Requiem For A Vampire:

Celluloid Vampires Stacey Abbott, 2009-03-06 In 1896 French magician and filmmaker George Méliès brought forth the first celluloid vampire in his film *Le manoir du diable*. The vampire continues to be one of film's most popular gothic monsters and in fact today more people become acquainted with the vampire through film than through literature such as Bram Stoker's classic *Dracula*. How has this long legacy of celluloid vampires affected our understanding of vampire mythology? And how has the vampire morphed from its folkloric and literary origins? In this entertaining and absorbing work Stacey Abbott challenges the conventional interpretation of vampire mythology and argues that the medium of film has completely reinvented the vampire archetype. Rather than representing the primitive and folkloric, the vampire has come to embody the very experience of modernity. No longer in a cape and coffin, today's vampire resides in major cities, listens to punk music, embraces technology and adapts to any situation. Sometimes she's even female. With case studies of vampire classics such as *Nosferatu*, *Martin*, *Blade* and *Habit*, the author traces the evolution of the American vampire film, arguing that vampires are more than just blood drinking monsters; they reflect the cultural and social climate of the societies that produce them, especially during times of intense change and modernization. Abbott also explores how independent filmmaking techniques, special effects, makeup and the stunning and ultramodern computer generated effects of recent films have affected the representation of the vampire in film.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars good, four stars excellent, five stars masterpiece. And yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a précis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system, which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc., as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.
