Paul Miliukov in Russian Politics

THOMAS RIHA

This study of Paul Miliukov, Dr. Riha has elected to focus only the major part of his political life, hoping to select the bulk of everything Miliukov's contribution as a historian. Paul Miliukov was born on January 24, 1874 and died suddenly in 1913. A member of the Russian Duma and leader of Russia's Social Constitutional Democratic party, he became Foreign Minister in the last government of Prince Lvov after the revolution of February 1917. His insistence on carrying out Russia's commitment to that allied cause in World War I made him extremely unpopular and in May of 1917 he resigned his post.

Russian European Paul Miliukov In Russ:

Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 **A Russian European; Paul Miliukov in Russian Politics** Thomas Riha, 1969 **Late Tsarist Russia, 1881-1913** Beryl Williams, 2020-09-17 This book brings together the large volume of work on late Tsarist Russia published over the last 30 years to show an overall picture of Russia under the last two tsars before the war brought down not only the Russian empire but also those of Germany Austria Hungary and Turkey It turns the attention from the old emphases on workers revolutionaries and a reactionary government to a more diverse and nuanced picture of a country which was both a major European great power facing the challenges of modernization and industrialization and also a multi ethnic and multi confessional empire stretching across both Europe and Asia **Russia and the Idea of Europe** Iver B. Neumann, 2016-10-14 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia's relationship with Europe In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing nationalist views and Europe orientated liberal views can ever be resolved Drawing on a wide range of Russian sources this book retains the broad historical focus of the previous edition and picks up from where it left off in the early 1990s bringing the discussion fully up to date Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism The book also offers an additional focus on post Cold War developments In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations **The Anatomy of Revolution Revisited** Bailey Stone, 2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton's 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640-60 the French Revolution of 1789-99 and the Russian Revolution of 1917-29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture ***Unmaking Imperial Russia*** Serhii Plokhy, Mykhailo Hrushevsky Professor of Ukrainian History Serhii Plokhy, 2005-01-01 *Unmaking Imperial Russia* examines Hrushevsky's construction of a new historical paradigm that brought about the nationalization of the Ukrainian past and established Ukrainian history as a separate field of study **Russia in**

the Age of Modernisation and Revolution 1881 - 1917 H. Rogger, 2014-07-30 Hans Rogger's study of Russia under the last two Tsars takes as its starting point what the Russians themselves saw as the central issue confronting their nation the relationship between state and society and its effects on politics economics and class in these critical years *Socialist Europe and Revolutionary Russia* Bruno Naarden, 2002-05-02 This book analyses perceptions and images of Russia held by European socialists from 1848 to the 1920s *Historiography of Imperial Russia: The Profession and Writing of History in a Multinational State* Thomas Sanders, 2015-02-12 This collection of the best new and recent work on historical consciousness and practice in late Imperial Russia assembles the building blocks for a fundamental reconceptualization of Russian history and history writing [Russia in World History](#) Choi Chatterjee, 2022-01-27 Russia in World History uses a comparative framework to understand Russian history in a global context The book challenges the idea of Russia as an outlier of European civilization by examining select themes in modern Russian history alongside cases drawn from the British Empire Choi Chatterjee analyzes the concepts of nation and empire selfhood and subjectivity socialism and capitalism and revolution and the world order in the 19th 20th and 21st centuries In doing so she rethinks many historical narratives that bluntly posit a liberal West against a repressive authoritarian Russia Instead Chatterjee argues for a wider perspective which reveals that imperial practices relating to the appropriation of human and natural resources were shared across European empires both East and West Incorporating the stories of famous thinkers such as Leo Tolstoy Emma Goldman Wangari Maathai Arundhati Roy among others This unique interpretation of modern Russia is knitted together from the varied lives and experiences of those individuals who challenged the status quo and promoted a different way of thinking This is a ground breaking book with big and provocative ideas about the history of the modern world and will be vital reading for students of both modern Russian and world history **Thou Shalt Kill** Anna Geifman, 2020-11-10 Anna Geifman examines the explosion of terrorist activity that took place in the Russian empire from the years just prior to the turn of the century through 1917 a period when over 17 000 people were killed or wounded by revolutionary extremists On the basis of new research she argues that a multitude of assassination attempts bombings ideologically motivated robberies and incidents of armed assault kidnapping extortion and blackmail for party purposes played a primary role in the revolution of 1905 and early twentieth century Russian political history in general **Russia's Greatest Enemy?** Charlotte Alston, 2007-03-28 A remarkably talented linguist foreign correspondent in Russia from 1904 1921 and Foreign Editor for The Times Russia's Greatest Enemy traces the fascinating life and career of Harold Williams This quiet and modest New Zealander played a central role in informing and influencing British opinion on Russia from the twilight of the Tsars through War and Revolution to the rise of the Soviet Union The career of this keen Russophile and fierce opponent of Bolshevism illuminates the pre World War One movement towards rapprochement with the Tsar as well as the drive for intervention and isolation in the Soviet period In this fascinating study Charlotte Alston explores the role of Williams as the interpreter of Russia to the British and the British to

Russia's World Order Paul Robinson, 2025-04-15 *Russia's World Order* explores the ideas underlying the undeclared New Cold War between Russia and the West The first Cold War was a struggle between capitalism and communism most Western politicians and policymakers imagine the new one to be a struggle between democracy and autocracy *Russia's World Order* explains that in Russian eyes the conflict is about something very different it is a fight between two incompatible visions of where history is leading *Russia's World Order* describes the civilizational theory that has come to dominate Russian official discourse and that has come to dominate Russian official discourse and that is being used by the Russian state to justify its clashes with the West Whereas the West promotes a vision of history that drives all nations toward convergence on a single social political and economic model that of modern Western liberalism Russia's political leaders increasingly portray the world as consisting of numerous distinct civilizations each diverging toward its own unique destination The Russian state portrays itself as defending the right of all civilizations to chart their own independent path of development and is having some success in using this logic to win allies around the world Paul Robinson recounts how ideas of inevitable convergence once dominated Russian thought as well but were gradually pushed out by civilizational theories He outlines where these theories came from what they propose and how they became popular *Russia's World Order* thereby reveals the true nature of today's New Cold War and the challenge that Russian civilizationism poses to the West

The Cultural Gradient Catherine

Evtuhov, Stephen Kotkin, 2003 Is there a sharp dividing line that separates Europe into East and West This volume brings together prominent scholars from the United States Canada France Poland and Russia to examine the evolution of the concept of Europe in the two centuries between the French Revolution and the collapse of the Soviet Union Inspired by the ideas of Martin Malia the contributors take a flexible view of the cultural gradient the emergence interaction and reception of ideas across Europe The essays address three dimensions of the gradient the history of ideas regimes and political practices and the contemporary political and intellectual scene In exploring the movement of ideas throughout Europe The Cultural Gradient brings a new historical perspective to the field of European studies **External Research List** ,1966

External Research. ER List United States. Department of State. External Research Division,1965 **External Research** United States. Department of State. External Research Division, Death Orders Anna Geifman,2010-05-20 This fascinating study shows how terrorism as developed and practiced in Romanov Russia has over the past century manifested itself as the template for modern and postmodern terrorism as a universal sociocultural psychological and existential experience irrespective of particular political causes ethnic distinctions and ideological boundaries Arguing that Russia is the birthplace of modern terrorism Death Orders The Vanguard of Modern Terrorism in Revolutionary Russia uses the nation as a case study of psycho historical patterns of worldwide terrorist activity during the past century Key features of early 20th century Russian political extremism serve as models for terrorist experiences in other periods and regions as author Anna Geifman builds a typology of a universal phenomenon The book shows how in Russia and elsewhere terrorists objectives have degenerated from punishment of individual adversaries and attempts to intimidate political elites to indiscriminate acts of political violence It shifts attention from ideology to practices that had been previously hidden ignored or rationalized demonstrating that what terrorists say about their motives may not be what actually drives them to brutality By looking closely at Russian precedents for the general experience of modern political violence the book helps illuminate many obscure aspects of terrorism today
