The Works of Robert Louis Stevenson Volume 10 Robert Louis Stevenson, 2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book without typos from the publisher. Not indexed. Not illustrated. 1922 edition. Excerpt: the boat's lantern a few necessary words and Andie carried them to Rankeillor. In about an hour he came aboard again with a purse of money and the assurance that a good horse should be standing saddled for me by two to-morrow at Clackmannan Pool. This done and the boat riding by her stone anchor we lay down to sleep under the sail. We were in the Pool the next day long ere two and there was nothing left for me but sit and wait. I felt little alacrity upon my errand. I would have been glad of any passable excuse to lay it down but none being to be found my uneasiness was no less great than if I had been running to some desired pleasure. By shortly after one the horse was at the water side and I could see a man walking it to and fro till I should land which vastly swelled my impatience. Andie ran the moment of my liberation very fine showing himself a man of his bare word but scarce serving his employers with a heaped measure and by about fifty seconds after two I was in the saddle and on the full stretch for Stirling. In a little more than an hour I had passed that town and was already mounting Alan Water side when the weather broke in a small tempest. The rain blinded me the wind had nearly beat me from the saddle and the first darkness of the night surprised me in a wilderness still some way east of Balwhidder not very sure of my direction and mounted on a horse that began already to be weary. In the press of my hurry and to be spared the delay and annoyance of a guide I had followed so far as it was possible for any horseman the line of my journey with Alan. This I did with open eyes foreseeing a great risk in it which the tempest had now brought to a reality. Hill, 2017-02-03 In his travel narrative *Travels with a Donkey in the Cevennes* 1879 Robert Louis Stevenson declares I travel not to go anywhere but to go. I travel for travel's sake. The great affair is to move. Taking up the concepts of time place and memory the contributors to this collection explore in what ways the dynamic view of life suggested by this quotation permeates Stevenson's work. The essays adopt a wide variety of critical approaches including post colonial theory post structuralism new historicism art history and philosophy making use of the vast array of literary materials that Stevenson left across a global journey that began in

Scotland in 1850 and ended in Samoa in 1894 These range from travel journals letters and classic literary staples such as Treasure Island and The Strange Case of Dr Jekyll and Mr Hyde to rarely read masterpieces such as The Master of Ballantrae or The Ebb Tide While much recent scholarship on Stevenson foregrounds geography the present volume also examines the theme of movement across memory time and generic boundaries Taken together the essays offer a view of Stevenson that demonstrates how the protean nature of his literary output reflects the radical developments in science technology and culture that characterized the age in which he lived **The Novels and Tales of Robert Louis Stevenson, Volume 12** Robert Louis Stevenson,2015-12-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Novels and Tales of Robert Louis Stevenson, Volume 10** Robert Louis Stevenson,Lloyd Osbourne,Fanny Van De Grift Stevenson,2015-11-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Works Of Robert Louis Stevenson; Volume 10** Robert Louis Stevenson,Lloyd Osbourne,Fanny Van De Grift Stevenson,2019-04-04 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This
