Beyond Bullying Simone Paul, 2014-04-24. *Beyond Bullying* offers guidance and advice on conducting practitioner research into bullying and provides resources to assist practitioners and researchers in doing so. It draws on a case study of almost 1,000 secondary school students over a period of 5 academic years to explore student perception of traditional bullying and cyber bullying and how recommended approaches to bullying research can be applied to practice. The book provides an overview of bullying and cyber bullying literature considering recent research in the field, how this was conducted, and what the findings were. In addition, the case study illustrates how a positive anti-bullying school ethos can be established through practitioner research. Each chapter will impart both practical and academic knowledge, enabling the reader to conduct bullying research with secondary school students, complete research activities with bullies and victims, help students to raise awareness of bullying in school, inform school staff of problems occurring at class level. *Beyond Bullying* discusses how bullying research can be used to construct a model of bullying behaviour in the school environment and establishes suitable approaches to bullying intervention. The book will appeal to practitioner researchers in the area of school bullying as well as practitioners, researchers, and postgraduate students in the fields of education, sociology, and related disciplines.

Researching Educational Governance: Realizing UN 2030 Agenda and Beyond H.C. Pokhriyal, B.S. Nagi, M.C. Sati, Padmakar Mishra, R.P. Juyal and A.S. Khullar, 2023-01-01. Achieving the lofty Goal 4 of the UNSDGs, which aims to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all, will require the entire education system to be reconfigured, a fact aptly underlined in the National Education Policy 2020 of India. This would essentially entail putting in place a very effective educational governance devised and formulated on the basis of cutting-edge research outputs. Three Volumes of the present book is a modest yet maiden attempt to comprehend and unfold the blending of diverse research methodologies and amply demonstrate through empirical findings that innovative policies and interventions curated on the basis of this approach of research can ensure quality education. Governance emerges as one of the core areas for research. Therefore, Volume I provides a wide canvas of governance in general and educational governance in particular for research, along with a unique opportunity to elaborate both the theory and practice of Quantitative, Qualitative, and Participatory Methodologies in researching governance, that is the frontier challenge looking for suitable answers. Volume II uniquely comprehends multiple aspects of quality in dynamic and wider perspectives as perceived by the primary stakeholders, including community. Refreshing insight into the quality perspectives of educational governance will facilitate the researchers to explore innovative interventions in respective areas of human development. Community is the third constituent of governance, along with the

state and the market Therefore Volume III explores a futuristic vision of community governance leading to quality education Also an attempt has been made to critically appraise the provisioning of community governance including the local self governments as well as free and compulsory elementary education The Book is a live comprehension of the conceptual framework of research and methods along with handling of research problems at the ground It is like explaining how to by giving suitable case studies conducted by the authors on educational governance It is hoped that the three Volumes will be an exciting learning experience that would enable us to address researching challenges over which the public policy makers researchers development administrators planners and students may build their concepts logical structures and planned interventions facilitating the achievement of effective educational governance at micro level ensuring quality education in the coming decades

Eurocentric emphasis in Part I *Research on Evaluation* Paul R. Brandon, 2016-01-11 This issue broadens the field's understanding of Research on Evaluation RoE in practice with a focus on empirical RoE. Considering the full collection of RoE studies, it defines RoE as systematic empirical inquiry resulting in original findings or in reexaminations of existing data about the practice methods or profession of program evaluation. RoE inquiries address the inputs into evaluations, the contexts within which evaluations are conducted, the full range of methods and activities of evaluations, evaluation's proximal or distal effects, or the professional issues that evaluators encounter. The inquiries include case studies, reflective narratives, studies about evaluation methods, literature reviews, oral histories, bibliometric studies, meta-evaluations, experiments, longitudinal studies, simulations, and time series studies. This is the 148th issue in the New Directions for Evaluation series from Jossey-Bass. It is an official publication of the American Evaluation Association.

Beyond Methodology Mary Margaret Fonow, 1991-04-22 A stellar cast of authors discuss and describe feminist research reflecting the state of feminist discourse in sociology; its high quality makes it a must in sociology and women's studies collections. Choice empowering thought provoking Gender Society a valuable addition to the literature on feminism and method that reveals important discrepancies and shared themes in its chapters. Contemporary Sociology In this interdisciplinary collection of articles by internationally recognized feminist scholars, the authors examine efforts to apply feminist principles to the research act. Each stage of the research process is examined from sampling techniques to mass media packaging and marketing of feminist research. The essays address both abstract philosophical questions and the more practical ways theories are translated into feminist inquiry.
