Christopher David, Bram Stoker

Reproductive Urges Popular Novel Reading Sexuality And The English Nation New Cultural Studies:

Reproductive Urges Anita Levy, 1999-07-08 *Reproductive Urges* challenges traditional and Marxist accounts of the oppositional relationship between production and reproduction by focusing on reproduction as one of the most widely used and highly contested concepts in modern culture. Although it appears to refer only to the most obvious of biological facts, Anita Levy contends that reproduction includes a diverse field of cultural and social practices. Levy looks to the writings of Charlotte Lennox, Jane Austen, Charlotte Brontë, Charles Dickens, Bram Stoker, and Oscar Wilde among others to explain both conceptual changes in notions of reproduction and the acute anxiety about controlling it, still dominant in contemporary debates concerning the individual, the family, and sexuality. *Dickens, Sexuality and Gender* Lillian Nayder, 2017-03-02 This volume of essays examines Dickens's complex representations of sexuality and gender as well as his use of gender ideologies and sexual and gender differences over the course of his literary career, from his first sketches and early novels to his late works of fiction. The essays approach gender issues in Dickens's writing by focusing on a number of topics: his treatment of gender ideals and transgressions, the intersections and displacements among gender, class, and race, the ties between gender and the body, and among gender, voice, and language; his depiction of the homosocial and the homoerotic; and the relation between gender and the law. The essays provide an introduction to the most recent approaches to Dickens's fiction, in addition to those now considered classic, draw on queer theory, and also feature a variety of methodologies ranging across feminist, historicist, and psychoanalytic methods of interpretation. The collection represents the best of previously published research by Dickens's scholars and illuminates for students and scholars alike the meaning of gender in such novels as *The Pickwick Papers*, *Dombey and Son*, and *Our Mutual Friend*. **Problem Novels** Anna Maria Jones, 2007 In *Problem Novels*, Anna Maria Jones argues that far from participating invisibly in disciplinary regimes, many Victorian novels articulate sophisticated theories about the role of the novel in the formation of the self. In fact, it is rare to find a Victorian novel in which questions about the danger or utility of novel reading are not embedded within the narrative. In other words, one of the stories that the Victorian novel tells over and over again is the story of what novels do to readers. This story occurs in moments that call attention to the reader's engagement with the text. In chapters on Wilkie Collins, Anthony Trollope, and George Meredith, Jones examines problem novels that is, novels that both narrate and invite problematic reading as part of their theorizing of cultural production. *Problem Novels* demonstrates that these works posit a culturally embedded, sensationably susceptible reader and at the same time present a methodology for critical engagement with cultural texts. Thus, the novels theorize paradoxically a reader who is both unconsciously interpellated and critically empowered. And Jones argues it is this paradoxical construction of the unconscious critical subject that re-emerges in the theoretical paradigms of Victorian cultural studies scholarship. Indeed, as *Problem Novels* shows, Victorianists' attachments to critical detective work closely resemble the sensational attachments that we assume shaped Victorian novel readers. **BOOK JACKET** *Irishness*

and Womanhood in Nineteenth-century British Writing Thomas J. Tracy, 2009 Using Lady Morgan's *The Wild Irish Girl* as his point of departure Thomas J. Tracy argues that nineteenth century debates over what constitutes British national identity often revolved around representations of Irishness especially Irish womanhood He maps the genealogy of this development in fiction political discourse and the popular press from Edgeworth's *Castle Rackrent* through Trollope's Irish novels focusing on the pivotal period from 1806 through the 1870s

Inventing Maternity Susan C. Greenfield, Carol Barash, 2021-10-21 Not until the eighteenth century was the image of the tender full time mother invented This image retains its power today *Inventing Maternity* demonstrates that despite its association with an increasingly standardized set of values motherhood remained contested terrain Drawing on feminist cultural and postcolonial theory *Inventing Maternity* surveys a wide range of sources medical texts political tracts religious doctrine poems novels slave narratives conduct books and cookbooks The first half of the volume covering the mid seventeenth to the late eighteenth centuries considers central debates about fetal development pregnancy breastfeeding and childbearing The second half covering the late eighteenth to the mid nineteenth centuries charts a historical shift to the regulation of reproduction as maternity is increasingly associated with infanticide population control poverty and colonial national and racial instability In her introduction Greenfield provides a historical overview of early modern interpretations of maternity She concludes with a consideration of their impact on current debates about reproductive rights and technologies child custody and the cycles of poverty

Novel Professions Jennifer Ruth, 2006

Victorian Negatives Susan E. Cook, 2019-07-01 *Victorian Negatives* examines the intersection between Victorian photography and literary culture and argues that the development of the photographic negative played an instrumental role in their confluence The negative is a technology that facilitates photographic reproduction by way of image inversion and Susan E. Cook argues that this particular photographic technology influenced the British realist novel and literary celebrity culture as authors grappled with the technology of inversion and reproduction in their lives and works The book analyzes literary works by Charles Dickens Arthur Conan Doyle E. W. Hornung Cyril Bennett Robert Louis Stevenson Oscar Wilde Thomas Hardy and Bram Stoker and puts readings of those works into conversations with distinct photographic forms including the daguerreotype solarization forensic photography common cabinet cards double exposures and postmortem portraiture In addition to literary texts the book analyzes photographic discourses from letters and public writings of photographers and the nineteenth century press as well as discussions and debates surrounding Victorian celebrity authorship The book's focus on the negative both illuminates an oft marginalized part of the history of photography and demonstrates the way in which this history is central to Victorian literary culture

Theater Figures Emily Allen, 2003 Why did nineteenth century novels return over again to the scene of theater Emily Allen argues that theater provided nineteenth century novelists and critics with a generic figure that allowed them to position particular novels and novelistic genres within a complex literary

field Novel genres high and low male and female public and private realistic and romantic all came to identify themselves within a set of coordinates that included if only for the purpose of exclusion the spectacular figure of theater This figure likewise provided a trope around and against which to construct images of readers and authors images that most frequently worked to mediate between the supposedly private acts of reading and writing and the very public facts of the print market In readings of novels by Burney Austen Scott Dickens Jewsbury Flaubert Braddon and Moore Allen shows how frequently theater appears as figure in novels of the nineteenth century and how theater figures actively and importantly in what we have come to look back on as the history of the nineteenth century novel Theater Figures thus offers a new model for thinking about how theater helped produce changes in the nineteenth century literary market While previous critics have considered theater as an enabling foil for the novel either a constitutive opposite or constructive ally Allen demonstrates how theater figures and tropes were used to negotiate competition among the novels and novelists eagerly seeking their share of the literary limelight

Dreams of the Burning Child David Lee Miller, 2018-07-05 In *Dreams of the Burning Child* David Lee Miller explores the uncanny persistence of filial sacrifice as a motif in English literature and its classical and biblical antecedents He combines strikingly original reinterpretations of the Aeneid Hamlet The Winter's Tale and Dombey and Son with perceptive accounts of dreams found in memoirs poems and psychoanalytic texts Miller looks closely at the grisly fantasy of the sacrifice of sons as it is depicted in classical epic early modern drama the nineteenth century novel the postcolonial novel the lyric the funeral elegy sacred scriptures and psychoanalytic theory He also draws examples from painting sculpture photography and architecture into a witty and engaging discussion that ranges from the binding of Isaac to Chinua Achebe's *Things Fall Apart* and from questions of literary history to the dilemmas of patriarchal masculinity
