Robert Of Arbrissel Ca 1045 1116 A Medieval Religious Life:

Robert of Arbrissel Bruce L. Venarde,2003 Robert of Arbrissel c 1045 1116 had humble origins but went on to become an important reformer hermit preacher rebel and controversially a heretic in some eyes **The Experience of Power in Medieval Europe, 950-1350** Robert F. Berkhofer III,Alan Cooper,Adam J. Kosto,2017-05-15 Taking their inspiration from the work of Thomas N Bisson to whom the book is dedicated the contributors to this volume explore the experience of power in medieval Europe the experience of those who held power those who helped them wield it and those who felt its effects The seventeen essays in the collection which range geographically from England in the north to Castile in the south and chronologically from the tenth century to the fourteenth address a series of specific topics in institutional social religious cultural and intellectual history Taken together they present three distinct ways of discussing power in a medieval historical context uses of power relations of power and discourses of power The collection thus examines not only the operational and social aspects of power but also power as a contested category within the medieval world The Experience of Power suggests new and fruitful ways of understanding and studying power in the Middle Ages **The Letters of Heloise and Abelard** M. McLaughlin,B. Wheeler,2009-12-21 The letters of Heloise and Abelard will remain one of the great romantic and intellectual documents of human civilization while they themselves are probably second only to Romeo and Juliet in the fame accrued by tragic lovers Here for the first time in Mart Martin McLaughlin s edition is the complete correspondence with commentary *Daily Life of Women in Medieval Europe* Belle S. Tuten,2022-08-23 This book is an introduction to the everyday lives of medieval European women how they ate and slept what their work was like and the many factors that shaped their experiences Ordinary people are often hard to see in the historical record This resource for students reveals the everyday world of the Middle Ages for women sex marriage work and power Using up to date scholarship from both archeology and history this book covers major daily concerns for medieval people their understanding of the world their relationships with others and their place in society It attempts to clarify what we know and what we do not know about women s daily lives in the Western European Middle Ages between approximately 500 and 1500 CE The book s focus is everyday life so the topics are organized around women s chores expectations and difficulties especially with regard to sexuality and childbirth In addition to broad survey information about the Middle Ages the book also introduces major women writers and thinkers and provides some examples of their work giving the reader an opportunity to engage with the women themselves **Robert of Arbrissel** Jacques Dalarun,2006 The author tells the story of Robert of Arbrissel ca 1045 1116 Robert was a parish priest longtime student reformer hermit wandering preacher and founder of the abbey of Fontevraud This book narrates the course of Robert s life and his relationships with others along the way *The World of Medieval Monasticism* Gert Melville,2016-03-04 This book surveys the full panorama of ten centuries of Christian monastic life It moves from the deserts of Egypt and the Frankish monasteries of early medieval Europe to the religious ruptures of the eleventh and twelfth

centuries and the reforms of the later Middle Ages Throughout that story the book balances a rich sense of detail with a broader synthetic view It presents the history of religious life and its orders as a complex braid woven from multiple strands individual and community spirit and institution rule and custom church and world The result is a synthesis that places religious life at the center of European history and presents its institutions as key catalysts of Europe's move toward modernity

Communication, Translation, and Community in the Middle Ages and Early Modern Period Albrecht Classen, 2022-08-22 Literature serves many purposes and one of them certainly proves to be to convey messages wisdom and instruction and this across languages religions and cultures Beyond that as the contributors to this volume underscore people have always endeavored to reach out to their community members that is to build community to learn from each other and to teach Hence this volume explores the meaning of communication translation and community building based on the medium of language While all these aspects have already been discussed in many different venues the contributors endeavor to explore a host of heretofore less considered historical religious literary political and linguistic sources While the dominant focus tends to rest on conflicts hostility and animosity in the pre modern age here the emphasis rests on communication with its myriad of challenges and potentials for establishing a community As the various studies illustrate a close reading of communicative issues opens profound perspectives regarding human relationships and hence the social context This understanding invites intensive collaboration between medieval historians literary scholars translation experts and specialists on religious conflicts and discourses We also learn how much language carries tremendous cultural and social meaning and determines in a most sensitive manner the interactions among people in a communicative and community based fashion

Forthcoming Books Rose Army, 2003-04 **Popular Opinion in the Middle Ages** Charles W. Connell, 2016-10-24 This book provides a needed overview of the scholarship on medieval public culture and popular movements such as the Peace of God heresy and the crusades and illustrates how a changing sense of the populus the importance of publics and public opinion and public spheres was influential in the evolution of medieval cultures Public opinion did play an important role even in the Middle Ages it did not wait until the era of modern history to do so Using modern research on such aspects of culture as textual communities large and small publics cults crowds rumor malediction gossip dispute resolution and the European popular revolution the author focuses on the Peace of God movement the era of Church reform in the tenth and eleventh centuries the rise and combat of heresy the crusades and the works of fourteenth century political thinkers such as Marsiglio of Padua regarding the role of the populus as the basis for the analysis The pattern of changes reflected in this study argues that just as in the modern world the simplistic idea of the public was a phantom Instead there were publics large and small that were influential in shaping the cultures of the era under review

Medieval Masculinities Clare A. Lees, Thelma S. Fenster, Jo Ann McNamara, 1994 Ranging from questions of epic violence and heroic embodiments of manhood to constructions of bachelorhood husbandry and sainthood *Medieval Masculinities* is the first synthesis of medieval

and gender studies to focus on masculinities Harry Brod editor of *The Making of Masculinities* We should not be working exclusively on the subjected sex any more than a historian of class can focus exclusively on peasants Natalie Zemon Davis 1975 In the years since Natalie Davis made this remark men s studies and gender studies along with it has earned its place in scholarship What is often missing from such studies however is the insight that the concept of gender in general and that of masculinity in particular can be understood only in relation to individual societies examined at specific historical and cultural moments A brilliant application of this insight *Medieval Masculinities* is the first full length collection to explore the issues of men s studies and contemporary theories of gender within the context of the Middle Ages Interdisciplinary and multicultural the essays range from matrimony in medieval Italy to bachelorhood in Renaissance Venice from friars and saints to the male animal in the fables of Marie de France from manhood in Sir Gawain and the Green Knight Beowulf and the Roman d Eneas to men as other whether Muslim or Jew in medieval Castilian epic and ballad The authors are especially concerned with cultural manifestations of masculinity that transcend this particular historical period idealized gender roles political and economic factors in structuring social institutions and the impact of masculinist ideology in fostering and maintaining power Together their essays constitute an important reassessment of traditional assumptions within medieval studies as well as a major contribution to the evolving study of gender Contributors Christopher Baswell Barnard College Vern L Bullough SUNY Buffalo Stanley Chojnacki Michigan State University John Coakley New Brunswick Theological Seminary Thelma Fenster Fordham University Clare Kinney University of Virginia Clare A Lees University of Pennsylvania Jo Ann McNamara Hunter College Louise Mirrer Fordham University Harriet Spiegel California State University Chico Susan Mosher Stuard Haverford College *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004 **Medieval Religion** Constance H. Berman,2005 Constance Hoffman Berman presents an indispensable collection of the most influential and revisionist work to be done on religion in the Middle Ages in the last two decades Bringing together an authoritative list of scholars from around the world this book is a comprehensive compilation of the most important work in this field *Medieval Religion* provides a valuable service for all those who study the Middle Ages church history or religion **Three Studies in Medieval Religious and Social Thought** Giles Constable,1998-03-28 This volume of three Studies concentrates on the changes in religious thought and institutions in the eleventh and twelfth centuries and includes not only monks and nuns but also less organised types of life such as hermits recluses crusaders and penitents It is complementary to Professor Constable s forthcoming book *The Reformation of the Twelfth Century* but is dissimilar from it in examining three themes over a long period from late antiquity to the seventeenth century in order to show how they changed over time The interpretation of Mary and Martha deals primarily but not exclusively with the balance of action and contemplation in Christian life the ideal of the imitation of Christ studies the growing emphasis on the human Christ especially His body and wounds and the orders of society looks at the conceptual divisions of society and the emergence of the modern idea of a middle class The Light

and the Dark: Dualism and non-dualism in medieval theology and philosophy Petrus Franciscus Maria Fontaine,1986

The Loving Subject Gerald A. Bond,2016-11-11 Gerald Bond explores the rise of a new secular identity that took place in French elite culture at the turn of the twelfth century While the period is widely recognized as pivotal and much revisionary work has been done on it Bond notes that in order to see the changes in the conception of the private secular self the focus must be shifted away from epics and saints lives the traditional targets of literary inquiry to lyric letters and marginal texts and images Such texts and images can be found at regional courts reasonably independent of the weak and limited monarchy and at schools far removed from the traditional Christian curriculum where a new and distinctly secular group contested inherited values of class gender and person and created distinct patterns and codes of dress behavior talk and pleasure Translating and using sources that for the most part have never been explored Bond examines the Bayeux Tapestry and such figures as Marbod of Rennes Baudri of Bourgueil William of Poitiers and Adela of Blois to frame a complex view of the contested reconception of the secular self and its value

The Bride of Christ Goes to Hell Dyan Elliott,2011-11-16 The early Christian writer Tertullian first applied the epithet bride of Christ to the uppity virgins of Carthage as a means of enforcing female obedience Henceforth the virgin as Christ s spouse was expected to manifest matronly modesty and due submission hobbling virginity s ancient capacity to destabilize gender roles In the early Middle Ages the focus on virginity and the attendant anxiety over its possible loss reinforced the emphasis on claustration in female religious communities while also profoundly disparaging the nonvirginal members of a given community With the rising importance of intentionality in determining a person s spiritual profile in the high Middle Ages the title of bride could be applied and appropriated to laywomen who were nonvirgins as well Such instances of democratization coincided with the rise of bridal mysticism and a progressive somatization of female spirituality These factors helped cultivate an increasingly literal and eroticized discourse women began to undergo mystical enactments of their union with Christ including ecstatic consummations and vivid phantom pregnancies Female mystics also became increasingly intimate with their confessors and other clerical confidants who were sometimes represented as stand ins for the celestial bridegroom The dramatic merging of the spiritual and physical in female expressions of religiosity made church authorities fearful an anxiety that would coalesce around the figure of the witch and her carnal induction into the Sabbath

Women's Monasticism and Medieval Society Bruce L. Venarde,1999 In this engaging work Bruce L Venarde uncovers a largely unknown story of women s religious lives and puts female monasticism back in the mainstream of medieval ecclesiastical history To chart the expansion of nunneries in France and England during the central Middle Ages he presents statistics and narratives to describe growth in broad historical contexts with special attention to social and economic change Venarde explains that in the years 1000 1300 the number of

nunneries within Europe grew tenfold In the eleventh and twelfth centuries religious institutions for women developed in a variety of ways mostly outside the self conscious reform movements that have been the traditional focus of monastic history Not reforming monks but wandering preachers bishops and the women and men of local petty aristocracies made possible the foundation of new nunneries In times of increased agrarian wealth decentralization of power and a shortage of potential spouses many women decided to become nuns and proved especially adept at combining spiritual search with practical acumen This era of expansion came to an end in the thirteenth century when forces of regulation and new economic realities reduced radically the number of new nunneries Venarde argues that the factors encouraging and inhibiting monastic foundations for men and women were much more similar than scholars have previously assumed

Les deux vies de Robert d'Arbrissel, fondateur de Fontevraud Robert (of Arbrissel), Jacques Dalarun, 2006 The multifaceted Robert of Arbrissel ca 1045 1116 is best remembered as the founder of Fontevraud a monastery of men and women under the direction of an abbess A restless nonconformist Robert was both famous and infamous in his own lifetime and has been a subject of debate ever since In this book an international team of scholars Jacques Dalarun Genevieve Giordanengo Armelle Le Hurou Jean Longre Dominique Poirel and Bruce L Venarde present all known medieval sources concerning Robert of Arbrissel The authors have created critical editions of materials including hagiography correspondence statutes charters and various short texts in verse and prose illustrating Robert s life and memory To facilitate broad access to these materials the entire dossier is translated into French and English The authors purpose then is not to offer the last word on Robert of Arbrissel but to make available in one volume the materials that will promote further research and new interpretations of this controversial medieval Christian
