Robert de Blois' Floris Et Lyrioie Paul Barrette,1968

Robert de Blois's Floris Et Lyrioie. - Berkeley [usw.]

1968. 152 S. 8° Paul Barrette,1968 **Translation, Transformation and Transubstantiation in the Late Middle Ages**

Carol Poster,Richard J. Utz,1998 This is the third volume in a series of studies on the late Middle Ages covering the period from around 1300 to 1550 Each volume aims to provide exhaustive and diverse treatments of one significant example of late medieval culture Volume three explores transformation and translation **Courtly Love Undressed** E. Jane

Burns,2014-07-09 Clothing was used in the Middle Ages to mark religious military and chivalric orders lepers and prostitutes The ostentatious display of luxury dress more specifically served as a means of self definition for members of the ruling elite and the courtly lovers among them In Courtly Love Undressed E Jane Burns unfolds the rich display of costly garments worn by amorous partners in literary texts and other cultural documents in the French High Middle Ages Burns reads through clothes in lyric romance and didactic literary works vernacular sermons and sumptuary laws to show how courtly attire is used to negotiate desire sexuality and symbolic space as well as social class Reading through clothes reveals that the expression of female desire so often effaced in courtly lyric and romance can be registered in the poetic deployment of fabric and adornment and that gender is often configured along a sartorial continuum rather than in terms of naturally derived categories of woman and man The symbolic identification of the court itself as a hybrid crossing place between Europe and the East also emerges through Burns s reading of literary allusions to the trade travel and pilgrimage that brought luxury cloth to France **A Cultural History of Dress and Fashion in the Medieval Age** Sarah-Grace Heller,2018-11-01 During

the medieval period people invested heavily in looking good The finest fashions demanded careful chemistry and compounds imported from great distances and at considerable risk to merchants the Church became a major consumer of both the richest and humblest varieties of cloth shoes and adornment and vernacular poets began to embroider their stories with hundreds of verses describing a plethora of dress styles fabrics and shopping experiences Drawing on a wealth of pictorial textual and object sources the volume examines how dress cultures developed often to a degree of dazzling sophistication between the years 800 to 1450 Beautifully illustrated with 100 images A Cultural History of Dress and Fashion in the Medieval Age presents an overview of the period with essays on textiles production and distribution the body belief gender and sexuality status ethnicity visual representations and literary representations **Robert de Blois's Floris Et Lyriopé**

From Plato to Lancelot K. Sarah-Jane Murray,2008-06-12 Considered the most important figure

in medieval French literature Chr tien de Troyes is credited with inventing the modern novel The roots of his influential Arthurian romance narratives remain the subject of investigation and great debate among medieval scholars In From Plato to Lancelot K Sara Jane Murray makes a highly original and profoundly significant contribution to the current scholarship by locating Chr tien s work at the intersection of two important traditions one derived from Greco Roman antiquity the other

from the Celtic world of the Atlantic seaboard Drawing on a broad range of sources from Plato's Timaeus and Ovid's Metamorphoses to the anonymous *Lais* translated in the twelfth century by Marie de France Murray demonstrates that Chr tien and his contemporaries learned the importance of translation from the Mediterranean centered classical tradition She then turns to the Celtic world examining how Irish monastic scholarship as demonstrated by the Voyage of St Brendan and Celtic saints lives profoundly influenced the cultural identity of medieval Europe and paved the way for an interest in Celtic stories and legends With breathtaking insight and lucid prose Murray illustrates that Chr tien's singular genius lay in his ability to look to the future and to lay the foundations for a thoroughly new and French tradition of vernacular storytelling

Performing Medieval Narrative Evelyn Birge Vitz, Nancy Freeman Regalado, Marilyn Lawrence, 2005 A survey of an investigation into whether medieval narrative was designed for performance *American Journal of Philology*, 1891

tradition of world literature Her vast and learned readings of both canonical and lesser known works pose crucial questions about among other things the notion of otherness the meaning of change and stability and the relationship of medieval literature with theology Part history of literature part theoretical criticism this book reshapes the language and content of medieval works By weaving together topics such as the origin of epic and lyric poetry Latin French bilingualism women s writing grammar authorship and more Cerquiglini Toulet does nothing less than redefine both philosophical and literary approaches to medieval French literature Her book is a history of the literary act a history of words a history of ideas and works monuments rather than documents that calls into question modern concepts of literature **Orality and**

Performance in Early French Romance Evelyn Birge Vitz,1999 This book proposes a fundamental revision of the history of early French romance it argues that oral and performed traditions were far more important in the development of romance than scholars have recognised Starting with issues of orality and literacy it is argued that the form in which romances were composed was not the invention of clerics but was rather an oral form The second part of the book looks at performance and shows that romances such as those of Chretien invited voiced presentation moreover they were frequently recited from memory sung and acted out in dramatic fashion Romances can and should still be performed today **The Year's Work in**
