Research Into Marriage:

International bibliography of research in marriage and the family Joan Aldous, 1967 **Research Into Marriage** Penny Jordan, 1986 **Handbook of Marriage and the Family** Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p Handbook of Marriage and the Family Gary W. Peterson, Kevin R. Bush, 2012-09-14 The third edition of *Handbook of Marriage and the Family* describes analyzes synthesizes and critiques the current research and theory about family relationships family structural variations and the role of families in society This updated *Handbook* provides the most comprehensive state of the art assessment of the existing knowledge of family life with particular attention to variations due to gender socioeconomic race ethnic cultural and life style diversity The *Handbook* also aims to provide the best synthesis of our existing scholarship on families that will be a primary source for scholars and professionals but also serve as the primary graduate text for graduate courses on family relationships and the roles of families in society In addition the involvement of chapter authors from a variety of fields including family psychology family sociology child development family studies public health and family therapy gives the *Handbook* a multidisciplinary and interdisciplinary framework **The Future of Marriage** Jessie Bernard, 1982-01-01 Dr Bernard examines recent research findings on the present nature of the marriage commitment and predicts a less restrictive role for women in future marriages **The Mathematics of Marriage** John M. Gottman, James D. Murray, Catherine C. Swanson, Rebecca Tyson, Kristin R. Swanson, 2005-01-14 Divorce rates are at an all time high But without a theoretical understanding of the processes related to marital stability and dissolution it is difficult to design and evaluate new marriage interventions The *Mathematics of Marriage* provides the foundation for a scientific theory of marital relations The book does not rely on metaphors but develops and applies a mathematical model using difference equations

The work is the fulfillment of the goal to build a mathematical framework for the general system theory of families first suggested by Ludwig Von Bertalanffy in the 1960s. The book also presents a complete introduction to the mathematics involved in theory building and testing and details the development of experiments and models. In one marriage experiment for example the authors explored the effects of lowering or raising a couple's heart rates. Armed with their mathematical model they were able to do real experiments to determine which processes were affected by their interventions. Applying ideas such as phase space nullclines, influence functions, inertia, and uninfluenced and influenced stable steady states attractors, the authors show how other researchers can use the methods to weigh their own data with positive and negative weights. While the focus is on modeling marriage, the techniques can be applied to other types of psychological phenomena as well.

Research Into Marriage (Mills & Boon Modern) Penny Jordan, 2013-06-21 Penny Jordan needs no introduction as arguably the most recognisable name writing for Mills Boon. We have celebrated her wonderful writing with a special collection many of which for the first time in eBook format and all available right now.

Transnational Marriage Katharine Charsley, 2013-05-02 Marriages spanning borders are not a new phenomenon but occur with increasing frequency and contribute substantially to international mobility and transnational engagement. Perhaps because such migration has often been treated as secondary to labor migration, marriage has until recent years been a neglected field in migration studies. In contemporary Europe transnational marriages have become an increasingly focal issue for immigration regimes for whom these border crossing family formations represent a significant challenge. This timely volume brings together work from Europe and beyond addressing the issue of transnational marriage from a range of perspectives including legal frameworks, processes of integration and gendered dynamics, presenting substantial new empirical material and taking a fresh look at key concepts in this area.

Handbook of Marriage and the Family Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add. It is therefore limited to two relevant but not intrinsically related points: vis a vis research on marriage and the family in the interval since the first Handbook. Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook. In the late 1930s Willard Waller noted: Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing

whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4

Marriage Migration, Family and Citizenship in Asia Tuen Yi Chiu, Brenda S.A. Yeoh, 2023-06-06 Amidst the increasing global trend of cross border marriage migration this book offers timely theoretical and empirical insights into contemporary debates about migration and citizenship Extant scholarship on marriage migration and citizenship have concentrated on East West inter cultural marriages and tended to approach citizenship as an individual centred concept linked to the nation state thus fading the family into the background Focusing on cross border marriages within Asia a region where collectivist and familistic values are still prevalent this book points to the importance of going beyond the state individual nexus to conceptualise and foreground the family as a strategic site where citizenship is mediated negotiated and experienced Through six critical and in depth case studies on cross border marriages between East Southeast and South Asia this book reveals how nation states mobilize patriarchal notions of the family for its citizenship project how formal frameworks of citizenship structure the trajectory and circumstances of cross border families how the repercussions of marriage migrants citizenship are experienced and negotiated across generations and how the tensions between the individual the family and the state are produced along gender class race ethnic religious cultural geographical and generational boundaries Collectively this book calls for a rethinking of citizenship from an individual centred proposition to a family level concept Its wealth of case studies and examples make it an essential resource for students academics and researchers of Sociology Geography Anthropology Politics International Development Studies and Asian Studies The chapters in this book were originally published as a special issue of Citizenship Studies

Irma Riyani,2020-11-26 This book explores the intimate marital relationships of Indonesian Muslim married women As well as describing and analysing their sexual relationships the book also investigates how Islam influences discourses of sexuality in Indonesia and in particular how Islamic teachings affect Muslim married women s perceptions and behaviour in their sexual relationships with their husbands Based on extensive original research the book reveals that Muslim women perceive marriage as a social cultural and religious obligation that they need to fulfil that they realise that finding an ideal marriage partner is complicated with some having the opportunity for a long courtship and others barely knowing their partner prior to marriage and that there is a strong tendency with some exceptions for women to consider a sexual relationship in marriage as their duty and their husband s right Religious and cultural discourses justify and support this view and consider refusal a sin dosa or taboo pamali Both discourses emphasise obedience towards husbands in marriage **Encyclopedia of Human Development**
