Richard Overy

Russia Revolution And Counter Revolution 1917 1924:

Russia John Daborn,1991 **Russia: From Revolution To Counter-Revolution** Ted Grant, *Russia 1914-41* Colin Bagnall,2004 Designed to cover the most up to date Standard Grade requirements these books should provide everything you need to prepare your students for their exams There are exam style questions and full colour presentation throughout

The Blackwell Encyclopedia of the Russian Revolution Harold Shukman,1994-12-05 This single volume is an authoritative and accessible guide to the background and progress of the Revolution written by a team of over forty specialist contributors Beginning with the radical movements of the mid nineteenth century the Encyclopedia covers the development of the revolutionary movement created by the intelligentsia the condition of the peasants that of the working class and of the army the role of the Tsarist secret police the agents provocateurs the revolutionaries own underground A substantial section is devoted to the emergence of liberation movements among the national minorities of the borderlands The Encyclopedia also considers the formation of Soviet institutions and examines too the emergence of revolutionary culture well before 1917 the avant garde in art and theatre and the relationship to the revolution of three major Russian writers Blok Gorky and Mayakovsky **Europe, 1890-1945** Stephen J. Lee,2020-03-27 Europe 1890 1945 is a new approach to teaching and learning early twentieth century European history at A level It meets the needs of teachers and students studying for today s revised AS and A2 exams In a unique style Europe 1890 1945 focuses on the key topics within the period Each topic is then comprehensively explored to provide background information essay writing advice and examples source work and historical skills exercises From 1890 to 1945 the key topics featured include the origins and impact of the First World War the Russian Revolution and the rise of Stalin the Weimar Republic and the rise of Hitler Mussolini and Fascist Italy Stalin and the Soviet Union 1928 41 **Lenin and Revolutionary Russia** Stephen J. Lee,2008-01-28 Lenin and Revolutionary Russia examines the background to and the course of the Russian Revolution of 1917 and Lenin s regime It explores all the key aspects such as the development of the Bolsheviks as a revolutionary party the 1905 Revolution the collapse of the Tsarists the Russian Civil War and historical interpretations of Lenin s legacy to Russian history **The First World War** Ian J. Cawood,David McKinnon-Bell,2002-01-04 The First World War examines the outbreak events themselves and aftermath of the Great War and the political social and economic effects on the European countries involved Important themes explored include recruitment and propaganda women s involvement in the war protest and pacifism the links between the war and the revolutions in Russia and Germany The "Russian" Civil Wars, 1916-1926 Jonathan Smele,2016-01-15 This volume offers a comprehensive and original analysis and reconceptualisation of the compendium of struggles that wracked the collapsing Tsarist empire and the emergent USSR profoundly affecting the history of the twentieth century Indeed the reverberations of those decade long wars echo to the present day not despite but because of the collapse of the Soviet Union which re opened many old wounds from the Baltic to the Caucasus Contemporary memorialising and de memorialising of these wars therefore

form part of the book's focus but at its heart lie the struggles between various Russian political and military forces which sought to inherit and preserve or even expand the territory of the tsars overlain with examinations of the attempts of many non-Russian national and religious groups to divide the former empire. The reasons why some of the latter were successful (Poland and Finland for example) while others (Ukraine, Georgia and the Muslim Basmachi) were not are as much the author's concern as are explanations as to why the chief victors of the Russian Civil Wars were the Bolsheviks. Tellingly the work begins and ends with battles in Central Asia, a theatre of the Russian Civil Wars that was closer to Mumbai than it was to Moscow.

Hodder GCSE History for Edexcel: Russia and the Soviet Union, 1917-41 John Wright, Steve Waugh, 2016-08-29

Exam Board: Pearson Edexcel Level: GCSE Subject: History First teaching: September 2016 First exams: June 2018 Endorsed for Edexcel. Enable students to achieve their full potential while ensuring pace, enjoyment and motivation with this popular series from the leading History publisher for secondary schools. Br Blends in depth coverage of topics with activities and strategies to help students to acquire, retain and revise core subject knowledge. Br Br Uses an exciting mix of clear narrative, visual stimulus materials and a rich collection of contemporary sources to capture students' interest. Br Br Helps students to maximise their grade potential and develop their exam skills through structured guidance on answering every question type successfully. Br Br Builds on our experience publishing popular GCSE History resources, providing you with accurate, authoritative content written by experienced teachers who understand the content and assessment requirements.

Russia: From Proletarian Revolution to State-Capitalist Counter-Revolution Raya Dunayevskaya, 2017-07-10

Russia: From Proletarian Revolution to State Capitalist Counter Revolution is a selection of writings by the Marxist Humanist philosopher Raya Dunayevskaya which begins with an examination of Lenin's Hegel Notebooks, his philosophic preparation for proletarian revolution, followed by a section on What Happens After the revolution, the first years post 1917. Analyses of Trotsky, Stalin, Bukharin and Luxemburg are presented. A key section is Russia's Transformation into Opposite The Theory of State Capitalism. Opposition to Russian state capitalism such as the 1953 East Germany Revolt and the 1956 Hungarian Revolution are described. Mao's China as another form of state capitalism as well as the Sino-Soviet conflict is discussed. The study ends with a battle of ideas with other analyses of the Revolution and its aftermath.

The Russian Revolution in Retreat, 1920-24, *Years of Russia, the USSR and the Collapse of Soviet Communism* David Evans, Jane Jenkins, 2008

This title is a new edition of *Years of Russia and the USSR* which charts Russian history from the reign of Alexander II through to the eventual fall of communism and the break up of the Soviet Union. It examines the political, social and economic impact of Nicholas II's reign, the First World War and the subsequent revolution. It then goes on to look at Bolshevik and Stalinist Russia before going on to discuss Khrushchev's policy of de-Stalinisation and the years of stagnation and reform.

Anglo-Soviet Relations, 1917-1921, Volume 1 Richard H. Ullman, 2019-01-29

In an intriguing work based largely on new sources, Richard H. Ullman shows how the British government, the politicians, civil servants, military and naval officers

dealt with the problem of Russia during the critical period between the Bolshevik Revolution in November 1917 and Britain's de facto recognition of the Soviet government in March 1921. Volume 1 describes the tragic misunderstandings and desperate hopes of the British in the troubled year before the Armistice which stands as a watershed in the history of Anglo-Soviet policy. As diplomacy failed, British forces found themselves fighting not only in North Russia but in the Caucasus and on the frontiers of India. The second volume to be published later will cover the story to 1921. Dr Ullman's exciting portrayal of these events is a companion work to George Kennan's several volume study of the same period, *Soviet American Relations 1917-1920*. Originally published in 1961, The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

[American Communism and Soviet Russia](#)

Theodore Draper, 2017-07-05. This companion volume to *The Roots of American Communism* brings to completion what the author describes as the essence of the relationship of American Communism to Soviet Russia in the first decade after the Bolsheviks seized power. The outpouring of new archive materials makes it plain that Draper's premise is direct and to the point: The communist movement was transformed from a new expression of American radicalism to the American appendage of a Russian revolutionary power. Each generation must find this out for itself and no better guide exists than the work of master historian Theodore Draper. *American Communism and Soviet Russia* is acknowledged to be the classic authoritative history of the critical formative period of the American Communist Party. Based on confidential minutes of the top party committees, interviews with party leaders, and public records, this book carefully documents the influence of the Soviet Union on the fundamental nature of American Communism. Draper's reflections on that period in this edition are a fitting capstone to this pioneering effort. Daniel Bell in *Saturday Review* remarked about this work that there are surprisingly few scholarly histories of individual Communist parties and even fewer which treat of this crucial decade in intimate detail. Draper's account is therefore of great importance. Arthur M. Schlesinger in *The New York Times Book Review* says that in reading Draper's closely packed pages one hardly knows whether to marvel more at the detachment with which he examines the Communist movement, the patience with which he unravels the dreary and intricate struggles for power among the top leaders, or the intelligence with which he analyzes the interplay of factors determining the development of American Communism. And Michael Harrington in *Commonweal* asserted that Draper's book will long be a definitive source volume and analysis of the Stalinization of American Communism.

[In Defence of Lenin](#)

Rob Sewell, Alan Woods, 2024-01-11. John Reed, the author of *Ten Days that Shook the World*, once said that Lenin was the most loved and the most hated person alive. He was loved by tens of millions who wanted to change society but hated by the ruling class and their apologists. As the

leader of the Russian Revolution Lenin was a man who changed the world A convinced Marxist he created the Bolshevik Party the most revolutionary party in history Lenin translated the ideas of Marxism into reality It is now one hundred years since his death The bourgeois historians continue to slander him and his ideas The task of this book is to explain his real life and ideas and to draw out the significance of Lenin Given the ongoing capitalist crisis his ideas are gaining an increasingly wide echo In so many ways Lenin is more relevant today than ever before Over two volumes this book traces Lenin s life and explains his ideas drawing on the colossal heritage of what he actually wrote and did This book also features an appendix of Krupskaya s writings on Lenin a chronology and over 250 images

Russia's Retreat From Poland 1920 Thomas C Fiddick,1990-04-09 *The Bolsheviks and the Czechoslovak Legion* Victor M. Fic,1978 **The Socialist Movement, 1824-1924: The new phase, 1914-1924** Arthur Shadwell,1925 *The Inter-War Crisis* Richard Overy,2014-06-11

The inter war years were at the time perceived to be years of crisis across the world The First World War the war to end all wars had solved nothing and its legacy was a world full of unresolved disputes and manifest ambiguities Overy examines the Russian Revolution and its aftermath the Wall Street Crash of 1929 and the subsequent economic crisis which struck at the very foundations of the capitalist world and seeks to explain why dictatorships came to supplant democracy in Italy Spain Germany the Baltic States and the Balkans and why the world slid into war once more in 1939

The Greenwood Encyclopedia of International Relations: M-R Cathal J. Nolan,2002

Annotation The rise of the Great Powers and the course of world civilizations their formative wars and diplomatic political and economic relations are the primary focus But tremendous steps are made to cover all of the smaller and less powerful regions their local history and how progressive inclusion into the modern state system affected them both for good and for ill This cross referenced work addresses the educated lay reader as well as specialists seeking clear concise sketches of the topics that have shaped political and historical developments in our world
