**Susanne M. Birgerson**

## **Russian Nationalism Yesterday Today Tomorrow:**

Russian Nationalism Stephen Carter,1990      **Russian Nationalism** Stephen K. (Senior Lecturer In Politics An Nd Government Carter (City Of London University),1993-04      **Russian Nationalism Since 1856** Astrid S. Tuminez,2000 This thoughtful book describes the range of nationalist ideas that have taken root in Russia since 1856 Drawing on a wide range of archival documents and unparalleled interview material from the post Soviet period Tuminez analyzes two cases\_Russian panslavism in 1856 1878 and great power nationalism in 1905 1914 \_when aggressive nationalist ideas clearly influenced Russian foreign policy and contributed to decisions to go to war Yet not all forms of nationalism have been malevolent and the author assesses competing nationalist ideologies in the post Soviet period to clarify the conditions under which a particularly belligerent nationalism could flourish and influence Russian international behavior      **New Russian Nationalism** Pal Kolsto,2016-03-24 Traces Russia s transforming nationalism from imperialism through ethnocentrism and migration phobia to territorial expansion This title was made Open Access by libraries from around the world through Knowledge Unlatched      **New Russian Nationalism** Kolsto Pal Kolsto,2016-03-24 Russian nationalism previously dominated by imperial tendencies pride in a large strong and multi ethnic state able to project its influence abroad is increasingly focused on ethnic issues In 2014 Russia s annexation of Crimea and the subsequent violent conflict in Eastern Ukraine utterly transformed the nationalist discourse in Russia This book provides an up to date survey of Russian nationalism as a political social and intellectual phenomenon by leading Western and Russian experts in the field of nationalism studies It includes case studies on migrantophobia the relationship between nationalism and religion nationalism in the media nationalism and national identity in economic policy nationalism in the strategy of the Putin regime as well as a survey based study of nationalism in public opinion      *Russian Messianism* Peter J. S. Duncan,2002-11 This unique work will be of great interest to those engaged in politics and Russian studies as well as professionals dealing with Russia      Modern Tsars and Princes Jeremy Lester,1995-11-17 This study offers an account of political life in Russia since the fall of communism as ultra nationalists nostalgic communists Westernizers and administrative centrists seek to control the destinies of a deeply troubled society and state      **A History Of Russia Volume 2** Walter G. Moss,2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world      Echoes of the Holocaust Klas-Göran Karlsson,Ulf Zander,2003-01-01 The result of a research project conducted by Swedish scholars this text examines interpretations and representations of the Holocaust in European societies primarily focusing on the most recent decades Using specific case studies the articles in this anthology study how when and why the collective memory of the

Holocaust has been expressed and activated for cultural economic political and social reasons      **Questioning the Secular State** David Westerlund,1996 Should the state be secular or religious Here the author seeks to determine the extent of the role of religion in political life      Intermarium Marek Jan Chodakiewicz,2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture      Epic Revisionism Kevin M. F. Platt,David Brandenberger,2006-02-23 Focusing on a number of historical and literary personalities who were regarded with disdain in the aftermath of the 1917 revolution figures such as Peter the Great Ivan the Terrible Alexander Pushkin Leo Tolstoy and Mikhail Lermontov Epic Revisionism tells the fascinating story of these individuals return to canonical status during the darkest days of the Stalin era An inherently interdisciplinary project Epic Revisionism features pieces on literary and cultural history film opera and theater This volume pairs scholarly essays with selections drawn from Stalin era primary sources newspaper articles unpublished archival documents short stories to provide students and specialists with the richest possible understanding of this understudied phenomenon in modern Russian history These scholars shed a great deal of light not only on Stalinist culture but on the politics of cultural production under the Soviet system David L Hoffmann Slavic Review

**After the Breakup of a Multi-Ethnic Empire** Susanne M. Birgerson,2001-12-30 The relationship between the Russian Federation and the 14 non Russian successor states is unequal with Russia the dominant power This power imbalance is a hold over from the Soviet era in which the RSFSR was first among equals Empires like the Soviet one are specific types of political systems that differed from modern states The centralized multi ethnic and non democratic character of empires explains the continued dominance of the Russian Federation It also explains the absence of alternative economic arrangements and political contacts between the former republics The Soviet system was structured so as to establish

Russian control over non Russian republics The political structure was centralized so that all decisions including investment production and distribution decisions were made in Moscow Economic planning dictated a complex network of production and distribution that rendered the former republics dependent on Russia in a variety of ways Soviet patterns of government administration and economic management are still evident in all the former republics Continued dependency on Russia has compromised the state building efforts of the former republics Political rhetoric trumpeting new foreign investment the expansion of diplomatic relations the signing of trade agreements and the imminent entrance into international organizations masks the fact that none of these new contacts have been able to replace the old Soviet production and distribution networks Scholars and students involved with comparative politics and Russian post Communist Studies will find the work of particular value

**The Making of New Russia** Anuradha M. Chenoy,2001      **Slavophiles and Commissars** J. Devlin,1999-05-17

This book examines contemporary Russian nationalism as it reemerged in the wake of Gorbachev s liberalisation The book argues that the new nationalism provided opponents of reform with an apparently novel justification for their hostility to the liberalisation inaugurated by Gorbachev and erratically pursued by Yeltsin

*Religious Liberty in Transitional Societies* John Anderson,2003-08-14 It is commonly assumed that the issue of religion declines in political significance as societies modernise However the upheaval associated with the shift from authoritarian to more open regimes can be accompanied by a revitalisation of religion Individuals within these societies are struggling to find meaning in the seeming chaos of political change religious elites are seeking to define their own role within the new order and political elites are looking for new ways of ensuring legitimacy and building national unity In this book John Anderson constructs a theoretical framework where he compares and contrasts the politics of religious liberty in two Southern European countries two Central Eastern European countries and the evolution of the former USSR particularly Russia Exploring these issues of religious recognition and religious diversity Anderson attempts to expose the wider problem of creating a democratic mentality in such transitional societies through extensive original research and interviews

*The Companion to Said Nursi Studies* Ian S.

Markham,Zeyneb Sayilgan,2017-08-24 Contemporary Islamic theology remains a neglected area in studies on Islam This work is dedicated to the thought and ideas of Said Nursi 1876 1960 one of the most prominent Muslim theologians of the twentieth century Nursi inspired a faith movement the Nur community that originated in Turkey It continues to play a key role in the revival of Islam and now numbers several millions of followers worldwide His legacy and impact deserve therefore to be examined more closely This volume is the most substantial overview in English of the inspiration of Said Nursi and his masterpiece the Risale i Nur In the beginning the essays provide the reader with Nursi s historical context and biography Then Nursi s theological views his understanding of society and ideas on politics are placed under the spotlight Over the last twenty years more and more comparative religion specialists in the West have become acquainted with Said Nursi Nursi studies is now an established discipline and this volume is a celebration of that reality As it reveals Muslims and Christians

are grappling with the wisdom of this remarkable rich thinker      **Slavophile Thought and the Politics of Cultural Nationalism** Susanna Rabow-Edling,2012-02-01 Susanna Rabow Edling examines the first theory of the Russian nation formulated by the Slavophiles in the second quarter of the nineteenth century and its relationship to the West Using cultural nationalism as a tool for understanding Slavophile thinking she argues that a Russian national identity was not shaped in opposition to Europe in order to separate Russia from the West Rather it originated as an attempt to counter the feeling of cultural backwardness among Russian intellectuals by making it possible for Russian culture to assume a leading role in the universal progress of humanity This reinterpretation of Slavophile ideas about the Russian nation offers a more complex image of the role of Europe and the West in shaping a Russian national identity      *The Right to Rule* Hugh De Santis,2021-01-06 In *The Right to Rule* American Exceptionalism and the Coming Multipolar World Order Hugh De Santis explores the evolution of American exceptionalism and its effect on the nation s relations with the external world De Santis argues that the self image of an exceptional providentially blessed society unlike any other is a myth that pays too little heed to the history that shaped America s emergence including its core beliefs and values which are inheritances from seventeenth century England From the republic s founding to its rise as the world s preeminent power American exceptionalism has underpinned the nation s foreign policy but it has become an anachronism in the twenty first century De Santis argues that in the emerging multipolar world order the United States will be one of several powers that determine the structure and rules of international politics rather than the sole arbiter      Russian Society and the Orthodox Church Zoe Knox,2004-06-02 Russian Society and the Orthodox Church examines the Russian Orthodox Church s social and political role and its relationship to civil society in post Communist Russia It shows how Orthodox prelates clergy and laity have shaped Russians attitudes towards religious and ideological pluralism which in turn have influenced the ways in which Russians understand civil society including those of its features pluralism and freedom of conscience that are essential for a functioning democracy It shows how the official church including the Moscow Patriarchate has impeded the development of civil society while on the other hand the non official church including nonconformist clergy and lay activists has promoted concepts central to civil society
