## **Russian Republics:**

**The Russian Republic** Cecil L'Estrange Malone, 1920

**Russians in the Former Soviet Republics** Pål Kolstø, 1995

The break up of the Soviet Union in 1989 left 25 million Russians living in the near abroad outside the borders of Russia proper. They have become the subjects of independent nation states where the majority population is ethnically linguistically and often denominationally different. The creation of this new Russian diaspora may well be the most significant minority problem created by the dissolution of the Soviet Union. Paul Kolstoe traces the growth and role of the Russian population in non-Russian areas of the Russian empire and then in the non-Russian Soviet republics. In the post-Soviet period special attention is devoted to the situation of Russians in the Baltic countries, Moldova, Belarus, Ukraine, and the former Central Asian and Caucasian republics. A chapter written jointly by Paul Kolstoe and Andrei Edemsky of the Institute of Slavonic and Balkan Studies, Russian Academy of Sciences, delineates present Russian policy toward the diaspora. Finally, Kolstoe suggests strategies for averting the repetition of the Yugoslav scenario on post-Soviet soil.

**Inter-Republican Co-operation of the Russian Republic** Anwara Begum, 2019-01-15. First published in 1997, this book explored Russia's politics at an important phase in the life of the Russian state. Focusing on the different types of cooperative interactions between Russia and the fourteen other republics of the former Soviet Union from mid-1990 to late 1991, the book brings out the nature of the Russians' effort to reconfigure its ties with these republics. At a time when the Soviet empire, with an aim to limit the damage to the interests of the Russians, as the author concludes, Russia's inter-republican cooperation was a carefully thought-out policy to undermine the Gorbachev government's effort to control centre-periphery relations and manage the uncontrolled break-up of the Soviet Union, Russia signalled through its cooperative relations with the republics that it was willing to accept the republics as sovereign and view its own interaction with them as inter-state relations.

**Encyclopaedia of Contemporary Russian** Tatiana Smorodinskaya, Karen Evans-Romaine, Helena Goscilo, 2013-10-28. The Encyclopedia is an invaluable resource on recent and contemporary Russian culture and history for students, teachers, and researchers across the disciplines.

**Russia and the World Economy** Alan H. Smith, Alan Smith, 1993-05-20. Russia and the World Economy analyses the major economic, historical, and political obstacles to the successful integration of the Russian economy into the world economy. Alan Smith examines the role of Western assistance and advice in this process and the potential implications of failure of reforms in Russia for global stability and international relations.

**The Russian States** Great Britain. Foreign Office, 1922

Compiled against the background of the enormous sociopolitical change in China between 1970 and 1990, this work provides a detailed lexicography of political and social life in China. It includes 1600 entries, each averaging half a page in length.

**The Decline of Regionalism in Putin's Russia** J. Paul Goode, 2011-05-11. This book reassesses the process whereby, after 2000, Putin reversed the process by which, in the 1990s, power had shifted from Moscow to the regions.

It focuses on the dynamics of regional boundaries juridical boundaries which defined a region's territorial extent and thereby its resources institutional boundaries that sustained regional differences and cultural boundaries that defined the ethnic or technocratic principles on which a region could claim legitimate existence

**National Identity and Ethnicity in Russia and the New States of Eurasia** Roman Szporluk, 1994 First Published in 1995 Routledge is an imprint of Taylor Francis an Informa company

**The Geography of Nationalism in Russia and the USSR** Robert J. Kaiser, 2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser's place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured national processes and international relations Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
