In Search of the True West Esther Kingston-Mann,1998-12-21 This ground breaking work documents Russian efforts to appropriate Western solutions to the problem of economic backwardness since the time of Catherine the Great Entangled then as now with issues of cultural borrowing educated Russians searched for Western nations ideas and social groups that embodied universal economic truths applicable to their own country Esther Kingston Mann describes Russian Westernization which emphasized German as well as Anglo U S economics while she raises important questions about core values of Western culture and how cultural values and priorities are determined This is the first historical account of the significant role played by Russian social scientists in nineteenth century Western economic and social thought In an era of rapid Western colonial expansion the Russian quest for the right Western economic model became more urgent Was Russia condemned to the fate of India if it did not become an England In the 1900s Russian liberal economists emphasized cultural difference and historical context while Marxists and prerevolutionary government reformers declared that inexorable economic laws doomed peasants and their medieval communities On the eve of 1917 both the tsarist regime and its leading critics agreed that Russia must choose between Western style progress or feudal stagnation And when peasants and communes survived until Stalin s time he mercilessly destroyed them in the name of progress Today Russia s painful modernizing traditions shape the policies of contemporary reformers who seem as certain as their predecessors that economic progress requires wholesale obliteration of the past

Russian-European Relations in the Balkans and Black Sea Region Vsevolod Samokhvalov, 2017-06-19 This book provides a detailed analysis of Russia s great power identity and the role of Europe in forming this identity Great power identity implies an expansionist foreign policy and yet this does not explain all the complexities of the Russian state For instance it cannot explain why Russia decided to take over Crimea but provided only limited support to break away regions in Eastern Ukraine Moreover if Russia is in geo economic competition with Europe why has no serious conflict erupted between Moscow and other post Soviet states which developed closer ties with the EU Finally why does Putin maintain relationships with the European countries that imposed tough economic sanctions on Russia Vsevolod Samokhvalov provides a more nuanced understanding of Russia s great power identity by drawing on his experience in regional diplomacy and research and applying a constructivist methodology The book will appeal to students and scholars of international relations in
