016-09-01 The first book on historiography to adopt a global and comparative perspective on the topic *A Global History of Modern Historiography* looks not just at developments in the West but also at the other great historiographical traditions in Asia the Middle East and elsewhere around the world over the course of the past two and a half centuries This second edition contains fully updated sections on Latin American and African historiography discussion of the development of global history environmental history and feminist and gender history in recent years and new coverage of Russian historical practices Beginning in the mid eighteenth century the authors analyse historical currents in a changing political social and cultural context examining both the adaptation and modification of the Western influence on historiography and how societies outside Europe and America found their own ways in the face of modernization and globalization Supported by online resources including a selection of excerpts from key historiographical texts this book offers an up to date account of the status of historical writing in the global era and is essential reading for all students of modern historiography
