Concordance of the Ritual of the Bacabs Michael G. Owen, 1970 **Ritual of the Bacabs** , 1965 In the Language of Kings Miguel Leon-Portilla, 2002-09 The first anthology in any language to represent the full trajectory of this remarkable literature **A History of Medicine: Primitive and ancient medicine** Plinio Prioreschi, 1996 *The Oxford Handbook of Ritual Language* David Tavárez, 2024-11-04 This volume brings together representative case studies and surveys that explore research into ritual language covering theoretical and methodological approaches that reflect traditional inquiries and more recent studies This recent literature contends that ritual language hinges on the construction of authoritative ontological models about the cosmos and its inhabitants Ritual speech also orchestrates performances that articulate representations of collective identities and rests on the diversity of hierarchical forms of authoritative knowledge displayed in both oblique and direct terms Moreover performances texts and narratives associated with ritual practices are closely entwined with historical accounts that navigate current memories recast in a diversity of ways about ancestral beings and distant or recent pasts or

delimit a terrain in which dialectical relationships with colonial hegemony and Christian indoctrination emerge to transform the social order. Ritual narrative often offers in its structure and delivery momentous representation of the social order, social institutions, social difference and collective identities and may also be constituted by claims about relations among species, non-human actors and material culture. The Oxford Handbook of Ritual Language addresses foundational questions regarding the scope, structuring, use and consequences of ritual language. The chapters examine the relationship between speakers' consciousness and verbal ritual performances and between ritual language hegemony, collective authority and the social world. As the study of ritual speech hinges on extensive analyses of linguistic choices and styles, the contributors draw on data from a wide range of language groups and societies in the Americas, the Middle East, the Pacific, South Asia and the Indian Ocean.

Empires of the Maya Jill Rubalcaba, 2009. Long before European boats reached the shores of the Americas, sophisticated civilizations had already developed throughout the continent. The empire of the Maya, located in modern Mexico and Central America, influenced civilization there for centuries. The ancient Maya had fully developed the idea of the calendar, detailed a writing system, pioneered new ideas in agriculture and built towering palaces and temples that still stand today. Empire of the Ancient Maya gives a brief summary of the history of the empire, placing it within the context of its time period and geographical location, and then explores the evolution of Maya civilization from its origin through the classic period to the Spanish conquest. Delving into daily life, the book includes Maya achievements in mathematics, astronomy, technology, political organization, commerce, architecture and the arts.

Ritual in Human Evolution and Religion Matt J. Rossano, 2020-10-04. This book explores the role of ritual in social life, human evolution and religion. It explains the functions and purpose of varied rituals across the world by arguing they are mechanisms of resource management, providing a descriptive tool for understanding rituals and generating predictions about ritual survival. By showing how rituals have resulted from the need to cultivate social resources necessary to sustain cooperative groups, Rossano presents a unique examination of the function of rituals and how they cultivate, mobilize and direct psychological resources. Rossano examines rituals from a diverse range of historical contexts, including the Greco-Romans, Soviet Russians and those in crisis. The book shows how rituals address societal and community problems by cultivating three psychological resources: commitment to communal values, goodwill both of humans and supernatural agents, and social support or social capital. Holding communities together in the face of threat, disaster or apathy is one of ritual's primary functions, and the author describes how our ancestors used ritual to become the highly social, interdependent primate that is *Homo sapiens*. Including examples from all over the world and providing detailed descriptions of both past and current ritual practices, this is fascinating reading for students and academics in psychology, sociology, religion, anthropology and sociology.

Recovering Lost Footprints, Volume 2 Arturo Arias, 2018-12-01 Analyzes contemporary Yucatecan and Chiapanecan Maya narratives *Recovering Lost Footprints Volume 2* is an in depth analysis of the sociohistorical conflict impacting Indigenous communities in Latin America Continuing the project he began in volume 1 Arturo Arias analyzes contemporary Peninsular and Chiapanecan Maya narratives He examines the works of Yucatecan writers Jorge Cocom Pech Javier G mez Navarrete Isaac Carrillo Can and Marisol Ceh Moo For Chiapas Arias looks at the works of Tseltal novelist Diego M ndez Guzm n Tsotsil short story writer Nicol s Huet Bautista and Tseltal narrative writer Jos as L pez G mez Arias problematizes the nature of Western modernity and the crisis of Western models of development in the present By way of his analysis he suggests that we are facing a historical impasse because we have neglected native knowledges that offer alternative codes of ethics and beingness that emerge from Indigenous cosmovisions The text skillfully contributes to and strengthens debates between US centered and Latin American cultural studies theorists as well as the hemispheric expansion of Native American and Indigenous Studies *Recovering Lost Footprints Volume 2* is inspired more by the past as it impinges upon a continuing constantly expanding present Arias s reading of Maya literatures forces us to reconsider the space time structure of Western thinking Indeed this book is intriguing precisely because it views literature from an Indigenous perspective evidencing how that social space is full of multiple contrasting experiences and historical processes By drawing attention to the articulation between the contemporary literary production and its relationship to Mayan cosmovision in a broad sense and focusing on the different traditions preserved through diverse languages and customs this rich comprehensive overview offers glimpses of a very different worldview Cynthia Margarita Tompkins author of *Affectual Erasure Representations of Indigenous Peoples in Argentine Cinema*

From Moon Goddesses to Virgins Pete Sigal, 2013-12-06 For the preconquest Maya sexuality was a

part of ritual discourse and performance and all sex acts were understood in terms of their power to create maintain and destroy society As postconquest Maya adapted to life under colonial rule they neither fully abandoned these views nor completely adopted the formulation of sexuality prescribed by Spanish Catholicism Instead they evolved hybridized notions of sexual desire represented in the figure of the Virgin Mary as a sexual goddess whose sex acts embodied both creative and destructive components This highly innovative book decodes the process through which this colonization of Yucatan Maya sexual desire occurred Pete Sigal frames the discussion around a series of texts including the Books of Chilam Balam and the Ritual of the Bacabs that were written by seventeenth and eighteenth century Maya nobles to elucidate the history religion and philosophy of the Yucatecan Maya communities Drawing on the insights of philology discourse analysis and deconstruction he analyzes the sexual fantasies fears and desires that are presented often unintentionally in the margins of these texts and shows how they illuminate issues of colonialism power ritual and gender

The Burden of the Ancients Allen J. Christenson, 2016-10-11 In Maya theology everything from humans and crops to gods and the world itself passes through endless cycles of birth maturation dissolution death and rebirth Traditional Maya believe that human beings perpetuate this cycle through ritual offerings and ceremonies that have the power to rebirth the world at critical points during the calendar year The most elaborate ceremonies take place during Semana Santa Holy Week the days preceding Easter on the Christian calendar during which traditionalist Maya replicate many of the most important world renewing rituals that their ancient ancestors practiced at the end of the calendar year in anticipation of the New Year's rites Marshaling a wealth of evidence from Pre Columbian texts early colonial Spanish writings and decades of fieldwork with present day Maya The Burden of the Ancients presents a masterfully detailed account of world renewing ceremonies that spans the Pre Columbian era through the crisis of the Conquest period and the subsequent colonial occupation all the way to the present Allen J Christenson focuses on Santiago Atitlán a Tzutujil Maya community in highland Guatemala and offers the first systematic analysis of how the Maya preserved important elements of their ancient world renewal ceremonies by adopting similar elements of Roman Catholic observances and infusing them with traditional Maya meanings His extensive description of Holy Week in Santiago Atitlán demonstrates that the community's contemporary ritual practices and mythic stories bear a remarkable resemblance to similar cultural entities from its Pre Columbian past
