

REPUBLICANISM IN NEW ZEALAND

Republicanism In New Zealand

Yulia Maleta

Republicanism In New Zealand:

Republicanism in New Zealand Luke Trainor, 1996 Republicanism is on the New Zealand agenda Although attracting little discussion it has the potential to change the New Zealand identities their international role the structure of their constitution and the nature of democracy in the country This book explores the origins of the movement its meaning for recent changes in everyday life the free market proportional representation its connection to overseas developments and its distinctive character here including tino rangatiratanga This book is an accessible and reliable point of reference for what will inevitably be an important subject for debate in Aotearoa New Zealand *History of Illinois Republicanism* Green Berry Raum, 1900 [The New Zealand Republic Handbook](#) Lewis J. Holden, 2009-09 **Feminism, Republicanism, Egalitarianism, Environmentalism** Yulia Maleta, 2019-08-23 This book addresses hegemonic ruling class masculinity and emphasized femininity within renewables organisational governance and critiques Anglo Celtic male privilege as a barrier to women's leadership participation Primarily using the Australian socio political context the author considers the patriarchal control of organisations and renewables governance and argues that women led emphasized femininity resistance strategies can challenge the hegemonic status of ruling elites to create a leadership that is less power oriented more collaborative and open to change Utilising detailed interviews with Australian women environmentalists together with feminist sociological and social movement theory whilst considering the historic context of Red Vienna and contemporary political challenges Brexit Monarchism etc it puts forward an innovative policy framework for an Australian Bill of Rights Act and republican constitutional change Written for academics activists and policymakers alike this book offers a unique insight into women's inequity within patriarchal institutionalist governance It will be engaging and inspiring reading for feminist and environmentalist activists and practitioners in addition to professional associations focussing on gender justice and environmental change Academics and postgraduates in Gender Studies Ecofeminism Sociology and Organisational Studies will also find the book of key interest in its interdisciplinary discussions of Sustainable Scientific Technological Development Initiatives SSTDI and feminism in an Australian political context **Foreigners and Foreign Institutions in Republican China** Anne-Marie Brady, Douglas Brown, 2013 Republican China attracted an uncommon diversity of foreign interests groups and individuals which included missionaries adventurers diplomats academics humanitarians and refugees as well as hedonists and tourists By exploring the diverse nature of foreign activities in Republican China this book complicates the dominant narratives of the imperialistic foreigner and Chinese victim and moves beyond the depiction of foreigners as privileged and the Chinese as simply weak The spaces and relationships examined in the essays in this volume reveal a complex series of interactions between foreigners and the people of China which go far beyond one way transmission or exploitation Indeed this book examines how diverse and sometimes seemingly peripheral foreign individuals and communities influenced literature education trade sexual morality warfare and architecture in China and in the process were themselves

profoundly changed in ways that are as remarkable as those experienced by the Chinese they had come to observe meet exploit conquer assist or change Bringing together the work of a diverse group of scholars on Republican China this edited volume adopts a uniquely multi disciplinary approach to the study of foreigners in China and utilises the perspectives of historiography literary studies cultural studies sociology anthropology and political science As such this interesting and innovative book will be of great interest to students and scholars from diverse fields including Chinese and global history politics and international relations Chinese studies literary studies and gender studies

The Culturalist Challenge to Liberal Republicanism Michael Lusztig, 2017-09-13 It is tempting to think of liberal democracy in terms of immortality Democracies have survived wars and depressions Nazis and communists so much so that at the end of the Cold War Francis Fukuyama famously declared the end of history In *The Culturalist Challenge to Liberal Republicanism* Michael Lusztig assesses the risks that multiculturalism and other forms of culturalism pose to liberal democracy Establishing the nature of the current regime and exploring the emergence of a cogent theory of justice grounded in both liberal and republican theory Lusztig demonstrates the inconsistencies between liberal republicanism and culturalist theories of justice Exploring both the institutional and cultural effects of the tension between culturalism and liberal republicanism he seeks a balanced view that falls somewhere between Fukuyama's optimism for regime mortality and the pessimism inherent in the work of more conservative theorists like Samuel Huntington Lusztig concludes that the narrowness of liberal republican justice is ameliorated by multiculturalism but the hidden danger is that multiculturalism can serve as a stalking horse for more pernicious agendas Given the increasing cultural diversity faced by North American and European nations *The Culturalist Challenge to Liberal Republicanism* has important implications for political stability in the twenty first century

National Republican, 1928 *The Republican War on Science* Chris Mooney, 2007-03-16 Science has never been more crucial to deciding the political issues facing the country Yet science and scientists have less influence with the federal government than at any time since the Eisenhower administration In the White House and Congress today findings are reported in a politicized manner spun or distorted to fit the speaker's agenda or when they're too inconvenient ignored entirely On a broad array of issues stem cell research climate change missile defense abstinence education product safety environmental regulation and many others the Bush administration's positions fly in the face of overwhelming scientific consensus Federal science agencies once fiercely independent under both Republican and Democratic presidents are increasingly staffed by political appointees and fringe theorists who know industry lobbyists and evangelical activists far better than they know the science This is not unique to the Bush administration but it is largely a Republican phenomenon born of a conservative dislike of environmental health and safety regulation and at the extremes of evolution and legalized abortion In *The Republican War on Science* Chris Mooney ties together the disparate strands of the attack on science into a compelling and frightening account of our government's increasing unwillingness to distinguish between legitimate research and ideologically driven

pseudoscience **The Politics of Historical Production in Late Qing and Republican China** Tze-ki Hon, Robert Culp, 2007-09-30 This book examines forms of Chinese historical production happening outside the mainstream of academic history through such new measures as the publication of textbooks the writing of local history the preservation of archival materials and government attempts to establish orthodox historical accounts The book does so in order to broaden the scope of modern Chinese historiography when it focuses primarily on a small group of writers such as Liang Qichao Gu Jiegang and Fu Sinian Directly linking historical writings to the formation of the nation the justification of elite authority and the cultivation of active citizenry this book shows that historiography is essential to understanding the uniqueness of Chinese modernity Also available in paperback *Who's who in New York City and State* Lewis Randolph Hamersly, John W. Leonard, William Frederick Mohr, Herman Warren Knox, Frank R. Holmes, Winfield Scott Downs, 1907 Containing authentic biographies of New Yorkers who are leaders and representatives in various departments of worthy human achievement including sketches of every army and navy officer born in or appointed from New York and now serving of all the congressmen from the state all state senators and judges and all ambassadors ministers and consuls appointed from New York **Our Republican Constitution** Adam Tomkins, 2005-02 This new book by Adam Tomkins sets out a radical vision of the British constitution It argues that despite its outwardly monarchic form the constitution is profoundly informed and indeed shaped by values and practices of republicanism The republican reading of the constitution presented in this book places political accountability at the core of the constitutional order As such *Our Republican Constitution* offers a powerful rejoinder to the current trend in legal scholarship that sees the common law and the courts rather than Parliament as the central players in holding government to account The book further contends that while the constitution should be understood as having republican foundations current constitutional practice is in a number of respects insufficiently republican in character The book closes by outlining a programme of republican constitutional reform that is designed to secure genuinely responsible government This is an original and provocative reinterpretation of the central themes of the British constitution drawing on constitutional history especially of the seventeenth century political theory and public law **The Republican Advocate** ,1912 **Republican Campaign Text-book, 1908** Republican National Committee (U.S.), 1908 *Republican Campaign Text-book, 1908* Republican Party (U.S. : 1854-). National committee, 1908-1912, 1908 **Republican Campaign Text Book** ,1924 **The Queen's Other Realms** Peter John Boyce, 2008 Canada Australia and New Zealand inherited and adapted a monarchical framework of government even in the absence of a resident monarch Although steady transfer of the royal prerogative to a popularly elected executive has enabled these three former dominions to be sometimes described as crowned republics or disguised republics there was no popular drive to abandon monarchy until the 1990s and even then the republican cause was based largely on issues of symbolism and national identity than on perceived core weaknesses in the political system This book traces the long and sometimes subtle process of localising monarchy in the vice

regal office from the mid twentieth century onwards and compares the powers and functions of the Queen's surrogates with each other and with those of the monarch herself including their recourse to the so called reserve powers Among the key questions posed in this comparative study are Can the current monarchical system be refined to the point of countering republican sentiment Why has the republican argument gained more momentum in Australia than in Canada or New Zealand Can a republican model retain residual monarchic elements What is likely to be the lasting legacy of the Crown in these three strikingly similar political cultures The author's underlying loyalties are neither firmly monarchist nor firmly republican He is convinced however that the combined effects of a strong sense of national identity and an increasingly presidential style of political leadership within these three Westminster derived systems make it difficult for contemporary governors general or their state and provincial colleagues to fulfil two of their key roles to unite and inspire the people on the one hand and to be a credible constitutional watchdog on the other

Ireland in an Imperial World Timothy G. McMahon, Michael de Nie, Paul Townend, 2017-03-20 Ireland in an Imperial World interrogates the myriad ways through which Irish men and women experienced participated in and challenged empires in the nineteenth and twentieth centuries Most importantly they were integral players simultaneously managing and undermining the British Empire and through their diasporic communities they built sophisticated arguments that aided challenges to other imperial projects In emphasizing the interconnections between Ireland and the wider British and Irish worlds this book argues that a greater appreciation of empire is essential for enriching our understanding of the development of Irish society at home Moreover these thirteen essays argue plainly that Ireland was on the cutting edge of broader global developments both in configuring and dismantling Europe's overseas empires

Republican Campaign Text-book, 1912 Republican party. National committee, 1912-196, 1912

Royal and Republican France Henry Reeve, 1872

The Crown and Constitutional Reform Cris Shore, Sally Raudon, David V Williams, 2020-09-10 The Crown and Constitutional Reform is an innovative interdisciplinary exchange between experts in law anthropology and politics about the Crown constitutional monarchy and the potential for constitutional reform in Commonwealth common law countries The constitutional foundation of many Commonwealth countries is the Crown an icon of ultimate authority at once familiar yet curiously enigmatic Is it a conceptual placeholder for the state a symbol of sovereignty or does its ambiguity make it a shapeshifter a legal fiction that can be deployed as an expedient mask for executive power and convenient instrument for undermining democratic accountability This volume offers a novel interdisciplinary exchange the contributors analyse how the Crown operates in the United Kingdom and the postcolonial settler societies of Canada Australia and New Zealand In doing so they examine fundamental theoretical questions about statehood sovereignty constitutionalism and postcolonial reconciliation As Queen Elizabeth II's long reign approaches its end questions about the Crown's future its changing forms and meanings the continuing value of constitutional monarchy and its potential for reform gain fresh urgency The chapters in this book were originally published in a special issue of *The Round*
