collection or a satisfying introduction to the work of this revered and iconic artist **Thinking Like a Mountain** Robert Bateman, 2000 **Thinking Like a Mountain** Robert Bateman, 2018-10-23 Nature has been Robert Bateman's inspiration ever since he began painting birds from his bedroom window as a young boy. The wildlife he features in his paintings are expressions of his love and respect for the natural world. A passionate environmentalist who has devoted his life to documenting the awesome power of nature, Bateman is deeply worried about the state of our planet and the fate of our natural heritage. Whenever he talks about his paintings, he talks about the environmental messages they convey, and those who have heard him speak have clamoured for a book that encapsulates his philosophy. *Thinking Like a Mountain* is the result of many years of thinking, talking, and writing about the world's growing environmental crisis. Beautifully designed and illustrated with original drawings, it is a gathering of questions, observations, and ideas Robert Bateman has drawn from his own life experiences and gleaned from the writings of some of the visionaries who have influenced him. As Einstein said, "We cannot solve the problems of today with the same thinking that gave us the problems in the first place." Only a profound shift in philosophy, Bateman believes, can save our species from extinction. *Thinking Like a Mountain* is printed on 100 per cent ancient forest free paper that is 100 per cent post-consumer recycled and has been processed chlorine-free. [Life Sketches](#) Robert Bateman, 2015-11-03 Full of never-before-seen illustrations, *Life Sketches* is an inspiring and elegant portrait of Robert Bateman's life as an artist and of his belief that Nature is an infinite source of reason, imagination, and invention. From one of Canada's most beloved painters comes an intimate, visually stunning memoir of the artist at work. Internationally acclaimed artist Robert Bateman has brought the natural world to vivid life with his unique perspective. His vast body of work, spanning species as large as the buffalo and as small as the mouse, has touched millions of hearts and minds, awakening a reverence for wildlife of all kinds. Bateman is perhaps best known for his gorgeous depictions of birds in flight and in repose, images that stir in the viewer a deep appreciation of colour, form, and spirit. *Life Sketches* is a moving journey in both words and images that for the first time allows Bateman's fans full access into his creative process, detailing his singular artistic vision and the inspiration behind his iconic art. What emerges is a portrait of a young boy enchanted by the natural world around him and called to record it in his sketches and paintings. Bitten by wanderlust, Bateman travelled the world and documented his real-life experiences in journals, sketches, and paintings. In *Life Sketches*, he recounts the evolution of his style from abstraction to realism and the events that have shaped his art into a vocation over many decades. And through it all, Bateman shows how his keen sensibilities extend beyond art to a passion for conservation and relentless advocacy for the natural world that underpins an incredible artistic legacy. Join Robert Bateman on this personal guided tour through his life and art. **More Than Birds** Val Shushkewich, 2012-11-17 Once people encounter the natural world and become aware of its intricacy, fragility, beauty, and significance, they will recognize the need for conservation. The fascinating development of natural history studies in North America is portrayed through the life stories of 22 naturalists. The 19th century saw early North American

naturalists such as Alexander Wilson the Father of American Ornithology John James Audubon and Thomas Nuttall describing and illustrating the spectacular flora and fauna they found in the New World Scientists of the Smithsonian Institution and the Canadian Museum of Nature worked feverishly to describe and catalogue the species that exist on the continent Great nature writers such as Florence Merriam Bailey Cordelia Stanwood Margaret Morse Nice Louise de Kiriline Lawrence and Roger Tory Peterson wrote in depth about the lives and behaviours of birds Early conservationists such as Jack Miner the Father of Conservation created nature preserves Today noted naturalists such as Robert Nero Robert Bateman Kenn Kaufman and David Allen Sibley do everything they can to encourage people to experience nature directly in their lives and to care about its protection and preservation
