**The Heart of Pastoral Counseling** Richard L Dayringer, 2013-04-03 The relationship between pastor and parishioner is the essence of pastoral counseling a simple truth with profound implications Dr Richard Dayringer explores these implications in The Heart of Pastoral Counseling Healing Through Relationship Revised Edition to help pastoral counselors understand how to use the relationship to bring about the desired ends in the therapeutic process Drawing on research from the disciplines of psychiatry psychology marriage counseling family therapy and pastoral counseling this book lays the foundation for utilizing the pastoral counseling relationship to bring about positive change as it explores topics such as observation listening communication handling transference and termination of therapy Because the interpersonal relationship is the vehicle of therapy it is critical that pastoral counselors understand the psychological assumptions that play a large part in the characteristics of relationships as well as the factors requiring attention in order to establish a secure counseling relationship The Heart of Pastoral Counseling will help you attain this understanding as you also improve your knowledge on how pastoral relationships may be applied outside the therapeutic hour in general pastoral work eclectic methods for clarifying feelings developing intellectual insight interpreting questioning and assigning certain behavior employing the problem oriented record in pastoral counseling

distinguishing relationship from transference and countertransference the unique problem that counseling acquaintances presents personality traits that attract people to the minister pastoral counselor counselor attitudes that foster relationship how a client's view of the counselor has an impact on the effectiveness of therapy The Heart of Pastoral Counseling brings a solid base of research to pastoral counselors seminary students graduate students in counseling professors of counseling and specialists in pastoral psychotherapy so that you might better understand the nature of pastoral counseling relationships and how they are helpful and constructive in people's lives You will be challenged to rethink your role in initiating and carrying out therapeutic change and realize why you should build your ministry on relationships rather than on friendships

**Abstracts of Research in Pastoral Care and Counseling**, 1997 Moving Beyond Individualism in Pastoral Care and Counseling Barbara J McClure, 2011-10-27 Despite astute critiques and available resources for alternative modes of thinking and practicing individualism continues to be a dominating and constraining ideology in the field of pastoral psychotherapy and counseling Philip Rieff was one of the first to highlight the negative implications of individualism in psychotherapeutic theories and practices As heirs and often enthusiasts of the Freudian tradition of which Rieff and others are critical pastoral theologians have felt the sting of his charge and yet the empirical research that McClure presents shows that pastoral counseling practitioners resist change Their attempts to overcome an individualistic perspective have been limited and ineffective because individualism is embedded in the field's dominant theological and theoretical resources practices and organizational arrangements Only a radical reappraisal of these will make possible pastoral counseling practices in a post individualistic mode McClure proposes several critical transformations broadening and deepening the operative theologies used to guide the healing practice expanding the role of the pastoral counselor reimagining the operative anthropology reclaiming sin and judgment nuancing the particular against the individual rethinking the ideal outcome of the practices and reimagining the organizational structures that support the practices Only this level of revisioning will enable this ministry of the church to move beyond its individualistic limitations and offer healing in more complex effective and socially adequate ways **A Research Primer for Pastoral Care and Counseling** Larry VandeCreek, American Association of Pastoral Counselors, Association for Clinical Pastoral Education, 1988

**Spiritual Needs & Pastoral Services** Larry VandeCreek, 2010-11-01 What do spiritual needs health care pastoral services religious resources statistics and quantitative research methods have in common Traditional literature in the pastoral care counseling and education movement probably would say Not a great deal Indeed the pastoral arts and sciences have tended to be high on art especially praxis but relatively low on science especially quantitative research That's too bad claims Dr Larry VandeCreek who has gathered together a sample of previously published but widely scattered research reports which he hopes will inform hospital chaplains congregational pastors hospital personnel and theological students on ways in which knowledge gained from carefully designed research can enhance their project of care Selecting only quantitative research reports the volume

explores such topics as the role of spirituality in terminally ill hospitalized patients the demonstrated helpfulness of prayer in health crisis the possible impact of hope among women with breast cancer the role and impact of chaplaincy services in general hospitals as well as other studies demonstrating a variety of relationships between spirituality and health care

current transitions in the field of care will make this book a classic Jeanne Stevenson Moessner Columbia Theological Seminary Decatur and the Georgia Association for Pastoral Care Out of the abundance of his many years as a pastoral caregiver and theologian Gerkin introduces readers to the history theory and practice of pastoral care This book represents the best of Protestant liberal pastoral theology and fills a long standing gap The narrative hermeneutical paradigm which Gerkin offers holds and works with many of the complexities of pastoral care in postmodern times Carrie Doehring School of Theology Boston University Gerkin s Introduction to Pastoral Care breaks new ground for an introductory text in its emphasis on care as the central metaphor of life in the Christian community Thus the scope is much larger than the more usual focus only on individual and family needs He is deeply sensitive to both individual and community dimensions through his quadrilateral nexus of tradition individuals and family community and cultural context James N Lapsley Princeton Theological Seminary The formula appears simple take the very best of pastoral care theory and research of the past build upon it the best of contemporary literature and practice in the pastoral arts and sciences season it with rich experiences of a pioneer in the pastoral care counseling and education movement and you have a solid bridge to the 21st century Gerkin has proven the formula Gerkin articulates a pastoral care for the 21st century Orlo C Strunk Jr Pastoral Psychotherapist at The Coastal Samaritan Center Myrtle Beach South Carolina

**Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific** Larry VandeCreek, 2003 Does the scientific process belong in pastoral counseling Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No examines the widespread ambivalence among pastoral caregivers and educators over the growing inclusion of science in pastoral care and counseling methodologies Twenty three seasoned professionals in the field give candid and sometimes emotional accounts of their interest in and reservations about the role scientific research plays in their profession Some authors look at the issue from a historical perspective others voice additional concerns A few make concrete proposals on how chaplaincy can become more scientific The result is a unique insight into the relationship between the secular and the religious The question of whether science belongs in pastoral care and counseling is moot pastoral care already makes extensive use of psychological testing and psychotherapeutic skills all products of scientific thinking But as technology becomes more dominant and health care delivery reflects a more corporate perspective pastoral caregivers and educators are divided on whether the changes represent the significant opportunity to improve a ministry or the surrender of the ministry's very essence The essays collected in Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No go a step farther breaking down the issue of faith versus science into more specific questions for pastoral caregivers such as Can what you do be measured Do you have an obligation to embrace the challenge of change Is

becoming more scientific a necessity for staying in touch with your health care peers How cost effective is the pastoral care you provide if it doesn't include the scientific process Could a reluctance to incorporate science into your counseling cost you your job Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific Yes and No presents thoughtful and thought provoking debate that is a must read for all pastoral caregivers and educators Reframing Donald Capps, 1990-01-01 I have read Professor Capps's Reframing with great interest Since my colleagues and I have long thought of our concepts and practices as broad and general as potentially applicable beyond our clinical sphere of psychotherapy it is very satisfying to see this solid and skillful extension of our work into the very wide and important field of pastoral care John H Weakland Brief Therapy Center Mental Research Institute Palo Alto California **Religion and Mental Health**, 1980
