Paul's Understanding of the Church's Mission Robert L. Plummer, 2006-06-01 Did Paul expect his churches to engage in evangelistic activity which mirrored his own Or have modern readers of the Bible wrongly projected Paul's apostolic passion upon the communities that he founded Such is the charge of several recent authors and if their thesis is correct nothing could have larger implications for how the modern church engages in mission In this book Robert L Plummer engages in a careful study of Paul's letters to determine if the apostle expected the communities to which he wrote to engage in outward directed missionary activity Plummer helpfully summarizes the discussion to date on the debated issue judiciously handles contested texts and provides a way forward in addressing this critical question While admitting that Paul rarely explicitly commands the communities he founded to evangelize Plummer amasses significant incidental data to provide a convincing case that Paul did indeed expect his churches to engage in outward directed missionary activity Throughout the study Plummer progressively builds a theological basis for the church's mission that is both compelling and distinctively Pauline

Engaging Neighbors and

Nations Tim Silberman, 2024-03-27 Evangelical churches are widely known for their commitment to mission locally and to the ends of the earth. However, in the last century, there have been profound theological and sociological changes that have impacted mission practice. Church and mission leaders have encouraged Christians to respond to the need for mission locally, especially as church decline accelerates in much of the Western world. Yet others are concerned that global mission involvement is being neglected in many local churches. This study explores the factors influencing local church participation in mission both locally and around the world. Through an in-depth analysis of the practices and perspectives among evangelical churches in Australia, the author identifies a range of theological, missiological, and organizational influences on mission practice. Though beliefs about the church, the world, and mission are important, understanding organizational principles, social capital, and the power of relational networks provides invaluable insights into church mission practice. This book is for those who long to see local churches committed to engaging both their neighbors and the nations in mission, growing our understanding of how to encourage helpful church practices for the sake of Christ.

Diagnosing the Rural Church, a Study in Method Charles Luther Fry, 1924 **The Study of Evangelism** Paul W. Chilcote, Lacey C. Warner, 2008-02-13 Christians and communities of faith today are rediscovering evangelism as an essential aspect of the church's mission. Many of the resulting books in the marketplace, however, have a hands-on orientation, often lacking serious theological engagement and reflection. Bucking that trend, *The Study of Evangelism* offers thirty groundbreaking essays that plumb the depths of the biblical and theological heritage of the church with reference to evangelistic practice. Helpfully organized into six categories, these broad, diverse writings lay a solid scholarly foundation for meaningful dialogue about the church's practice of evangelism.

Transforming Missiology Fohle Lygunda li-M, 2018-02-28 Dr. Fohle Lygunda li-M provides a thorough analysis of missiological teaching in theological institutions in Africa, with special reference to ten Christian universities in the Democratic Republic of the Congo. His detailed examination of current teaching of mission theory and practice builds a solid foundation for the articulation of a new paradigm of missiological education. In this book, Dr. Lygunda presents the case for a transformed approach to raising up seminarians who are equipped to lead indigenous missional churches that will fulfil the Great Commission in their own communities and beyond their national
