**Literature, Culture, and Society** Andrew Milner, 1996-07 Amidst continuing debates about the literary canon Literature Culture and Society poses a revealing question if academics find it valuable and stimulating to discuss texts ranging from Genesis to Bladerunner in their leisure time why do they act as if this is sacrosanct in their formal work In this well argued and refreshing discussion of the

history and importance of literary criticism Milner embraces a reality that many in the academy still fear that cultural studies is alive and it's here to stay Andrew Milner begins with an introduction to the field of cultural studies and its parent disciplines of English literature and sociology He reviews the defining terms and the theoretical traditions in a manner that is sophisticated but accessible He discusses just how and why cultural studies evolved and what it has to offer our appraisal of all texts be they old or new print or film Milner eschews both cultural populism and literary elitism in favor of a criticism that is more concerned with value than with exclusion The author concludes this significant and insightful book with a demonstration of his theories tying together a group of narratives ranging from *Paradise Lost* to the latest *Frankenstein* films *Literature Culture and Society* cogently examines the question of scholarship and forcefully demonstrates that rigorous academic inquiry need not be reserved for dust covered texts alone     **Культура Русского Модернизма** Владимир Федорович Марков, 1993     *Wide Angle* , 1976 A quarterly journal of film history theory criticism and practice varies slightly

**Encyclopedia of Literary Modernism** Paul Poplawski, 2003-12-30 Modernism is still widely acknowledged as perhaps the most important and influential artistic and cultural phenomenon of the 20th century Written by expert scholars from around the world and covering hundreds of different topics in a clear incisive and critical manner this reference maps the complex field of modernism in a fresh and original way The principal focus of the book is on English language literary modernism and the period 1890-1939 yet many entries extend beyond those parameters to include important precursors and successors of the movement The book also covers the crucial European and interdisciplinary dimensions of modernism and provides complementary comparative perspectives from countries and regions not usually included in traditional accounts of the subject Entries cite works for further reading and the volume closes with a selected general bibliography
