American Landscapes Ann J. Abadie, J. Richard Gruber, 2023-10-20 American Landscapes Meditations on Art and Literature in a Changing World is a major contemporary survey of landscapes in art and literature of the United States especially the American South Inspired by William Dunlap s extraordinary landscape Meditations on the Origins of Agriculture in America and a collection of forty paintings and photographs by Southern artists this volume brings together artists authors and scholars to present new perspectives on art and literature both past and present The volume includes art and text from artists John Alexander Jason Bouldin William Dunlap Carlyle Wolfe Lee Ke Francis Linda Burgess Randy Hayes photographers Sally Mann Ed Croom and Huger Foote museum directors Betsy Bradley Jane Livingston and Julian Rankin and authors W Ralph Eubanks John Grisham J Richard Gruber Jessica B Harris Lisa Howorth Julia Reed Natasha Trethewey Curtis Wilkie Joseph M Pierce and Drew Gilpin Faust This diverse group explores major eras of American history portrayed in Dunlap s painting a landscape that evokes the displacement and genocide of Native Americans the enslavement of Africans the Civil War and William Faulkner s fiction They examine the history of landscape art in America connecting art with the works of major writers like William Faulkner Eudora Welty Natasha Trethewey and Jesmyn Ward In eighteen new essays written during the pandemic and since the events of January 6 2021 the essayists emphasize how the key issues Dunlap addressed in his 1987 artwork have become part of the national discourse and make his work even more vital today The American Roadside in Émigré Literature, Film, and Photography Elsa Court, 2020-01-06 The American Roadside in migr Literature Film and Photography 1955 1985 traces the origin of a postmodern iconography of mobile consumption equating roadside America with an authentic experience of the United States through the postwar road narrative a narrative which Elsa Court argues has been shaped by and through white male migr narratives of the American road in both literature and visual culture While stressing that these narratives are limited in their understanding of the processes of exclusion and unequal flux in experiences of modern automobility the book works through four case studies in the American works of European born authors Vladimir Nabokov Robert Frank Alfred Hitchcock and Wim Wenders to unveil an early phenomenology of the postwar American highway one that anticipates the works of late twentieth century spatial theorists Jean Baudrillard Michel Foucault and Marc Aug and sketches a postmodern aesthetic of western mobility and consumption that has become synonymous with contemporary America **See You in the U.S.A. , Ansel Adams and the American**

Landscape Jonathan Spaulding, 1995 Spaulding provides a full biography and a critical analysis of the work of the man who introduced the general public to photography as art *Encyclopedia of Twentieth-Century Photography, 3-Volume Set*

Lynne Warren, 2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included **Native American Landscapes** Cheryl Claassen, 2024-01-12 This collection of essays focuses on what Cheryl Claassen terms the multi vocal landscape the idea that different groups and genders look upon the same natural features but perceive different meanings and potential in what they are seeing Through ten chapters various contributors showcase the ways in which native peoples see and interact with the natural world At the heart of this book is the idea that Europeans associated nature with the feminine and saw the natural world as a passive frontier to be dominated Native Americans however looked at landscape differently They saw nature as a place in which to engage in complex negotiations between spirits and humans This approach to nature cemented a relationship to the land based more on a partnership rather than subjugation These essays deepen our understanding of the interaction between native people and the land While other books focus on the gendered gaze of European men upon the landscape this collection emphasizes that native men and native women looked upon natural formations and constructed landscapes differently from one another a difference in perception that is important for archaeologists and anthropologists to understand While there have been advances toward admitting this more complex view in the rest of the world Native American Landscapes is the first to focus on how native men and women viewed the world around them Native American Landscapes is organized by region taking readers across the country from the rock shelters of the Cumberland Plateau in the east to the Mojave Desert and the Mexican Gulf Coast then north to what is now British Columbia and farther west to Hawaii Readers of this collection through a study of creation myths vision quests fertility shrines and other ritualized uses of landscape will learn more about the land and about humans perception of our natural surroundings which forms the bedrock of our present relationship with the natural world CHERYL CLAASSEN is professor of anthropology at Appalachian State University She is the author or editor of six books on Native American prehistory including Feasting with Shellfish in the Southern Ohio Valley Shells Rituals and Beliefs in Archaic North America and Women in Prehistory North America and Mesoamerica *Public Culture* Marguerite S. Shaffer, 2012-04-17 In the United States today many people are as likely to identify themselves by their ethnicity or region as by their nationality In this country with

its diversity and inequalities can there be a shared public culture Is there an unbridgeable gap between cultural variety and civic unity or can public forms of expression provide an opportunity for Americans to come together as a people In Public Culture Diversity Democracy and Community in the United States an interdisciplinary group of scholars addresses these questions while considering the state of American public culture over the past one hundred years From medicine shows to the Internet from the Los Angeles Plaza to the Las Vegas Strip from the commemoration of the Oklahoma City bombing to television programming after 9 11 public sights and scenes provide ways to negotiate new forms of belonging in a diverse postmodern community By analyzing these cultural phenomena the essays in this volume reveal how mass media consumerism increased privatization of space and growing political polarization have transformed public culture and the very notion of the American public Focusing on four central themes public action public image public space and public identity and approaching shared culture from a range of disciplines including mass communication history sociology urban studies ethnic studies and cultural studies Public Culture offers refreshing perspectives on a subject of perennial significance

Constructing Image, Identity, and Place Alison K. Hoagland, Kenneth A. Breisch, 2003 Although vernacular architecture scholarship has expanded beyond its core fascination with common buildings and places its attention remains fixed on the social function of building Consistent with this expansion of interests Constructing Image Identity and Place includes essays on a wide variety of American building types and landscapes drawn from a broad geographic and chronological spectrum Subjects range from examinations of the houses hotels and churches of America's colonial and Republican elite to analyses of the humble cottages of Southern sharecroppers and mill workers Mississippi juke joints and the ephemeral rustic arbors and bowers erected by Civil War soldiers Other contributors examine or reexamine the form of early synagogues in Georgia colonial construction technologies in the Chesapeake the appropriation and use of storefront windows by San Francisco suffragists and the evolution of the modern factory tour Other decidedly twentieth century topics include the impact of the automobile on American building forms and landscapes including parkways drive in movie theaters and shopping malls Drawn from the Vernacular Architecture Forum conferences of 1998 and 1999 these seventeen essays represent the broad range of topics and methodologies current in the field today The volume will introduce newcomers to the breadth and depth of vernacular architecture while also bringing established scholars up to date on the field's continued growth and maturation The Editors Alison K Hoagland is associate professor of history and historic preservation at Michigan Technological University Kenneth A Breisch is director of Programs in Historic Preservation at the University of Southern California He is author of Henry Hobson Richardson and the Small Public Library in America The Contributors Shannon Bell Robert W Blythe Timothy Davis Stephanie Dyer Willie Graham Kathleen LaFrank William Littmann Carl Lounsbury Al Luckenbach Sherri M Marsh Maurie McInnis Steven H Moffson Jason D Moser Jennifer Nardone Martin C Perdue Mark Reinberger Andrew K Sandoval Strausz Jessica Sewell Donna Ware and Camille Wells The Embracing Highway: Exploring the Fascinating

World of Roadside Advertising Pasquale De Marco, 2025-03-10 In a world saturated with visual stimuli billboards stand as towering giants commanding attention and shaping our perception of the world around us This book delves into the captivating realm of roadside advertising in America unveiling the stories behind the iconic images that have captivated travelers and transformed the landscape Journey through the golden age of roadside advertising when larger than life billboards painted the nation's highways with vivid colors and bold messages Discover the pioneers who revolutionized the industry creating advertising campaigns that left an indelible mark on American culture Witness the battles fought over billboards as environmentalists and advocates for scenic beauty clashed with businesses and advertisers vying for dominance in a cluttered visual landscape Explore the billboard as a canvas for artistic expression where street artists and commercial designers have transformed these roadside behemoths into canvases for their creativity Delve into the psychology of billboard advertising uncovering the hidden messages and persuasive techniques that influence our consumer behavior Learn how billboards have shaped our sense of place identity and community becoming symbols of American values and aspirations Navigate the ever changing landscape of digital technology where billboards have evolved into interactive and dynamic displays blending seamlessly with the digital world Consider the future of billboards in an increasingly connected society where emerging technologies promise new possibilities for engagement and communication This book is a comprehensive exploration of the billboard's impact on American culture and society It is a journey through history art psychology and technology revealing the profound influence of roadside advertising on our visual landscape our consumer habits and our collective imagination Whether you're a marketing professional a design enthusiast a historian or simply someone curious about the world around you this book offers a fascinating and informative exploration of the billboard's enduring legacy in America If you like this book write a review The National Road Karl B. Thompson, 1996 From there two routes went west toward the Mississippi River one to East St Louis and the other to Alton Illinois Today the Road's path is followed for the most part by U S 40 and I 70 *Remembering Roadside America* John A. Jakle, Keith A. Sculle, 2011-09-30 The use of cars and trucks over the past century has remade American geography pushing big cities ever outward toward suburbanization spurring the growth of some small towns while hastening the decline of others and spawning a new kind of commercial landscape marked by gas stations drive in restaurants motels tourist attractions and countless other retail entities that express our national love affair with the open road By its very nature this landscape is ever changing indeed ephemeral What is new quickly becomes old and is soon forgotten In this absorbing book John Jakle and Keith Sculle ponder how Roadside America might be remembered especially since so little physical evidence of its earliest years survives In straightforward and lively prose supplemented by copious illustrations historic and modern photographs advertising postcards cartoons roadmaps they survey the ways in which automobility has transformed life in the United States Asking how we might best commemorate and preserve this part of our past which has been so vital

economically and politically so significant to the cultural aspirations of ordinary Americans yet so often ignored by scholars who dismiss it as kitsch they propose the development of an actual outdoor museum that would treat seriously the themes of our roadside history Certainly museums have been created for frontier pioneering the rise of commercial agriculture and the coming of water and steam powered industrialization and transportation especially the railroad Is now not the time the authors ask for a museum forcefully exploring the automobile s emergence and the changes it has brought to place and landscape Such a museum need not deny the nostalgic appeal of roadsides past but if done properly it could also tell us much about what the authors describe as the most important kind of place yet devised in the American experience John A Jakle is Emeritus Professor of Geography at the University of Illinois Urbana Champaign Keith A Sculle is the former head of research and education at the Illinois Historic Preservation Agency They have coauthored such books as *America s Main Street Hotels Transiency and Community in the Early Automobile Age* *Motoring The Highway Experience in America* *Fast Food Roadside Restaurants in the Automobile Age* and *The Gas Station in America* Routes, Roads and Landscapes Brita Brenna, Janike Kampevold Larsen, 2016-12-05 Routes and roads make their way into and across the landscape defining it as landscape and making it accessible for many kinds of uses and perceptions Bringing together outstanding scholars from cultural history geography philosophy and a host of other disciplines this collection examines the complex entanglement between routes and landscapes It traces the changing conceptions of the landscape from the Enlightenment to the present day looking at how movement has been facilitated imagined and represented and how such movement in turn has conditioned understandings of the landscape A particular focus is on the modern transportation landscape as it came into being with the canal the railway and the automobile These modes of transport have had a profound impact on the perception and conceptualization of the modern landscape a relationship investigated in detail by authors such as Gernot B hme Sarah Bonnemaïson Tim Cresswell Finola O Kane Charlotte Klonk Peter Merriman Christine Macy David Nye Vittoria Di Palma Charles Withers and Thomas Zeller The Image of the Road in Literature, Media, and Society Society for the Interdisciplinary Study of Social Imagery. Conference, 2005 **Lost Highways, Embodied Travels: The Road Movie in American Experimental Film and Video** Kornelia Boczkowska, 2023-02-06 Often identified as one of the most genuine and enduring American film genres the road movie has never been explored in the context of experimental filmmaking To fill this gap *Lost Highways Embodied Travels* provides the first book length study of over eighty unique and often obscure films and videos and situates them within the corporeal turn in American avant garde cinema so far mostly associated with body genres and sexually explicit films Drawing on unpublished archival materials the book offers a fresh take on both past and current practices of the experimental film community for scholars students makers and film buffs Monumental Jesus Margaret M. Grubiak, 2020-02-11 The American landscape is host to numerous works of religious architecture sometimes questionable in taste and large if not titanic in scale In her lively study of satire and religious architecture Margaret Grubiak

challenges how we typically view such sites by shifting the focus from believers to doubters and from producers to consumers Grubiak considers an array of sacred architectural constructions from Touchdown Jesus at the University of Notre Dame to the Wizard of Oz Mormon temple outside Washington D C to the renamed Gumby Jesus of the Christ of the Ozarks statue in Eureka Springs Arkansas and how such constructions are confronted by the doubt and dismissiveness articulated by the more skeptical of their viewers These responses of doubt activate our religious built environment in ways unanticipated but illuminating asking us at times forcefully to consider and clarify what it is we believe Opening up new avenues of thinking about how people deal with theological questions in the vernacular Grubiak s book shows how religious doubt is made manifest in the humorous satirical blasphemous and popular culture responses to religious architecture and image in modern America Midcentury Architecture Landscape Urbanism and Design

Re-creating the American Past Richard Guy Wilson, Shaun Eyring, Kenny Marotta, 2006 Although individually and collectively Americans have many histories the dominant view of our national past focuses on the colonial era The reasons for this are many and complex touching on stories of the country s origins and of the founding fathers the privileged position in history granted the thirteen original colonies and the ways in which the nation has adjusted to change and modernity But no matter the cause the result is obvious images and forms derived from and related to America s colonial past are the single most popular form of cultural expression Often conceived solely in architectural terms from the red brick and white trimmed buildings that recall eighteenth century James River estates to the clapboarded saltboxes that recall early New England Colonial Revival is in fact better understood as a process of remembering In Re creating the American Past architectural historian Richard Guy Wilson and a host of other scholars examine how and why Colonial Revival has persisted in modern times The volume contains essays that explore Colonial Revival expressions in architecture landscape architecture historic preservation decorative arts and painting and sculpture as well as the social intellectual and cultural background of the phenomena Based on the University of Virginia s landmark 2000 conference The Colonial Revival in America Re creating the American Past is a comprehensive and handsome volume that recovers the origins characteristics diversity and significance of the Colonial Revival situating it within the broader history of American design culture and society
