## **Rereading The Renaissance:**

**Reading the Renaissance** Jonathan Hart, 2019-06-04 Approaching the Renaissance from many perspectives historicism genre studies close reading anthropology feminism new historicism cultural materialism and postmodernism these original essays explore the boundaries between genre and gender languages and literatures reading and criticism the Renaissance and the Middle Ages the early modern and the post modern world and theater They offer a new way of looking at the Renaissance and at literature and history generally through the lens of cultural pluralism which reflects the changing nature of Western society The collection reveals that the study of literature should take into account its cultural context and that it is enriched by an examination of other literatures *Rereading the Renaissance* Carol E. Quillen, 1998 Rereading the Renaissance a study of Petrarch's uses of Augustine uses methods drawn from history and literary criticism to establish a framework for exploring Petrarch's humanism Carol Everhart Quillen argues that the essential role of Augustine's words and authority in the expression of Petrarch's humanism is best grasped through a study of the complex textual practices exemplified in the writings of both men She also maintains that Petrarch's appropriation of Augustine's words is only intelligible in light of his struggle to legitimate his cultural ideals in the face of compelling opposition Finally Quillen shows how Petrarch's uses of Augustine can simultaneously uphold his humanist ideals and challenge the legitimacy of the assumptions on which those ideals were founded **Reading the Renaissance** Jonathan Hart, 2015 Reading the Renaissance first published in 1996 is a collection of essays discussing the literature drama poetics and culture of the Renaissance period The Renaissance which extends from about 1300 to 1700 depending on the country was originally a rebirth of the arts but has also come to apply to the wider cultural change in the face of modernization The essays represent a plural Renaissance and explore the boundaries between genre and gender languages and literatures reading and criticism the Renaissance and the medieval the early modern and the postmodern world and theatre There is also a plurality of methods that is fitting for the variety of topics and the richness of the Renaissance This book is ideal for students of literature and theatre studies

**Rereading Chaucer and Spenser** Rachel Stenner, Tamsin Badcoe, Gareth Griffith, 2019-05-10 Rereading Chaucer and Spenser Dan Geffrey with the New Poete offers dynamic new approaches to the relationship between the works of Geoffrey Chaucer and Edmund Spenser Contributors draw on current and emerging preoccupations in contemporary scholarship and offer new perspectives on poetic authority influence and intertextuality **Reading the Renaissance (Routledge**

**Revivals)** Jonathan Hart, 2016-05-05 Reading the Renaissance first published in 1996 is a collection of essays discussing the literature drama poetics and culture of the Renaissance period This book is ideal for students of literature and theatre studies

**Reading the Qur'an in Latin Christendom, 1140-1560** Thomas E. Burman, 2011-06-03 Selected by Choice magazine as an Outstanding Academic Title Most of what we know about attitudes toward Islam in the medieval and early modern West has been based on polemical treatises against Islam written by Christian scholars preoccupied with defending

their own faith and attacking the doctrines of others Christian readings of the Qur'an have in consequence typically been depicted as tedious and one dimensional exercises in anti Islamic hostility In *Reading the Qur'an in Latin Christendom 1140-1560* Thomas E Burman looks instead to a different set of sources the Latin translations of the Qur'an made by European scholars and the manuscripts and early printed books in which these translations circulated Using these largely unexplored materials Burman argues that the reading of the Qur'an in Western Europe was much more complex While their reading efforts were certainly often focused on attacking Islam scholars of the period turned out to be equally interested in a whole range of grammatical lexical and interpretive problems presented by the text Indeed these two approaches were interconnected attacking the Qur'an often required sophisticated explorations of difficult Arabic grammatical problems Furthermore while most readers explicitly denounced the Qur'an as a fraud translations of the book are sometimes inserted into the standard manuscript format of Christian Bibles and other prestigious Latin texts small centered blocks of text surrounded by commentary or in manuscripts embellished with beautiful decorated initials and elegant calligraphy for the pleasure of wealthy collectors Addressing Christian Muslim relations generally as well as the histories of reading and the book Burman offers a much fuller picture of how Europeans read the sacred text of Islam than we have previously had

**Gabriel Harvey and the History of Reading** Anthony Grafton, Nicholas Popper, William H. Sherman, 2024-01-08 Few articles in the humanities have had the impact of Lisa Jardine and Anthony Grafton's seminal *Studied for Action* 1990 a study of the reading practices of Elizabethan polymath and prolific annotator Gabriel Harvey Their excavation of the setting methods and ambitions of Harvey's encounters with his books ignited the *History of Reading* an interdisciplinary field which quickly became one of the most exciting corners of the scholarly cosmos A generation inspired by the model of Harvey fanned out across the world's libraries and archives seeking to reveal the many creative unexpected and curious ways that individuals throughout history responded to texts and how these interpretations in turn illuminate past worlds Three decades on Harvey's example and Jardine's work remain central to cutting edge scholarship in the *History of Reading* By uniting *Studied for Action* with published and unpublished studies on Harvey by Jardine Grafton and the scholars they have influenced this collection provides a unique lens on the place of marginalia in textual intellectual and cultural history The chapters capture subsequent work on Harvey and map the fields opened by Jardine and Grafton's original article collectively offering a posthumous tribute to Lisa Jardine and an authoritative overview of the *History of Reading*

**Rereading Aristotle's Rhetoric** Alan G. Gross, Arthur E. Walzer, 2008-02-20 In this collection edited by Alan G. Gross and Arthur E. Walzer scholars in communication rhetoric and composition and philosophy seek to reread Aristotle's *Rhetoric* from a purely rhetorical perspective So important do these contributors find the *Rhetoric* in fact that a core tenet in this book is that all subsequent rhetorical theory is but a series of responses to issues raised by the central work The essays reflect on questions basic to rhetoric as a humanistic discipline Some explore the ways in which the *Rhetoric* explicates the nature of the art of

rhetoric noting that on this issue the tensions within the Rhetoric often provide a direct passageway into our own conflicts

**Reading Augustine in the Reformation** Arnoud S. Q. Visser, 2011-06-09 The arrival of the printing press Humanist scholarship and editorial guidance Augustine after Trent How to find the right argument bibliographies and indexes Customizing authority anthologies and epitomes How readers read their Augustines Patristics and public debate

Petrarch's Humanism and the Care of the Self Gur Zak, 2010-05-17 In this book Gur Zak examines two central issues in Petrarch's works his humanist philosophy and his concept of the self Epistolary Community in Print, 1580-1664 Diana G. Barnes, 2016-05-13 Epistolary Community in Print contends that the printed letter is an inherently sociable genre ideally suited to the theorisation of community in early modern England In manual prose or poetic form printed letter collections make private matters public and in so doing reveal first how tenuous is the divide between these two realms in the early modern period and second how each collection helps to constitute particular communities of readers Consequently as Epistolary Community details epistolary visions of community were gendered This book provides a genealogy of epistolary discourse beginning with an introductory discussion of Gabriel Harvey and Edmund Spenser's Wise and Wittie Letters 1580 and opening into chapters on six printed letter collections generated at times of political change Among the authors whose letters are examined are Angel Day Michael Drayton Jacques du Bosque and Margaret Cavendish Epistolary Community identifies broad patterns that were taking shape and constantly morphing in English printed letters from 1580 to 1664 and then considers how the six examples of printed letters selected for discussion manipulate this generic tradition to articulate ideas of community under specific historical and political circumstances This study makes a substantial contribution to the rapidly growing field of early modern letters and demonstrates how the field impacts our understanding of political discourses in circulation between 1580 and 1664 early modern women's writing print culture and rhetoric *The Cambridge Companion to Petrarch* Albert Russell Ascoli, 2015-11-24 Petrarch Francesco Petrarca 1304-74 best known for his influential collection of Italian lyric poetry dedicated to his beloved Laura was also a remarkable classical scholar a deeply religious thinker and a philosopher of secular ethics In this wide ranging study chapters by leading scholars view Petrarch's life through his works from the epic *Africa* to the Letter to Posterity from the *Canzoniere* to the vernacular epic *Triumphus* Petrarch is revealed as the heir to the converging influences of classical cultural and medieval Christianity but also to his great vernacular precursor Dante and his friend collaborator and sly critic Boccaccio Particular attention is given to Petrarch's profound influence on the Humanist movement and on the courtly cult of vernacular love poetry while raising important questions as to the validity of the distinction between medieval and modern and what is lost in attempting to classify this elusive figure Reading Chaucer in Time Kara Gaston, 2020-02-27 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and

philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism Reading for form can mean reading for formation Understanding processes through which a text was created can help us in characterizing its form But what is involved in bringing a diachronic process to bear upon a synchronic work When does literary formation begin and end When does form happen These questions emerge with urgency in the interactions between English poet Geoffrey Chaucer and Italian trecento authors Dante Alighieri Giovanni Boccaccio and Francis Petrarch In fourteenth century Italy new ways were emerging of configuring the relation between author and reader Previously medieval reading was often oriented around the significance of the text to the individual reader In Italy however reading was beginning to be understood as a way of getting back to a work s initial formation This book tracks how concepts of reading developed within Italian texts including Dante s *Vita nova* Boccaccio s *Filostrato* and *Teseida* and Petrarch s *Seniles* impress themselves upon Chaucer s *Troilus and Criseyde* and *Canterbury Tales* It argues that Chaucer s poetry reveals the implications of reading for formation above all that it both depends upon and effaces the historical perspective and temporal experience of the individual reader Problems raised within Chaucer s poetry thus inform this book s broader methodological argument that there is no one moment at which the formation of Chaucer s poetry ends rather its form emerges in and through process of reading within time

**Re-membering Masculinity in Early Modern Florence** Allison Levy, 2017-03-02 From Pliny to Petrarch to Pope Hennessy and beyond many have understood the obvious connection between portraiture and commemorative practice This book expands and nuances our understanding of Renaissance portraiture the author shows it to be complexly generated within a discourse of male anxiety and pre mortuary mourning She argues that portraiture could defer memory loss or at the very least pictorially console the subject against his own potentially unmourned death This book recognizes a socio cultural anxiety the fear not merely of death but also of being forgotten and identifies a set of pictorial literary and theoretical strategies consequently formulated to ensure memory To explore this phenomenon this interdisciplinary but fundamentally art historical project merges early modern visual culture and critical theories of the body The author examines an extensive selection of fifteenth and sixteenth century male and female portraits primarily associated with the Medici family circle and court in and against both historical writings and contemporary discourses including literary and cultural theory psychoanalysis feminism and gender studies and critical theories of race and disability *Re membering Masculinity* generates new ideas about both male and female portraiture in early modern Florence raises even more questions about the experiences and representations of widowhood and mourning and re configures our understanding of masculinity from the

early modern male body to Renaissance Man to postmodern manhood

**Speech, Print and Decorum in Britain, 1600--1750** Elspeth Jajdelska,2016-03-10 Filling an important gap in the history of print and reading Elspeth Jajdelska offers a new account of the changing relationship between speech and writing from 1600 to 1750 Jajdelska draws on anthropological findings to shed light on the different ways that speech was understood to relate to writing across the period bringing together status and speech literary and verbal decorum readership the material text and performance Jajdelska's ambitious array of sources includes letters diaries paratexts and genres from cookery books to philosophical discourses She looks at authors ranging from John Donne to Jonathan Swift alongside the writings of anonymous merchants apothecaries and romance authors Jajdelska argues that Renaissance readers were likely to approach written and printed documents less as utterances in their own right and more as representations of past speech or as scripts for future speech In the latter part of the seventeenth century however some readers were treating books as proxies for the author's speech rather than as representations of it These adjustments in the way speech and print were understood had implications for changes in decorum as the inhibitions placed on lower ranking authors in the Renaissance gave way to increasingly open social networks at the start of the eighteenth century As a result authors from the lower ranks

could now publish on topics formerly reserved for the more privileged While this apparently egalitarian development did not result in imagined communities that transcended class readers of all ranks did encounter new models of reading and writing and were empowered to engage legitimately in the gentlemanly criticism that had once been the reserve of the cultural elites Shortlisted for the European Society for the Study of English ESSE book prize 2018     The Turn of the Soul Lieke Stelling,Harald Hendrix,Todd Richardson,2012-01-05 Focusing on conversion as one of early modern Europe s most pressing issues the present book offers a comprehensive reading of artistic and literary ways in which spiritual transformations and exchanges of religious identities were given meaning     **The Birth of the Past** Zachary S. Schiffman,2011-11 Today we automatically distinguish between past and present labelling things taken out of context as anachronisms The author shows how this tendency did not always exist and how the past as such was born of the perceived difference between past and present He takes readers on a grand tour of historical thinking from antiquity to modernity     *Re-Reading Mary Wroth* K. Larson,N. Miller,2015-02-04 Approaching the writings of Mary Wroth through a fresh 21st century lens this volume accounts for and re invents the literary scholarship of one of the first canonized women writers of the English Renaissance Essays present different practices that emerge around reading Wroth including editing curating and digital reproduction
