beloved of mainstream economic theory and measure units of health care or education in the same way that they would

mathematical methods and that to try to do so is overly simplistic Fine assesses the impact of Social Capital across the social

Yuval-Davis, Georgie Wemyss, Kathryn Cassidy, 2019-06-10 Controlling national borders has once again become a key concern of contemporary states and a highly contentious issue in social and political life But controlling borders is about much more than patrolling territorial boundaries at the edges of states it now comprises a multitude of practices that take place at different levels some at the edges of states and some in the local contexts of everyday life in workplaces in hospitals in schools which taken together construct reproduce and contest borders and the rights and obligations associated with belonging to a nation state This book is a systematic exploration of the practices and processes that now define state bordering and the role it plays in national and global governance Based on original research it goes well beyond traditional approaches to the study of migration and racism showing how these processes affect all members of society not just the marginalized others The uncertainties arising from these processes mean that more and more people find themselves living in grey zones excluded from any form of protection and often denied basic human rights [Bowker's Law Books and Serials in Print](#), 1986

*Me, Me, Me* Jon Lawrence, 2019-09-01 Many commentators tell us that in today's world everyday life has become selfish and atomised that individuals live only to consume But are they wrong In *Me Me Me* Jon Lawrence re tells the story of England since the Second World War through the eyes of ordinary people including his own parents to argue that in fact friendship family and place all remain central to our daily lives and whilst community has changed it is far from dead He shows how in the years after the Second World War people came increasingly to question custom and tradition as the pressure to conform to societal standards became intolerable And as soon as they could millions escaped the closed face to face communities of Victorian Britain where everyone knew your business But this was not a rejection of community per se but an attempt to find another new way of living which was better suited to the modern world Community has become personal and voluntary based on genuine affection rather than proximity or need We have never been better connected or able to sustain the relationships that matter to us *Me Me Me* makes that case that it's time we valued and nurtured these new groups rather than lamenting the loss of more real forms of community it is all too easy to hold on to a nostalgic view of the past
