M. Govaerts, 2007-12-12 Lange tijd beperkte het onderzoek naar hechtingsprocesne zich tot de relatie tussen een kind en zijn moeder Waarbij de aandacht vooral ging naar de intrapsychische belevingswereld van onveilig gehechte kinderen en

volwassenen Pas in later onderzoek was er veel meer oog voor de impact van gezinsfactoren die het hechtingsgebeuren be-  
 nvloeden Toch bleven tot voor enkele jaren de hechtingstheorie en de systeemtheorie twee gescheiden werelden Onder  
 impuls van een groeiende groep van klinici worden verworvenheden van de hechtingstheorie geïntegreerd binnen een  
 systeemtherapeutische denkmodel Deze systeemtherapeuten breiden het concept van gehechtheid uit naar het  
 gezinssysteem als geheel Hechtingsproblemen in gezinnen heeft oog voor vormen van implementatie van hechtingsdynamiek  
 binnen een systemische visie op gezinnen Daarnaast wordt aandacht besteed aan gehechtheid binnen veilige en onveilige  
 gezinssituaties De auteur benadert de hechtingstheorie niet vanuit de gedachte dat kinderen slachtoffers kunnen zijn van een  
 onveilige omgeving Hij gaat ervan uit dat kinderen met hun eigen temperament en karakter actief deelnemen aan de vorming  
 van hechtingspatronen binnen het gezin Dit boek is bestemd voor hulpverleners die de hechtingstheorie op een kritische en  
 gedifferentieerde manier willen toepassen in counseling en psychotherapie Door de gedegen samenvattingen van belangrijke  
 theorieën uit het werkveld is het tevens zeer geschikt als leerboek in de opleiding tot behandelaar *Trauma* Patrick  
 Bracken, 2002-04-29 This volume argues that there are serious problems inherent in current conceptualisations of how people  
 react to trauma and consequently in many of the therapeutic responses that have been developed *Assisted Human*

 woman may carry a foetus derived from gametes neither or only one of which came from her or her partner or she may carry  
 a foetus created using in vitro fertilisation IVF with the purpose of handing it to two other parents one neither or both of  
 whom may be genetically related to the prospective child Parents may consist of single sex couples only one of them  
 genetically related to the child the prospective mother may be past her menopause and genetic parenthood after death is  
 now achievable In a world increasingly reliant on medical science how can the argument that equates traditional with natural  
 and novel with unnatural unethical be justified Should there be legislation which is notoriously slow to change in a field  
 driven by dazzling new possibilities at ever faster rate particularly when restrictions differ from country to country so that  
 those who can afford it travel elsewhere for their treatment of choice Whose rights are paramount the adults hoping to build  
 a family or the prospective child ren's future well being On what basis can apparently competing rights be regulated or  
 adjudicated and how and to what extent can these be enforced in practice *The Paradox of Countertransference* Carol  
 Holmes, 2017-03-04 In this innovative text Carol Holmes provides students and professional psychotherapists with an
