Stone *Representing Clients in Mediation* is a practical guide which offers step by step guidance to practitioners representing clients in alternative dispute resolution. It provides the reader with a clear understanding of the procedure and principles of mediation with instructions on how best to handle and represent a client's case. It looks at the subject as a whole from mediation principles to initial consultations with the client to representing clients in early private sessions and terminating mediation. Written by an expert in mediation, this book offers a unique insight into the subject and should be on the shelf of any ambitious solicitor, especially as mediation is an increasingly desirable alternative for clients who wish to avoid the delays and stress of litigation.

*Advising and Representing Clients at Mediation* Stephen Walker, David Smith, 2013. An invaluable guide for lawyers, surveyors and other professionals covering every stage of the process from persuading the other party to mediate to preparing for and taking part in the mediation itself and advising clients on what to expect and how to conduct themselves at a mediation. *Representing Clients in Mediation* Spencer Punnett, 2013. Every chapter also includes a variety of sidebars, standalone pieces ranging from instructive anecdotes to direct me to you advice on specific mediation topics. Practitioner s Handbook on International Arbitration and Mediation 3rd Edition is a unique work with each chapter written by a well known practitioner and expert in the field It covers each step of the international arbitration and mediation process and offers separate chapters that summarize the laws of leading arbitral venues This Handbook is intended to make the reader into a better practitioner or arbitrator mediator Moreover each chapter has been written to provide practical advice and guidance Unlike many works with multiple authors this work is not simply a collection of essays on a general subject This book is a unified work with cross references among the chapters and a consistent format throughout The Practitioner s Handbook is divided into three parts Part One describes in detail each step of the international arbitration process and offers tips Part Two deals with each step and facet of an international mediation Each of these chapters is filled with Practitioners Expert Commentary Part Three summarizes the laws of leading arbitral jurisdictions like Hong Kong England Switzerland and France These chapters give you detailed guidance on the laws governing international arbitration in that particular jurisdiction As a result the chapters in Part Three are a bit more technical as the authors realized that the reader would need citations to and commentary on the local arbitration statutes and rules The CD ROM that accompanies this Work contains relevant original source material that is germane to the text A review of the table of contents of the material contained on the CD ROM will acquaint you with the range of material covered
