Russian Writers on Translation Brian James Baer, Natalia Olshanskaya, 2014-07-16 Since the early eighteenth century following Peter the Great's policy of forced westernization translation in Russia has been a very visible and much discussed practice Generally perceived as an important service to the state and the nation translation was also viewed as a high art leading many Russian poets and writers to engage in literary translation in a serious and sustained manner As a result translations were generally regarded as an integral part of an author's oeuvre and of Russian literature as a whole This volume brings together Russian writings on translation from the mid 18th century until today and presents them in chronological order providing valuable insights into the theory and practice of translation in Russia Authored by some of Russia's leading writers such as Aleksandr Pushkin Fedor Dostoevskii Lev Tolstoi Maksim Gorkii and Anna Akhmatova many of these texts are translated into English for the first time They are accompanied by extensive annotation and biographical sketches of the authors and reveal Russian translation discourse to be a sophisticated and often politicized exploration of Russian national identity as well as the nature of the modern subject Russian Writers on Translation fills a persistent gap in the literature on alternative translation traditions highlighting the vibrant and intense culture of translation on Europe's periphery Viewed in a broad cultural context the selected texts reflect a nuanced understanding of the Russian response to world literature and highlight the attempts of Russian writers to promote Russia as an all inclusive cultural model

Interpreters and War Crimes Kayoko Takeda, 2021-03-23 Taking an interdisciplinary approach this book raises new questions and provides different perspectives on the roles responsibilities ethics and protection of interpreters in

war while investigating the substance and agents of Japanese war crimes and legal aspects of interpreters taking part in war crimes. Informed by studies on interpreter ethics in conflict historical studies of Japanese war crimes and legal discussion on individual liability in war crimes, Takeda provides a detailed description and analysis of the 39 interpreter defendants and interpreters as witnesses of war crimes at British military trials against the Japanese in the aftermath of the Pacific War and tackles ethical and legal issues of various risks faced by interpreters in violent conflict. The book first discusses the backgrounds, recruitment and wartime activities of the accused interpreters at British military trials, in addition to the charges they faced, the defence arguments and the verdicts they received at the trials, with attention to why so many of the accused were Taiwanese and foreign born Japanese. Takeda provides a contextualized discussion focusing on the Japanese military's specific linguistic needs in its occupied areas in Southeast Asia and the attributes of interpreters who could meet such needs. In the theoretical examination of the issues that emerge, the focus is placed on interpreters' proximity to danger, visibility and perceived authorship of speech, legal responsibility in war crimes and ethical issues in testifying as eyewitnesses of criminal acts in violent hostilities. Takeda critically examines prior literature on the roles of interpreters in conflict and ethical concerns such as interpreter neutrality and confidentiality, drawing on legal discussion of the ineffectiveness of the superior orders defence and modes of individual liability in war crimes. The book seeks to promote intersectoral discussion on how interpreters can be protected from exposure to manifestly unlawful acts such as torture.

Translation and Opposition Dimitris Asimakoulas, Margaret Rogers, 2011-09-06 Translation and Opposition is an edited volume that brings together cultural and sociological perspectives by examining translation through the prism of linguistic cultural hybridity and intra-social agency. In a collection of diverse case studies ranging from the translation of political texts to interpreting in concentration camps, the book explores issues of power, struggle, ideology, censorship and identity construction. The contributors to the volume show how translators, interpreters and subtitlers as mediators put their specific professional and ethical competences to the test by treading the dividing lines between constellations of in-groups and cultural or political others.

The Royal and Russian Navies David Fields, Robert Avery, 2025-04-15 Before the political rupture between Russia and the West triggered by Russia's annexation of Crimea in 2014 and the invasion of Ukraine in 2022, the Royal Navy and the Russian Navy engaged in a complex programme of military cooperation. From 1988 the Royal Navy first collaborated with the Soviet Navy, then the Russian Federation Navy, culminating in a 1998 Memorandum of Understanding on naval cooperation. This book explores that unique period, examining how both navies operated and the lessons Russia drew about maritime power in advancing its global interests. With the ongoing conflict in Ukraine and growing tensions between Russia and the Euro-Atlantic community, the maritime domain remains a critical arena for defence deterrence and potential military dialogue. The

lessons from this era of cooperation offer valuable insights for navigating an uncertain future Russia's Steppe Frontier
