REQUIEM FOR BATTLESHIP YAMATO. TRANS AND INTRO. BY RICHARD H. MINEA. Yoshida Mitsuru, 1985 **The Twilight Warriors** Robert Gandt, 2011-11-08 Winner of the 2011 Samuel Eliot Morison Award for Naval Literature The Twilight Warriors is the engrossing page turning saga of a tightly knit band of naval aviators who are thrust into the final and most brutal battle of the Pacific war during World War II Okinawa April 1945 The end of World War II finally appears to be nearing The Third Reich is collapsing in Europe and the Americans are overpowering the once mighty Japanese Empire in the Pacific For a group of young pilots trained in the twilight of the war their greatest worry is that it will end before they have a chance to face the enemy They call themselves Tail End Charlies They fly at the tail end of formations stand at the tail end of chow lines and now they are catching the tail end of the war What they don't know is that they will be key players in the bloodiest and most difficult of naval battles not only of World War II but in all of American history The Twilight Warriors relives the drama of the world's last great naval campaign From the cockpit of a Corsair fighter we gaze down at the Japanese task force racing to destroy the American amphibious force at Okinawa Through the eyes of the men on the destroyers assigned to picket ship duty we experience the terror as wave after wave of kamikazes crash into their ships Standing on the deck of the legendary superbattleship Yamato we watch Japan's last hope for victory die in a tableau of gunfire and explosions The fate of the Americans at Okinawa including a twenty two year old former art student an intrepid fighter pilot whose life abruptly changes when his Corsair goes down off the enemy shore and a young Texan lieutenant who volunteers for the most dangerous flying job in the fleet intercepting kamikazes at night over the blackened Pacific is intertwined with the lives of the young gods the honor bound kamikaze forces who swarm like killer bees toward the U S ships The ferocity of the Okinawa fighting stuns the world Before it ends the long battle will cost more American lives ships and aircraft than any naval engagement in U S history More than simply the account of a historic battle The Twilight Warriors brings to life the human side of an epic conflict It is the story of young Americans at war in the air and on the sea

and of their enigmatic fanatically courageous enemy *Yukikaze's War* Brett L. Walker, 2024-06-06 Only one elite Imperial Japanese Navy destroyer survived the ocean battlefields of the Pacific War This is her remarkable story **Instruments of War** Spencer C. Tucker, 2015-07-28 This highly detailed and well illustrated single volume work documents the evolution of warfare across history through weaponry and technological change In war the weapons and technologies employed have direct effects on how battles are waged When new weapons are introduced they can dramatically alter the outcomes of warfare and consequently change the course of history itself This reference work provides a fascinating overview of the major weapon systems and military technologies that have had a major impact on world history Addressing weapons as crude as the club used by primitive man to the high tech weapons of today such as unmanned drones *Instruments of War Weapons and Technologies That Have Changed History* offers nearly 270 profusely illustrated entries that examine the key roles played by specific weapons and identify their success and failures The book begins with an introductory essay that frames the subject matter of the work and discusses the history of weapons as a whole The text is concise and accessible to general readers without extensive backgrounds in military history yet provides the detailed information necessary to convey the complexity of the evolution of warfare through technological change **Post-war Japan as a Sea Power** Alessio Patalano, 2015-04-23 In *Post war Japan as a Sea Power* Alessio Patalano incorporates new exclusive source material to develop an innovative approach to the study of post war Japan as a military power This archival based history of Asia's most advanced navy the Japanese Maritime Self Defence Force JMSDF looks beyond the traditional perspective of viewing the modern Japanese military in light of the country's alliance with the US The book places the institution in a historical context analysing its imperial legacy and the role of Japan's shattering defeat in WWII in the post war emergence of Japan as East Asia's sea power Negative, Nonsensical, and Non-Conformist Peter A. Yacavone, 2023-04-12 In the late 1950s Suzuki Seijun was an unknown anxious low ranking film director churning out so called program pictures for Japan's most successful movie studio Nikkatsu In the early 1960s he met with modest success in directing popular movies about yakuza gangsters and mild exploitation films featuring prostitutes and teenage rebels In this book Peter A Yacavone argues that Suzuki became an unlikely cinematic rebel and with hindsight one of the most important voices in the global cinema of the 1960s Working from within the studio system Suzuki almost single handedly rejected the restrictive filmmaking norms of the postwar period and expanded the form and language of popular cinema This artistic rebellion proved costly when Suzuki was fired in 1967 and virtually blacklisted by the studios but Suzuki returned triumphantly to the scene of world cinema in the 1980s and 1990s with a series of critically celebrated avant garde tales of the supernatural and the uncanny This book provides a well informed philosophically oriented analysis of Suzuki's 49 feature films *Air University Library Index to Military Periodicals*, 1987 **Legacies and Ambiguities** Ernestine Schlant, J. Thomas Rimer, 1991-10 The literary legacies of World War II have been mixed and varied especially in West Germany and Japan where the burden of defeat has been expressed by novelists

and intellectuals in strikingly different ways Reflecting the cultural differences between the two nations and the experiences of occupation and democratization that occurred after the war the postwar literatures of Germany and Japan intimately reveal the hopes and aspirations the dreams and the nightmares of two peoples confronting the harsh realities of war Using a comparative approach *Ambiguous Legacies* explores the conditions and values under which the postwar literatures of West Germany and Japan were created Specifically the book assesses the meaning of the German and Japanese literary responses to the World War II the tendencies of denial or silence by German writers the fatalism and passivity of Japanese novels and the importance of the past in defining the recent New subjectivism among German writers and the outpourings of the Introverted Generation by Japanese novelists Ernestine Schlant's introduction sets the context for the individual chapters and offers guideposts for further comparative scholarship The book also includes a useful annotated bibliography and suggestions for further reading The contributors are Arnulf Baring Carol Gluck Walter Hinderer Iremela Hijiya Kirschner Peter Demetz Marlene J Mayo J Victor Koschmann Judith Ryan Van C Gessel Dagmar Barnouw Kato Schuichi Oda Makoto and Peter Schneider

Routledge Handbook of Modern Japanese Literature Rachael Hutchinson, Leith Douglas Morton, 2025-08-29 This 2nd edition of the Routledge Handbook of Modern Japanese Literature provides a comprehensive survey of the field of modern Japanese literature and gives readers an overview of how we study Japanese literature today Including sections on space and time gender and sexuality politics war memory national and colonial identities and the production and dissemination of literature the Handbook examines the ways in which it is possible to read modern Japanese literature and situate it in relation to critical theory It also features updated and brand new chapters addressing the works of internationally renowned writers such as Futabatei Shimei and Murakami Haruki and defines the way writers produce literature in modern Japan as well as how those works have been read and understood by different readers in different time periods Written by an international team of experts the Handbook examines modes of literary production such as fiction poetry and critical essays as distinct forms of expression that nonetheless are closely interrelated and as such it will be a vital resource for students and scholars of Japanese Literature literature in translation and modern and contemporary literature

Divided Lenses Michael Berry, Chiho Sawada, 2017-12-31 *Divided Lenses Screen Memories of War in East Asia* is the first attempt to explore how the tumultuous years between 1931 and 1953 have been recreated and renegotiated in cinema This period saw traumatic conflicts such as the Sino Japanese War the Pacific War and the Korean War and pivotal events such as the Rape of Nanjing Pearl Harbor the Battle of Iwo Jima and the bombings of Hiroshima and Nagasaki all of which left a lasting imprint on East Asia and the world By bringing together a variety of specialists in the cinemas of East Asia and offering divergent yet complementary perspectives the book explores how the legacies of war have been reimagined through the lens of film This turbulent era opened with the Mukden Incident of 1931 which signaled a new page in Japanese militaristic aggression in East Asia and culminated with the Korean War 1950-1953 a protracted conflict that broke out in the

wake of Japan's post World War II withdrawal from Korea **Divided Lenses** explores the ways in which events of the intervening decades have continued to shape politics and popular culture throughout East Asia and the world The essays in part I examine historical trends at work in various national cinemas including China Taiwan Japan Korea and the United States Those in part 2 focus on specific themes present in the cinema portraying this period such as comfort women in Chinese film the Nanjing Massacre or nationalism and how they have been depicted or renegotiated in contemporary films Of particular interest are contributions drawing from other forms of screen culture such as television and video games **Divided Lenses** builds on the growing interest in East Asian cinema by examining how these historic conflicts have been imagined framed and revisited through the lens of cinema and screen culture It will interest later generations living in the shadow of these events as well as students and scholars in the fields of cinema studies cultural studies cold war studies and World War II history

The Sea and Civilization Lincoln Paine, 2015-10-27 A monumental retelling of world history through the lens of the sea revealing in breathtaking depth how people first came into contact with one another by ocean and river lake and stream and how goods languages religions and entire cultures spread across and along the world's waterways bringing together civilizations and defining what makes us most human The Sea and Civilization is a mesmerizing rhapsodic narrative of maritime enterprise from the origins of long distance migration to the great seafaring cultures of antiquity from Song Dynasty human powered paddle boats to aircraft carriers and container ships Lincoln Paine takes the reader on an intellectual adventure casting the world in a new light in which the sea reigns supreme Above all Paine makes clear how the rise and fall of civilizations can be linked to the sea An accomplishment of both great sweep and illuminating detail The Sea and Civilization is a stunning work of history

A Bridge of Words Hiroaki Sato, 2022-10-25 Prolific award winning translator of classical and modern Japanese poetry Hiroaki Sato recorded his thoughts on American society in mainly two columns across 30 plus years collected here for the first time This anthology of over 60 of Sato's commentaries reflect the writer's wide ranging erudition and his unsentimental views of both his native Japan and his adopted American homeland Broadly he looks at the Pacific War and its aftermath and at war and our love of it in general at the quirks and curiosities of the natural world exhibited by birds and other creatures at friends and mentors who surprised and inspired and finally at other writers and their works many of them familiar the Beats and John Ashbery for example and Mishima but many others whose introduction is welcome Sato is neither cheerleader nor angry expatriate Remarkably clear eyed and engaged with American culture he is in the business of critical appraisal and translation of taking words seriously and of observing how well others write and speak to convey their own truths and ambitions

Two Navies Divided Brian Lavery, 2023-11-30 The title is derived from George Bernard Shaw s comment that England and America are two countries divided by a common language It is not intended to imply that the two navies were seriously at odds with one another but rather to suggest as in the case of language that common roots and usages varied significantly And the Second World War is a pertinent moment for comparison They fought on the same side against a common enemy for nearly four years but Britain fought the war for the survival of itself and its empire though in the long term it failed with the latter while the American government fought to maintain its influence through the balance of power its people fought for revenge for Pearl Harbor and out of a sense of justice In this new book Brian Lavery describes and analyzes the differences and similarities between the two navies and in doing so sheds fascinating light on how the naval war was fought For example both navies had spectacular failures after entering the war the Royal Navy off Norway the USN at Pearl Harbor and Savo Island Paradoxically both commenced the war with quite amateur performances by professional navies and ended with highly skilled performances by largely amateur manned forces The training systems for regular officers had flaws in both countries In Britain entry was largely dependent on family income in America on political influence But American officers probably had a broader perspective by the time they entered active service The book covers ships and weapons systems for instance the British used too many gun types in the 4 to 6in range while the Americans concentrated on the well designed 5in And the author describes conditions onboard ships British vessels were awash with alcohol which had its attractions for Americans when alongside the Americans offered ice cream in return These examples represent only a tiny proportion of the subjects covered in this stimulating analysis Aviation the marines of both navies anti submarine and mine warfare uniforms propulsion systems shipbuilding and building programs commanders and national leaders ratings and officers ship design geographical environments naval bases hammocks and bunks the deployment of women these are among the myriad big and small themes that will open the eyes of naval historians and enthusiasts and show anyone with an interest in the Second World War how these two great allies came together to defeat the Axis forces
