Differences, Deceits and Desires Mirna Cicioni, Nicoletta Di Ciolla, 2008 Italian crime fiction known as gialli in Italy has developed from a popular genre to a fully fledged literary genre and in the past thirty years it has gradually become the focus of growing interest from literary critics as well as the reading public This collection of twelve essays is the first one in English to deal exclusively with Italian crime fiction The essays are scholarly yet accessible contributions to the growing research in this field They analyze texts by well known authors such as Umberto Eco Leonardo Sciascia and Andrea Camilleri as well as works by younger writers They bring together four of the most significant strands of Italian gialli the way gialli develop or subvert the tradition and conventions of the crime genre regional specificity within Italian crime fiction gialli by and about women lesbians and gay men and representations of Italy in gialli written by English speaking writers

Pessoa's Geometry of the Abyss Paulo De Medeiros, 2017-07-05 Fernando Pessoa wrote prolifically in many genres until his untimely death in 1935 and he has long been widely recognized as Portugal's most influential twentieth century writer The publication of the Book of Disquiet in 1982 however caused a seismic change in the appreciation of his work and its place in Modernism In that great and vast collection of fragments Pessoa firmly established his place among the canon of European modernists and radically questioned many of Modernity's assumptions Alain Badiou for example has argued that philosophers are not yet able to assimilate Pessoa's thinking Paulo de Medeiros's new study one of the first to be dedicated to the Book of Disquiet takes up that challenge exploring the text's connections with photography film politics and textuality itself and developing comparisons with D H Lawrence Walter Benjamin and Franz Kafka Paulo de Medeiros is Professor of Modern and Contemporary World Literatures in the Department of English and Comparative Literary Studies at the University of Warwick

Crime Scenes, 2021-11-01 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997 The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media although there is a predictable emphasis on the novel It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social

preoccupations and priorities operative at the time of writing. Such approaches can yield valuable insights. Nonetheless, there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society. In this perspective, issues of structure and style are sidelined or, if addressed, are praised to the extent that they approach invisibility; concision, sparseness, realism are the qualities singled out for praise. The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason. The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre. The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative. The patterns of reassurance, the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems, ambiguities and uncertainties of the self and of society. The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors. The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche. The role of the reader, spectator and critic in conferring meaning is a crucial one.
